STEEL
The Metalworking Weekly

EDITORIAL INDEX

VOLUME 154

January 1 to June 30, 1964

Subject Index 3
Company Index 18

THE PENTON PUBLISHING COMPANY

Penton Building, Cleveland, Ohio 44113

SUBJECT INDEX

A

Abrasives:
Abrasive machining goes automatic, 4/13, p.88
Coated abrasive belt (40 grit aluminum oxide) removes metal from slabs, 2/3, p.20
Technical conference highlights (ASAM), 3/30, p.49
Ultrasonic and abrasive jet makes holes in brittle materials, 5/18, p.52
Wet abrasive cutting saw simplifies warehousing (stainless bars), 6/1, p.46

Acquisitions: See Mergers

Adhesives:
Structural adhesives are newcomers, 4/27, p.50
See also Joining

Aerospace:
See NASA
See Space Materials & Developments

Aerospace Industries Assn.:
Packaging standards set for vendors, 5/25, p.45

Africa:
Economic conditions good for U. S. investors, 3/2, p.29
Ferrochrome plant, Transvaal, S. Africa, 5/25, p.49
U. S. firms form Machine Tools International (Afro-Asian) to sell and service markets, 5/11, p.31

Air Compressors:
50 psi compressor for blast furnace, U. S. Bureau of Mines lab, 2/10, p.35

Air Conditioners:
Air conditioner (Breezewagon) aids relining of oxygen furnace, 3/9, p.52
Portable air conditioner, 6¼ ounces can be strapped to waist, 2/10, p.35
Vortex tube for air conditioning unit (emits cool air) dev. by Kaiser Aluminum, 3/16, p.116

Air Conditioning, Heating & Refrigeration:
Meeting reports industry trends, 1/27, p.28

Aircraft:
A-11 (of titanium), contractors, follow up to U-2? 3/9, p.25
Air freight substitute for excessive stockpiling, 4/6, p.18
Bendix builds weather landing-system, Microvision aids pilot, 4/6, p.18
F-11I fuselage section, air cushion assembly aids tooling technique, 2/17, p.31
F-11 fighter-bomber, welded piece of D6AC steel alloy, 6/8, p.109
FCC seeks replacement for DC-3, airframemakers enter competition, 6/15, p.18
SST program (civil) economic impact, 3/23, p.18
SST program, A-11 linked, 3/9, p.25
SST supersonic transport financing a sore point to engine manufacturers: Black (LBJ adviser) seeks aid, 2/17, p.27
SST financing compromise plan likely, 5/11, p.26
SST aircraft, titanium usage, 3/23, p.18
SST airframe design calls for 90,000 lb of titanium, 3/30, p.119
XB-70-A Mach 3 bomber, breakthroughs in materials and fabrication methods, 5/18, p.29

Air Force:
Chart: How to pick a manufacturing process, 1/16, p.131
Electrohydraulic forming large sheet metal parts, Republic Aviation contract, 2/24, p.52
Machine tool chatter research contract, 4/27, p.18
Machine tool study, Birmingham Univ., England, award, 3/23, p.19
Wright-Patterson center to disseminate machining information, 3/30, p.180

Air Nozzle:
Swedish unit, built of nylon, offers safety to operators, 3/23, p.20

Air Pollution:
General Public Utilities process cuts air pollution, gives marketable sulfuric acid (removes contaminants resulting from burning soft coal), 4/20, p.47

Alexander Hamilton Institute:
Executive talent, where to find (look to military retirees), 3/2, p.17

Alloy Casting Institute:
Annual meeting report: Coming —better descriptions for alloy castings surfaces, 6/29, p.53

Alloys:
Alloy solves clamping problem (Cerro-Lo), held in plastic bag, 5/25, p.87
Aluminum 2219, space alloy of future, 3/16, p.36
Aluminum-nickel, high strength, 2/3, p.18
Bell Lab develops Remendur, magnetic alloy, 2/17, p.106
Beryllium research, new markets in aerospace, 2/24, p.57
Beryllium for space vehicle skin panels, 4/20, p.49
Chromium alloys improved via additions of rhenium, etc., 3/30, p.36
Chromium - titanium - silicon coating protects columbium at high temps., 3/16, p.128
Columbium and molybdenum wire used in temperature sensor (ASSET, AF's winged vehicle) testing. 3/9, p.53
Columbium - based, high strength alloy, Stellite Div., 6/22, p.64
Copper alloys (See Copper)
Italian study of complex alloys, 5/4, p.35
Magnesium-lithium, new aerospace material (sheet - plates), 4/20, p.47
Magnesium - lithium tests, 6/22, p.68
Ni-Hard iron, abrasion resistant alloy, 1/20, p.56
Silver alloy (Easy Flo 45) for brazing faucets, used in joints, 2/10, p.99
Titanium-copper-zinc alloy new, 4/27, p.25
Titanium uses (see Titanium)
Tungsten alloy cast, rolled into bars, 2/10, p.47
Waspalloy heats evaluated, 2/17, p.60
Weldable superalloy, Rene 62, 3/23, p.28
Weldments of X7000 series, 4/27, p.74
See also Steel Alloys

Aluminum:
A turning point in '64? How much aluminum is available, where it went in '63, 1/13, p.25
Aluminized steel (Armco) for architectural forecast, 3/30, p.180
Aluminum 2219, space alloy of future, 3/16, p.36
Aluminum containers and packaging forecast, (Connors before Nat'l Canners show), 2/17, p.57
Automotive, new inroads for aluminum? 1/20, p.83
Clad aluminum takes one-coat porcelain enameling in pastel colors, 3/2, p.17
Clad aluminum sheet, mirror surface, 2/17, p.106
Continuous casting, wider usage forecast, 3/30, p.132
Estimated metal usage (cans, buildings), 4/13, p.35
Forged aluminum jugs for propellents, 4/20, p.112
Hungarian aluminum (Hegal) for building, structures, 6/15, p.18
Reynolds markets new ceramic aluminas, RC-1 series, 5/4, p.136
Sintered aluminum powder can be spotwelded, 4/13, p.36
Soviet method of producing basic aluminum (Electroheat), 3/23, p.20
See also Prices

Aluminum Plants:
Alco installs 2nd potline at Warrick Works to supply new sheet rolling mill, 4/27, p.29
Aluminum rolling mill, Jackson County, Ala., 2/17, p.35
French firm (Pechiney) enters partnership with American Metal Climax and Howe Sound to build reduction plant, probably in Pacific Northwest, 4/13, p.33

American Association of Industrial Management:
Factors shaping bargaining pressures, 6/15, p.28

American Foundrymen's Society:
Lloyd elected president at Castings Congress, 5/4, p.47
Training courses, scientific-technical, 3/9, p.35

American Gas Assn.:
Gale named dir.-research, B, 5/11, p.36

American Gear Manufacturers Assn.:
Elects Bauer president, 6/15, p.28

American Institute of Chemical Engineers:
Kuli reports: Corrosion costs $10 billion yearly, 3/30, p.130

American Institute for Imported Steel:
Schilling: Steel imports in '63, 6/8, p.34

American Institute of Mining, Metallurgical & Petroleum Engineers:
Dr. Fetters elected president, 3/2, p.31
Metallurgical conference: Idea exchange set for metal producers, 3/2, p.31
Metallurgical Society elects president, B, 3/9, p.35
Open hearth merits vs basic oxygen discussed, 4/20, p.44

American Institute of Physics:
Discovers subatomic particles called Omega Plus, 4/2, p.20

American Iron & Steel Institute:
1963 payroll is record, 2/17, p.18
Roche to present brief on mill product tariffs, 2/3, p.27
Special alloy steel cuts cost of Houston-New York pipeline, 2/10, p.34
Meeting report: Increased capital spending (Patton), awards medal to J&L men for basic oxygen practices, 6/1, p.25
Speakers urge closer relationships between steelmakers and government, 6/1, p.25

American Machine Tool Distributors' Assn.:
Watson (Basford Co.) sums up meeting theme: Why equipment builders need better forecasts, 3/23, p.25

American Management Assn.:
Benefits of U. S. investment in Mexico (seminar), 2/17, p.28
Data processing conference: Prof. McDonough — how to evaluate computer information systems, 3/16, p.117
Personnel conference, executives rap overtime proposal, 2/24, p.26
Personal conference, 'outside' panelists cite new roles (Autometics, Goodrich, MIT), 2/24, p.28
Speakers arguments for trade with Reds, 6/1, p.21

American Marketing Assn.:
Davidson (AMA) speaks on market research push, 4/20, p.34
New products conference: Stock of scientific data awaits commercial use, 5/11, p.31
Dallas conference: Marketing tips for capital goods producers, speakers—Harks, Rogers, Eden, 6/22, p.25
Dallas conference speaker (Sessions): Organizational lines can insulate executives from reality, 6/22, p.17

American Metal Stamping Assn.:
Keith: Stampers in market for new equipment, 3/30, p.35
Presents Higgins redesign award, 3/30, p.52
Spring meeting: Stampers say they'll hold price line, 3/30, p.43

American Newspaper Publishers Assn.:
Townsend (Chrysler) raps defense spending 'myth', 5/4, p.34

American Nuclear Society:
Elects president, B, 6/29, p.32

American Power Conference:
Report: GPU process cuts pollution, gives marketable sulfuric acid as byproduct, 4/20, p.47

American Railway Car Institute:
Moves headquarters, B, 1/13, p.23

American Society for Abrasive Methods:
Elects, B, 4/6, p.36
Technical conference highlights, 3/30, p.49

American Society of Mechanical Engineers:
Design Show: Computer aid to design, 4/27, p.29
Design Show highlights, Chicago next week, 5/4, p.116
Exhibitors, new materials take spotlight, 5/18, p.25

American Society for Metals:
Appoints Cottrell dir. documentation service, B, 2/3, p.33
Broad technology highlights West Coast show, 3/23, p.28

American Society for Quality Control:
Brumbaugh Award granted Sandia Corp. (product defect study), 5/11, p.33

American Society of Tool & Mfg. Engineers:
Conference and tool expo highlights, 4/13, p.90
Detroit Show: New materials, foreign exhibitors, 4/27, p.26
Value engineering described at meeting by Billman (Bendix), 4/20, p.118

American Welding Society:
Annual meeting, exposition highlights, 4/27, p.53

Appliances:
Industry meeting, makes study growth opportunities. 3/16, p.43
1964 sales record breaking stride, 4/13, p.33
1964 production-sales ahead of '63 pace, 4/20, p.167
Electric appliances, shipments, 5/18, p.18
Gas appliance sales, 1/27, p.19
Laundry appliance shipments, 6/29, p.18

Apprentices:
Apprenticeship and on-the-job training urged by Sen. Clark, 6/8, p.34

Government aids toolmakers with apprenticeship costs, 5/4, p.43

Area Development:
ARA attacks South Bend's labor plight (Studebaker shutdown), 1/6, p.45

Argonne National Laboratory:
Computer - memory unit GUS (George Unified System), 1/20, p.28

Army:
Cartridge cases have no metal parts, cellulose fibers impregnated with a resin, 6/8, p.126

Assembly: See Fabrication, Assembly

Assembly Line (Management):
NLS: No-assembly line plan gets results (team groups in 'business for themselves') 5/25, p.90

Association of Iron & Steel Engineers:
Report: Do overseas firms lead U. S. in adoption of technology (systems approach to steel plant automation, advances in continuous casting), 4/13, p.101

Atomic Energy:
Atom life prolonged by imprisonment of radiation, 6/29, p.18
Eutectic bonding joins parts of organic cooled atomic reactor, 2/3, p.61
Fissiochemistry research, 3/9, p.18
High pressure press of 70,000 atmospheres forms shapes from refractory metals and oxides, AEC, 3/30, p.35
Irradiated foods study, 4/13, p.49
Module ups voltages of thermionic energy converters (nuclear heat directly into electricity), 6/15, p.63
Neutrons pinpoint oxygen levels in metals, 3/16, p.34
Nuclear safety tests, AEC, 3/16, p.107
Nuclear magnetic resonance metering highly corrosive liquid flow, 3/2, p.18
Portable air conditioner, 6¼ ounces, AEC, 2/10 p.35
Radiation detection easy with a silicon diode, 2/3, p.20
Subatomic particle discovered, Omega Plus, 3/2, p.20
Tensile test data speeded by computer, AEC, 3/23, p.19

Australia:
Australia-New Zealand, good opportunities for U. S. (trade mission reports), 6/22, p.31
Automakers rank Australia one of top six markets, 5/18, p.89
Cars 'made in Australia' get government boost, 6/15, p.98
Exports of iron-steel up 5/25, p.49
Foreign investments pouring in due to good economic conditions, 3/2, p.29
Japan may supplant Britain as best customer, 3/30, p.45
Japanese check iron ore sites, 6/29, p.19
Motor vehicle registrations, metalworking unions seek wage hike, steel production records, 2/10, p.45
Skilled labor pinch, 4/13, p.34

Automation:
AMTBA meeting: Forecasting international role, 3/23, p.26
Automatic candy packer adapted to metalworking operations, 4/13, p.142
Automatic (setomatic) setscrew driving machine: Redesign for automation pays off, 6/15 p.69
Automatic weld line builds Volkswagen 'beetle' bodies 2/17, p.54
Forging machine (Impacter) aids push for automation, 3/30, p.122
Heart ailments linked to automation, 5/25, p.33
Modular concept for surface treatment equipment, 3/2, p.48

Automotive:
1964 car sales boom, 2/24, p.91
1964 trends show comfort and performance, airconditioning, bucket seats, power steering, etc., 3/9, p.77
1964 sales (pickup) take metals on joy ride, new model car production (chart), 4/27, p.99
1965 styling changes, perimeter frames with torque boxes, 3/23, p.81
AMA reports two car families on increase, 4/20, p.162
AMF joins parts with friction welding-spinning process, 4/6, p.102
Airless spray equipment used in auto foundries, 1/27, p.106
Aluminum. New inroads in auto market? 1/20, p.83
Austin Healey, larger engine, other changes, 3/23, p.82
Australia one of top markets, 5/18, p.89
Automatic assembly, SAE gets criteria, 1/27, p.105
Autopilots for long distance bus or private vehicle travel, 5/11, p.33
Autoworker's average hour pay, 2/24, p.92
Bolts tested automatically at Chrysler, 3/23, p.82
Breakthrough in autodom: Clay models, to computers, to N/C machines, 6/22, p.27
Buick Electra, fewer fasteners, 4/13 p.35
Buick's Skylark, panoramic roof, 2/10, p.166
Cast iron for engine blocks (Ford exec.), 4/27, p.18
Chrome plated plastic dashboards and wheelcovers, experiment, 6/15, p.98
Chrysler builds tomorrow's stamping plant (Kerrigan report) 1/20, p.43
Chrysler's computerized quality control systems, 4/6, p.101
Chrysler seeks share in Rootes Motors Ltd., 6/15, p.35
Communications system links GM outlets, 6/8, p.172
Compacts Barracuda and Mustang; Detroit presents its spring models, 4/13, p.125
Designer Loewy says cars haven't kept pace (he designed the Avanti), 1/27 p.106
Designers' ideas for future cars (tubular frames, fuel bricks, one piece interiors, bubble tops), 1/13, p.51
Design engineers and the law (court cases): Rushmer addresses SAE, 6/29, p.79
Diesels, fuel economy (Nissan and Mercedes), 4/27, p.100
Expansion, equipment plans for Chrysler, Ford and GM, 6/1, p.27
Flexible equipment sought (Ford executives explain), 3/9, p.39
Ford cold extrudes pole piece for alternator rotors, 3/23 p.50
Ford's electrocoating line, 5/11, p.108
Ford's sealing materials for fastening car trim, 5/4, p.174
Ford studies assembly site in Japan, 6/22, 89
Ford racer uses bladder fuel tank, 6/15, p.98
Foreign models gain, 4/27, p.99
Gas turbine (Chrysler), 6/8, p.172
GM's $2 billion expansion program, 22 divisions to share, 3/30, p.161
GM dream car, automatic turnpike cruiser, pic. 4/20, p.162
GM-is it readying for 1966 front wheel drive (Corvair)? 1/27, p.105
GM proves MHD lubrication theory, 3/23, p.82
GM purchasing controls, how maintained, 6/15, p 97
GM pushes proving ground tests (reasons), 5/25, p.141
GM's Ternstedt working on aluminum wheels, 2/24, p.91
GMC brake systems checked by computer, 6/29, p.80
GMC truck has V-6 diesel engine, 1/20, p.84
Italian automaker (Fiat) buys cold extrusion press line for making wrist pins, 2/17, p.94
Leasing cars applicable to purchase, 5/25, p.142
Leisure market sparks boom in trailers, etc., 4/20, p.161
License plates of stainless, 4/6, p.66
Maintenance check (lube, oil change) device on dashboard, 5/25, p.142
Mexican car due on market (Borgward), 1/27, p.28
Mirror glued to windshield (convertibles) with vinyl adhesives, TO, 4/27, p.20
Model leadtime may depend on numerical information, 6/15, p.18
Oldsmobile unveils new paint line, 5/4, p.173
Opel Kadett will be sold by Buick dealers 2/10, p.165
Plastic uses, 1/13, p.51
Plastic bodies A. O. Smith, Budd, suppliers: Corvette and Avanti have fiberglass bodies, 2/3, p.87
Plastic auto bodies assembled at Ionia, Mich., plant, joint venture of Dow Smith, 3/23, p.82
Plastic gas tanks, new method of molding, 1/27, p.106
Plastic molded body panels goal of Fiberfil Inc., 4/13, p.102
Price line to hold 5/25, p.142
Protective coating used by Budd-automotive, 3/9, p.44
Proving ground tests (racing helps sell cars), 5/25, p. 141
Rear view mirrors require improvements, 4/6, p.102
Remote control for car gadgets feasible soon, 2/3, p.88
Reuther—will he bolt the guidelines? 3/16, p.167
Rust preventives: Use of calcium chloride by cities for snow removal is automaker concern, report on corrosion tests 3/2, p.79
Safety devices absent (court case) Blitzen vs Ford in '61, 6/29, p.79
Sales/inventory positions, 2/24, p.91
Six-cylinder engine plants (GM and AMC), 3/9, p.78
Stainless coat for coils (auto trim) at DuPont suspended, 3/2, p.17
Steel shipments (chart), 4/27, p.100
Steel usages: U. S. Steel shows Detroit its portfolio of styling uses, 6/8, p.171
Studebaker tightens operations (Avanti not scheduled, Canadian output upped, South Bend operations down), 6/1, p.73
Supplier plants 'borrow' automaker skilled men, 5/25, p.44
Suppliers share of sales dollars, 3/16, p.168
Surface preparation system (Europe), car body carried on spit through prepaint treatment cycle, 3/2, p.40
Tool and die shops in Detroit suffer shortage of skilled help, DTA and UAW surveyed 2/17, p.93
Trailers, leisure sparks boom of recreational vehicle units, 4/20, p.161
Volkswagen offers magnesium diecasting tipe (SAE), 1/13, p.52
Volkswagen's automated weld line 'beetle' bodies, 2/17, p.54
Welding CO_2 replaces other methods, 4/27, p.75
Welding frames, M'g method at Pontiac, 4/27, p.100
World markets merging (AMC speaker), 5/25, p.34
World vehicle production, U. S. holds its own, 2/10, p.165
World vehicle registrations growth (table), 4/20, p.49

Awards:
Brumbaugh Award to Sandia Corp., 5/11, p.33
E-Flag to All-State Welding Alloys, and International Div., Fairbanks, Morse, B, 4/13, p.52
Harry A. Cooper Award for castings, 6/29, p.53
New Jersey Zinc awards in powder metals, 6/1, p.52

B

Balance of Payments:
1964 outlook reported by NFTC, 2/17, p.29

Bars:
Electron inspection classifies hot rolled bars at Republic, 6/8, p.112
Hollow stainless steel bars dev. at Harper 6/29, p.31
Tungsten alloys, cast, rolled into bars, 2/10, p.47
Warehouse uses wet abrasive cutting saw for stainless bars, 6/1, p.46

Battelle Memorial Institute:
Aerospace alloy (magnesium-lithium) lighter than aluminum for structurals, 4/20, p.47
Appoints Minton dir., Columbus labs, B, 1/13, p.23
Dr. Williams addresses SAE: Controlled foundry practice improves properties of aluminum sand castings, 2/3, p.52
Explosive compaction of powders cuts reactor costs, 5/18, p.17
Solid fuel rocket motors, reliability 3/9, p.19
Summarizes tests for Luria: Turnings, borings strengthen sintered ore, 3/23, p.54

Batteries:
Portable battery for hand tools and appliances shown at Design Show, 5/18, p.26

Bearings, Bushings:
Air bearings improve welding carriages, 4/20, p.95
Auto joint bearings, Chrysler's bouncing test, 6/29, p.80
Improved raw materials specifications, cleaner bearing races, tubing costs down, 4/6, p.66
Maintenance of tapered roller bearings, four categories 2/3, p.50
Metal films lubricate bearing (NASA), 2/10, p.35
Small bearings, preventing liquids from spreading, 2/10, p.36
SKF computer boosts testing capacity, 6/22, p.60
X bearing for tunnel boring machine, weights 16,000 lb, 6/8, p.49

Bending: See Forming, Bending

Beneficiation:
Chemical process (pressure leaching with ore containing copper, nickel and cobalt,) 2/10, p.89
Ore, acid, and power from roasting process of pyrite ore in Italy 4/13, p.94

Beryllium:
Beryllium compressor parts for jets engines, 2/24, p.20
Beryllium spacer, new structural for aerospace, 2/24, p.57
Forming beryllium shapes, TO, 4/20, p.36
Lockheed uses lightweight beryllium (rolled in large sheet sizes) for space vehicle, 4/20, p.49

Billets:
Billet preparation via Flo-Peeling metal removal, 5/11, p.61

Blanking:
Smooth edge blanking, new European forming process in single stroke, 4/20, p.96

Blast Furnace Operation: See Steelmaking

Blast Furnaces:
Bell, hopper assembly tops blast furnace at Aviles, Spain (pic), 3/2, p.58
Low grade iron ore processed into pelletized ore for blast furnace (Iron Mt. plant), Dravo-Lurgi grate process, 3/2, p.54

Blasting: See Cleaning, Blasting

Bonding: See Joining

Boring, Drilling: See Drilling

Boron:
Boron nitride, moisture-proof grade for electronics and aerospace, 6/1, p.49
Pyrohydrolysis process recovers boron from boron-10 materials, 4/27, p.19

Brass:
Hard spots are common in melting brasses, silicon and boron may be factors, 6/15, p.18

Brazing:
Ceramic to metal seal by brazing, 5/18, p.64
Ceramics brazed to refractories, 4/27, p.72
Insulating blanket levels brazing temperature (honeycomb assemblies) Kaowool ceramic fiber in blanket form, 5/18, p.66

Nickel brazing joins stainless valve assemblies, 1/27, p.67
Refractory brazing, new techniques, 3/9, p.20
Semiautomatic machine brazes pressure gages and switches, 3/23, p.48
Silver alloy (Easy F10 45) used in brazing faucet joints, 2/10, p.99

British Iron & Steel Federation:
Appoints president-elect, 3/2, p.32
Fuel-oxygen burner melts scrap rapidly, 2/20, p.97
Iron-zinc coatings, corrosion resistant, 2/24, p.58

British Nonferrous Metals Research Assn.:
Hard spot formation common problem in melting brasses, silicon and boron may be factors, 6/15, p.18

British Steel Castings Research Assn.:
Appoints dir. of research, 5/4, p.52

British Welding Research Assn.:
Spotwelds checked by device measuring thermal expansion, 4/6, p.20 and 6/22, p.33
Study hot cracking in welded portion of low alloy steels, 2/24, p.20

Brushes:
Brushes solve a deburring problem (rifle production), 3/23, p.49

Bureau of Mines:
Bruceton lab: 50 psi compressor for blast furnace, 2/10, p.35
Method of casting hafnium carbide, 2/17, p.20

Business & Defense Services Adm.:
Productivity measuring, a new guide: Paul McGann, 2/10, p.41
Productivity within industries varies, analysis, 6/22, p.18
Irradiated foods study may spark new industry, 4/13, p.49

Business Economy:
1964 forecast bright, STEEL forecast, 1/6, p.33
1964-3rd quarter outlook, 6/22, p.93
1975 projections (20th century fund report), 5/4, p.33
Automakers, construction records are barometers, 2/10, p.33
Business-government ties (LBJ's impact), 1/6, p.43
Business trend, what purchasing men see ahead, 5/18, p.93
Economist (Moeller Jr.): Don't be complacent about inflation, 5/25, p.33
Editorial: Inflation, will it happen again? 4/13, p.31
Editorial: What about 1965? 4/6, p.15
Prices become chief concern, 4/13, p.129
STEEL's Panel forecast: No letup in sight, 4/13, p.41

Business Forecasts:
Why equipment builders need better forecasts, 3/23, p.25

Business-Government:
See Labor-Management

C

Canada:
Capital expenditures up, 5/25, p.35
Capital spending surge, 4/20, p.167

Cans: See Packaging

Capital Equipment:
AMTBA survey: Why equipment builders need better sales forecasts, 3/23, p.25
A better way to buy capital equipment, systems approach, 6/1, p.34
Capital equipment buying solutions via special technical studies: Putting the customer problem into perspective (Ingersoll Milling), 2/17, p.47
GE forecast ten year buying spree, new machinery and equipment, 4/13, p.33
Manufacturing equipment older while plants get younger, NICB survey, 3/2, p.18

Capital Expenditures:
New plant and equipment, all industries, (Commerce - SEG), 3/16, p.4
Plant and equipment, all industries, 6/15, p.29
Steel resurgence . . . good news to users (company presidents speak), 4/6, p.51

Capital Goods:
AMA meeting: Marketing tips for capital goods producers, 6/22, p.25

Carbon:
Carbon can assume forms (crystalline), TO, 3/16 p.36
Oxidation resistant carbon developed, 3/30, p.134
CO_2 can conduct electricity (English lab), TO, 6/22, p.20

Carburizing:
Nitrogen addition speeds carburizing furnaces, 6/29, p.54

Cast Iron:
Abrasion resistant Type 4 Ni-Hard iron, 1/20, p.56
Grinding rates on cast iron can be doubled, 3/30, p.49
Japanese engine maker experiments with ductile cast iron, 1/20, p.49

Casting, Castings:
Aluminum continuous cast, wider usage forecast, 3/30, p.132
Aluminum sand casting properties improved by controlled foundry practice (Dr. Williams, Battelle), 2/3, p.52
Coming: Better descriptions for alloy castings surfaces, 6/29, p.53
Continuous casting: Controversial approach (techniques of tomorrow), 2/10, p.89
Continuous casting tied to batch process (management decisions), 3/16, p.34
Continuous casting firms join forces (Nat'l Steel, Concast, Mannesmann), 1/20, p.31
Continuous casting unit curved mold type, 4/6, p.35
Continuous casting unit, 2nd at Armco 1/27, p.31
Continuous casting unit, Bethlehem lab, 2/10, p.98
Continuous casting-French unit (Ugine-Venthon process), 3/30, p.134
Continuous casting-German unit, horizontal, stationary mold, 4/27, p.33
Continuous casting-German unit (Huttenwerke Oberhausen), 6/15, p.35
Continuous casting-Japan (Kobe Steel), 1/27, p.19
Continuous casting multistrand unit, Roblin Steel, 5/11, p.35
Continuous casting unit U. S. Steel-Chicago Wks., 5/11, p.33
Continuous casting unit, Weirton (oxygen furnace, vacuum degassing equipment), 3/23, p.33
Engineered castings assure performance of heavy equipment, LFM-Atchison process, 4/20, p.100
Hafnium carbide, casting method, 2/17, p.20
Injection molding short run plastic parts (Grumman), 3/30, p.124
Investment castings: Hitchener Mfg. cast copper high in conductivity, 4/27, p.68
Investment castings sales up, 1/27, p.18
Japanese experiments ductile cast iron with shell mold casting (engine blocks), 1/20, p. 49
Japanese molds produced by N-Process, an exothermic reaction, 1/27, p.69
Leak testing of castings, part of impregnation system, 4/6, p.74
MonoCast nylon solves problem jobs, 3/16, p.104
Nylon products cast directly from monomer (polymerization), 6/22, p.33
Pig iron produces high strength castings, 'Hannalov', 2/10, p.116
Precision cast copper high in conductivity, 3/9, p.41 and 4/27, p.68
Preform cores, fused silica tubing are thermal resistant, 5/25, p.49

Cement:
Gypsum cement holds titanium during hot machining (Hydrostone), 6/15, p.63

Census:
Upper income group growing, 6/1, p.18

Ceramics:
Ceramics brazed to refractories, 4/27, p.72
Ceramic to metal seal by brazing, 5/18, p.64
Ceramic insulator in electric welding torch for hole making (uses spaghetti in mold), 5/18, p.60
Kaowool ceramic fiber in blanket form levels brazing temperature (honeycombs), 5/18, p.66

Chemical Processes:
Ore beneficiation, chemical processes, 2/10, p.89
Lawrence Radiation Lab (Calif.), new chemical theory may develop new materials, 6/22, p.33

Chicago World Trade Conference:
Gale (Studebaker): Some firms engage in world trade 'reluctantly', 3/16, p.122

China (Red):
Industry bows to agriculture (Rutgers report), 1/6, p.47
Mexican auto producer trade, 1/20, p.18
Paris trade mission set up, 1/20, p.30
Scientists technical developments, 3/16, p.47

Chromium: See Alloys

Cladding:
Hortonclad, vacuum-pressure cladding process prevents fatigue crack propagation in high strength materials such as maraging steels, 4/20, p.33
Stainless steel cladding with strip electrode, 3/9, p.19

Clean Room:
Northrop: Machining to 50 millionths, 1/6, p.136

Cleaning, Blasting:
Blast furnace scaffolding-incrustations cleared by explosive charge 1/27, p.74
RotoBlast machine combines core knockout, blast cleaning (Pangborn), 5/18, p.58

Clutches:
Formsprag uses vacuum process wheels to raise product service, 6/8, p.110

Coal & Coke:
Bucket wheel machine for coal handling system, 5/25, p.52
Continuous coking process, 3/9, p.31
GPU process cuts air pollution (removes contaminants resulting from burning soft coal), 4/20, p.47
NCA forecasts coal consumption, 6/29, p.19
Coal mining industry eyes tougher equipment, 5/18, p.31

Coatings: See Finishes, Coatings

Coils:
Shearwelder (Voss machine), aluminum and stainless coils, 6/15, p.31
Transformer coils use all-aluminum foil marketed by Westinghouse, 6/15, p.33

Cold Rolling:
Russian tech. for finish rolling of thin stainless, heat resistant pipes (preheating to 575°), 2/24, p.20

Cold Working:
Heavy cold working increases strength of a copper-nickel alloy, 3/9, p.52

Colleges:
Automakers seek graduates, engineer-scientists, 2/27, p.94
Industry donations up, 4/27, p.18

Columbium:
Columbium-based, high strength alloy (Stellite), 6/22, p.64
Sylvania's R508 coating protects columbium in high temp. to 3150° F, 3/16, p.114
TRW's vacuum pack coating system protects columbium at high temps., 3/16, p.128

Committee for Economic Development:
Why should tariffs be cut 50%? Group endorses trade liberalization, 6/8, p.41

Common Market: See Europe

Communications:
Global communications will demand world marketing (Pfizer president), 6/15, p.17
Human voice carried on beam of light, Retrometer, 5/4, p.124

Company Operations:
NLS: No-assembly line (team groups) plan gets results, 5/25, p.91

Components:
1st quarter survey, 2/3, p.91
2nd quarter survey, 5/4, p.177

Compressed Air:
HERF machine operated by normal compressed air supply, (English), 1/13, p.22
Vortex tube operated by compressed air (air conditioner feature), 3/16, p.116

Computers, Data Processing:
A computer system, how to plan for, how to schedule installation (Foxboro report), 1/13, p.29
AMA speaker (Prof. McDonough): How to evaluate computer information systems, 3/16, p.117
Accounting computer, desk-sized at Burroughs, 1/20, p.28
ADEPT aerospace digital computers (modular), reliable for ten years, common memory, 2/10, p.47
Argonne Lab (AEC) installs GUS (George Unified System), memory computer, 1/20, p.28
Artificial cells (electromechanical neutrons) produce computer that works like human brain, 3/23, p.18
Atols Tool (job shop) pinpoints costs via simple data system (keysort-labor cards and four panel production board), 1/20, p.48
Audio response, teleprocessing unit (IBM): Computer 'talks' back, 2/24, p.56
Auto assembly line computer, Chrysler, 3/30, p.45
Auto dies (clay model to computer) via N/C, 2/24, p.17
Auto engine design aided by computers, 1/27, p.20
Automatic signal analyzer, real-time basis, 5/4, p.35
Brain sized computer possible, says NRC, 2/24, p.51
Chrysler computers cut cost of quality control, 4/6, p.101
Chrysler's new stamping plant set-up (CPM system, N/C Kellering machines, etc.), 1/20, p.45
Closed loop computers, installation suggestions, 6/22, p.18
Computer active partner with design engineer, 1/6, p.126
Computers at Design Show, 4/27, p.29
Computer for design engineering, IBM, 1/20, p.29
Computer engineers complex piping systems, 5/4 p.130
Computer data for designing machinery, Allis-Chalmers, 2/10, p.49
Customer one-day service by direct dial ordering, Kaiser, 3/2, p.25
Customer - to - manufacturer, automatic ordering and data processing system, Norden Div., 5/11, p.83
Data transmission over long distance phone, C-E-I-R center, 3/20, p.36
Data transmision over TV line predicted, 5/18, p.18
Dictaphone Datafax handles late orders at Homestead Wks. (structural steel), 2/24, p.67

Direct dial ordering, one-day service at warehouse, 3/2, p.26
Direct digital control, 6/8, p.35
EDP session (office management), pitfalls to watch installing computers, 3/2, p.30
EDP data processing system at Burroughs, B370, 6/29, p.19
Forecast for 1984, *New Scientist*, 4/6, p.19
General purpose computer systems (IBM), 5/25, p.33
Government purchases rather than rents computers (savings), 5/4, p.130
IBM system-360, start of new era for computers (electronic production knowhow, keyed by microminiature circuits), 4/13, p.44 and p.45
'Intelligence retrieval' computers foreseen, 3/16, p.33
Long distance computer via telegraph and transoceanic cable line (MIT's Project MAC), 4/20, p.34
Middle managers and the computer, 3/9, p.18
Nuclear power station (England) gets computer readout system, 5/25, p.89
Optical reader cuts computer steps at Higbee Co., 3/30, p.52
Prodac 50 (Westinghouse computer) for small shops is desk size, under $50,000, 5/11, p.28
RCA unveils RACE memory system, retrieval and storage information, 2/17, p.68
Simulation via computer, wider use by industry, 2/24, p.19
SKF computer setup boosts bearing tests, 6/22, p.60
Solid state, desk top calculator (Friden 130), 6/8, p.128
Subscribers rent time on extra large computers, TO, 5/18, p.20
Tensile testing data computer, 3/23, p.19
UCLA Hollander: Computer future fills needs but creates problems, 6/8, p.186
Vender rate requirements of military contracts helped by computer system, 3/16 p.120
Voice alarm system (Tel-A-Dex) for digital control computer, 5/18, p.63

Construction:
Administration program would spur construction activity, 1/13, p.20
Bridge beam design employs stainless, 4/6, p.64
Plastic industry aims marketing guns, 6/8, p.51

Consultants:
Management consulting with a 'guarantee', 5/11, p.18
STEEL's panel of economic consultants forecast, 4/13, p.41

Consumer Attitudes:
Univ. of Michigan SRC study, 1/6, p.45

Consumer Durables:
2nd half forecast, 6/8, p.175

Consumer Index:
Computed on new basis, 3/16, p.34

Consumer Spending:
1963 expenditures, 3/30, p.33
Forecast for '64, 6/1, p.18

Containers: See Packaging

Continuous Casting: See Casting

Contract Purchasing:
PAs look hard at contract buying, 5/11, p.25

Copper:
1964 industry forecast, 2/24, p.29
Acrylic lacquer coating protects copper from oxidation, 2/10, p.47
Amsulf (sulfur-bearing copper alloy) serves at high temps in hypersonic wind tunnel, 6/1, p.51
Chilean politics (Communist growth) worry U. S. firms, 3/30, p.45
Copper alloy (Incramet 800) introduced by INCRA, 5/11, p.29
Copper alloy meets rigid specs for MHD generator, 6/15, p.72
Copper-nickel alloy, cold working increases strength, 3/9, p.52
Copper investment castings high in electrical conductivity ratings at Hitchiner Mfg., 4/27, p.68
Copper price outlook (Milliken-Kennecott), 5/11, p.18
Copper tube bending depends on four basic variables (Bridgeport Brass), 3/23, p.47
Copper tube drawing (equipment innovations, improved layout), 2/24, p.46
Silver in copper boosts resistance to oxidation, 3/2, p.49
Stable world price advocated by British exec. before Copper Club, New York, 2/17, p.31
Zerolling tech. strengthens copper base alloys, TO, 2/3, p.20

Copper Development Assn.:
Spring meeting: Price increases unlikely, 5/18, p.28

Cornell University:
Map to moon, method via computer and photogrammetry, 5/4, p.127

Corrosion:
AICE reports corrosion costs $10 billion yearly, 3/30, p.130
Automakers face battle against rust: Use of calcium chloride by cities for snow removal is problem, report on tests conducted, 3/2, p.79
Ductile iron resists corrosion better than ordinary flake graphite iron, TO, 4/20, p.36
Budd Automotive uses protective coating, NO-OX-ID Safegard, 3/9, p.44
Copper protected from oxidation by an acrylic lacquer coating, 2/10, p.47
Ford electrocoats Thunderbird, Lincoln bodies, but can galvanized steel be eliminated for corrosion protection? 5/11, p.107
Hard to reach areas of valve parts protected by proprietary conversion coating process, Jamesbury Corp., 6/22, p.66
Iron-zinc coating protection (BISRA), 2/24, p.58
Micro-organisms culprits in corrosion of aircraft fuel tanks, 3/23, p.20
Polyethylene coating protects cast iron housing, 3/9, p.45
Reds chromize steel surfaces in salt bath, TO, 4/20, p.36
Rust inhibitors, complex chemical compounds based on molybdenum, 5/4, p.34
Silicone coat cuts stainless cracking due to stress corrosion, 5/4, p.35

Cost Cutting:
How Martin saved $65 million via total value analysis, 6/8, p.99

Cryogenics:
Meter monitors level of liquids at cryogenic temperatures, 6/29, p.19

Crystals:
Electron theory of crystal structure (chemical) may develop new metals for space age, 6/22, p.33
Methods of growing single crystal thin films, TO, 6/29, p.20
NASA investigates pyroelectric crystals (heat detecting devices), 6/15, p.66
New mechanism (vapor-solid-liquid) helps grow crystals, 4/6, p.20

Customer Service:
GE takes employees to customer to teach importance of quality control, 3/9 p.48
Ingersoll Milling's special technical studies teach about customer's machining problems, 2/17, p.46
U. S. Steel launches metallurgical service, 5/11, p.29
See also Computers, Data Processing

Cutting Fluids: See Lubricants

Cutting, Shearing:
Automatic cold saw for aluminum ingots, 4/6, p.36
Boeing's special cutter and cutting fluid mills titanium at 500 sfpm, 6/22, p.63
Shearwelder speeds processing of coils, aluminum and stainless, 6/15, p.31
Wet, abrasive cutting saw for stainless bar orders simplifies warehousing, 6/1, p.46

Cutting Tool Manufacturers Assn.:
Elections, B, 3/9, p.29

Czechoslovakia:
Fiberglas bodies for rail car, 5/25, p.36

Data Processing:
See Computers, Data Processing

Deburring:
Abrasive jet stream speeds deburring time, hydraulic filters for missile systems, 4/6, p.33
Brush finishing solved a deburring problem (rifles), 3/23, p.49
New deburring tool, electrochemical method, 2/3, p.19
Wanted: A gentle deburring machine (mfg. problems), 2/17, p.63

Defense Contracts:
A-11 introduced, tied to U-2 (titanium usage, list of contractors), 3/9, p.25
Beloit, Wis., firms team up for defensework: Pics of Sen. Proxmire, Martin, Laurent, 1/27, p.70
Bill introduced by Sen. Case, unsuccessful bidders "debriefed," 2/24, p.19
Competitive pricing, NASA and Defense Dept., 2/3, p.17
Computer aids in vender rating requirements for military contracts, 3/16, p.120
Computer buying rather than renting study, 5/4, p.133
NASA turns to incentive contracting, 5/25, p.100
SST-supersonic transport financing aid sought by engine manufacturers, 2/17, p.27; compromise financing plan likely, 5/11, p.26
SST subcontract volume depends on cost split, government-industry, 4/20, p.43

Defense Spending:
Budget cut coming in 1965, 1/27, p.17
Cost reduction-buying program, savings by 1967 (chart), 4/27, p.103
Defense cut (modern military hardware cut), 2/3, p.28
Defense cut to hit small firms, 6/22, p.29
Defense cut: Concern for small firms in defense grows (Gardner Ackley, President's council sounds warning), 6/29, p.25
Defense cuts, impact on defense contractors, 6/1, p.24 and 6/29, p.26
Defense cuts, impact on metalworking industry?, 6/29, p.83

Degreasing:
Vapor degreasing, a solvent control system, 6/15, p.59
Vapor degreaser speeds mill maintenance, Gary Wks., 6/22, p.62

Denver Research Institute:
Warns of shortcomings in space materials, 2/10, p.113

Depreciation:
Double declining balance is favorite writeoff method, 1/27, p.18

Design:
How we'll design products tomorrow, 1/6, p.126
Students design curvilinear forming machine for sheets (aluminum and other materials), 6/1, p.26

Design Engineering Show: See ASME

Detroit Tooling Association:
Shops feel acute shortage of skilled help, 2/17, p.93

Diecasters:
Diecasters face these hurdles to meet goals, 5/4, p.49

Dies: See Tools & Dies

Disposal Programs: See Stockpile

Distributors:
Direct selling trend worries distributors, 2/10, p.44

Drawing:
Copper tube drawing speeded by equipment innovations, improved layout (Cerro Copper & Brass), 2/24, p.46
Drawability of sheet materials, 6/22, p.53

Drilling, Tapping:
Boring bar (gearshaft holes in transmission cases) cuts costs, 4/20, p.108
How we'll make holes in materials tomorrow (ECM, EDM, electropiercing, ultrasonics, abrasive jet, water blasting, chemical etch), 5/18, p.46
MFS recommendations for drilling malleable iron, 3/16, p.113
Pole Piece, drilling-tapping unit at Reliance Electric replaces 140 tooling arrangements, 1/20, p.53

Drilling Platform:
Contract for Project Mohole (drilling through earth's mantle for research purposes), 2/17, p.19

Drives, Controls:
Fluid coupling eliminates slip, 3/2, p.20
Strain gage tests add more science to heavy duty drives, 4/6, p.56
Tailoring gear drives for tougher jobs (Stafford, Philadelphia Gear, reports), 2/3, p.42

Drop Forging Association:
Allgood retires as executive v. p., 1/27, p.35
Atkinson secretary, 4/13, p.52
Tichenor predicts sales, 5/18, p.18

Drums:
How to recondition, remove labels, glue, etc., 4/6, p.78

Ductile Iron:
Japanese engine maker (Toyo Kogyo) experiments with ductile cast iron, 1/20, p.49
Resists corrosion better than ordinary flake graphite iron, TO, 4/20, p.36
Sonic test shows nodular graphitic structure in magnesium treated ductile irons, TO, 4/20, p.36

Ductile Iron Society:
Elects president, B, 5/25, p.52

Dumping:
U. S. Tariff ruling on Japanese dumping of titanium dioxide, B, 5/4, p.52

Exports, Imports:
See Foreign Trade

Extraction:
American Metal Climax plant to recover oxidized molybdenum from new hydrometallurgical process, 3/2, p.31

Extrusion:
Billets for hydrostatic extrusion need not be straight, 3/16, p.35
Billets get flow peeling, 5/11, p.63
Cerro Copper's new tech. reduces oxidation, 1/6, p.51
Cerro Copper tube drawing speeded by new equipment, 2/24, p.46
Cold extrusion of pole piece for alternator rotors (joint development by Ford and Verson Allsteel Press), 3/23, p.50
Cold extrusion press-hydraulic developed by Bliss/PERA, 5/11, p.71
Designed tools for hydrostatic extrusion, 5/4, p.117
Russian tech. for aluminum drill pipe with variable cross sections, 1/27, p.19

F

Fabrication, Assembly:
Air cushion aids assembly (F-111 fuselage), 2/17, p.31
Assembly of setscrews in an impression typewriter control bar, Setomatic driving machine, 6/15, p.69
Automated Volkswagen facility for building the 'beetle' body, 2/17, p.54
Automatic assembly machine, standard equipment, 4/6, p.33
Fixture pares assembly time (driving inserts), 3/30, p.120
Riveting output hiked 320% by I-T-E Circuit Breaker, 6/1, p.44
Tap Lok fixture speeds assembly, 3/30, p.120

Factory Orders:
Record business, Jan., 3/9, p.17

Facts & Figures:
1964 edition, 3/30, p.71

Fans, Blowers:
Slotted impeller blade on axial vane fans ups pressure, 6/1, p.20

Fasteners, Fastening:
1963 shipments, industrial fasteners (last five years), 2/24, p.18
Automatic, setscrew driving machine (Setomatic) assembly of setscrews in an impression control bar for typewriters, 6/15, p.69
Buick Electra, fewer fasteners, 4/13, p.35
Locking device, dev. by Hughes Aircraft under NASA contract, 4/6, p.84
Locking devices, how to get the most out of (Lipari, Bell Telephone Lab), 6/29, p.50
Metric standard for battle tank fastener (NATO), 6/1, p.23
Nut features built-in mechanism showing when adequate torque is applied, 3/9, p.31
Riveting output hiked 320%, I-T-E Circuit Breaker, 6/1, p.44
Stapler secures corrugated cartons, 5/18, p.60
Tap-Lok, fixture speeds assembly (driving inserts), 3/30, p.120
TEKS (new) drills-taps its own holes, 4/27, p.43 and 5/18, p.54
Titanium screws for supersonic aircraft, 4/6, p.78
Wrenches get torque tension test, 1/27, p.81

Film:
Columbium films dev. by NRC makes brain sized computer possible, 2/24, p.53

Filters: See Dust Collectors, Filters

Financial:
Manufacturing profits '64 forecast (SEC), 4/20, p.165
Metalworking earnings, sales (1962-1963), 2/24, p.96
Metalworking, '63 earnings of 2730 leading corporations increased, 3/23, p.17
Metalworking, 1st quarter ('64) sales-profits, 5/11, p.112
Metalworking, what managers expect in 2nd half, 6/29, p.43
Nonferrous earnings '63, 2/24, p.97
Steel, '63 earnings, 2/10, p.44

Financial Analysis:
Annual financial analysis of the steel industry, insert, 4/6, p.51

Financing:
SBA-ABA (American Bankers) tentative agreement on machine tool loans, 2/3, p.25; turned down by ABA, 5/25, p.44
Supersonic transport (SST) financing aid sought by engine manufacturers, 2/17, p.27
Supersonic transport, compromise financing plan is likely, 5/11, p.26

Finishes, Coatings & Paints:
Aluminide coating for columbium halts oxidation, 2/3, p.104
Aluminide coating protects columbium (Apollo rocket nozzle), 2/10, p.36
Applying coatings to metals, edge preparation process, 2/3, p.51
Bonded coating for tools and dies, 3/9, p.44
Budd-Automotive Div. uses NO-OX-ID Safeguard coat, 3/9, p.44
Clad aluminum alloy, one-coat pastel porcelain enameling, 3/2, p.17
Coated metal powders, trend to composite materials, 6/8, p.47
Columbium coating (R508) protects in high temps., 3/16, p.114
Columbium coating (vacuum pack) protects in high temps., 3/16, p.128
Conversion coating on steel resists heat (cadmium oxides dissolved in acid), 3/16, p.36
Conversion coating systems, automatic unit controls, records baths, 5/4, p.136
Conversion coating (Endurion) protects valves, hard to reach areas, 6/22, p.66
Diffusion coat resists sulfidation (gas turbines), TO, 6/29, p.20
Electrocoating line at Ford, 5/11, p.108
Electrodeposition paint coatings (British), 1/20, p.30 and 5/11, p.107
Flow coating parts at high speed (Boeing), TO, 6/29, p.20
Gold coating blocks hydrogen penetration (Univ. of Florida research), 5/25, p.92
Iron-zinc coat, corrosion protection (BISRA), 2/24, p.58
Lacquer (acrylic) coat protects copper from oxidation, 2/10, p.47

Lacquered bronze finish for electronic parts, 4/6, p.71
Matte finishes on porcelain are weather resistant, 2/24, p.19
Plasma spraying coat creates real diffusion bonding, (substrate), 2/24, p.60
Plasma sprayed parts on mandrel, 4/6, p.19
Polyethylene powder coat (Microthene) protects cast iron housing, 3/9, p.44
Silicone coat cuts stainless cracking in corrosion, 5/4, p.35
Spray gun ends hardening problems (NASA), 5/25, p.87
Sprayed metal coatings, advances, 3/9, p.18
Tin coating (sheets) lubricates, inhibits corrosion, 3/9, p.45
Vitreous enameling steel cheaper (W. Germany), TO, 6/22, p.20

Food Service:
Automatic candy packer adapted to metalworking operations, 4/13, p.142
Automated kitchen designed for drive-ins, AMF, 4/20, p.124
Irradiated foods study may spark new industry, 4/13, p.49

Foreign Competition:
Do overseas firms lead U. S. in adoption of technology? (systems approach to steel plant automation, and continuous casting), 4/13, p.101
Imports, impact on U. S. manufacturers (GE speaker), 6/29, p.18
Nail producers form trade association to tackle import problem, 2/10, p.43
Spring wire imports up following tariff revision, 2/3, p.26
Steelmakers tell their story (inequities in world steel marketing; adverse effects on U. S. steel industry), 2/24, p.27
Steelmakers and world trade 'Give us equal ground rules' pics Hanley, Stephens, Worthington, Cort, Johnston, 5/25, p.43
U. S. firms engage in world trade "reluctantly": Gale (Studebaker International), 3/16, p.122

Foreign Investments:
AMA seminar outlines why Mexico offers venture potential, 2/17, p.28
Australia and S. Africa, sound economic condition looks good for U. S. investor, 3/2, p.29
Australia, New Zealand offer opportunities to U. S. firms, 6/22, p.31
Chrysler seeks share in Rootes Motors Ltd., 6/15, p.35
Japan studied by Ford, Chrysler, 6/22, p.89
Latin America, AMC plants, 2/10, p.166
Latin America, tax cuts possible to U. S. firms, 2/3, p.19
Spain's development plan forecasts good opportunities for U. S., 4/20, p.112
U. S. Commerce report, return on American investments: India, Ireland, Spain, Mexico, France, Israel, Australia), 3/16, p.47
U. S. firms launch new outlets, 6/8, p.42

Foreign Markets:
Afro-Asian: U. S. tool firms establish Machine Tools International to sell and service markets, 5/11, p.31
Australia, Japan may supplant Britain as best customer, 3/30, p.45
Australian exports, iron-steel, 5/25, p.49
Common Market outlook; $1 billion payment deficit, 2/10, p.45
Europe may offer big market for gas heating equipment, 1/6, p.47
Europe's steelmakers fret over supply-demand gap, seek international conference, 4/6, p.27
European market, trade sizeup, 5/25, p.34
France, correspondent's report, 3/30 p.47
Iron Curtain (reports): Bulgaria, Rumania, Poland, Hungary, USSR, 3/23, p.27
Italian toolbuilders aim at U. S. markets, austerity market puts industry in squeeze, 6/22, p.29
Latin America—1963 trade picture (Chase Manhattan Bank), 4/27, p.31
Russia halts steel purchases from Japan, 1/27, p.28
Russia: Here's what Reds want to buy, here's what they sell, 6/1, p.22
Spain's development plant, 4/20, p.112
Sweden's '64 imports, 3/30, p.42
Swedish transformers scheduled for U. S., 3/23, p.26

Foreign Trade (GATT Preliminary Hearings):
GATT hearings readied for May, 1/6, p.44
GATT negotiators must consider all barriers to U. S. exports (based on Christopher speech, Hooker Chemical), 2/3, p 46
German Industries Fed. (Berg) backs 50% tariff cut, 3/30, p.35
GATT talks: "Reserve lists" pose headaches, comments by Rundt (consultant), 5/18, p.33
Metalworkers file tariff briefs, 2/10, p.42
Metalworkers before Tariff Comm. and TIC, 2/17, p.25
Tool steel makers view tariff cuts, 1/13, p.21
Metal powder producers, 'don't lower tariffs', 3/23, p.29
NEMA favors tariff cuts, 3/23, p.29
Steelmakers urge mill products off tariff lists, 2/3, p.27
Steelmakers tell their story, cite inequities in world steel marketing and adverse effects on U. S. steel industry, 2/24, p.27
Tool steelmakers case against tariff cuts, 1/13, p.21
Wire mesh producers battle tariff cuts, 3/16, p.44

Foreign Trade:
East-West trade (U. S.-Red Bloc): U. S. manufacturers question gov't restrictions with Communists as they watch European, Japanese pacts, 3/9, p.29
East-West trade: Rusk-Hodges seeks re-evaluation (U. S. trade pattern since '61), 3/23, p.27
East-West trade to increase, on what terms? 4/6, p.28
East-West trade endorsed by U. S. Chamber of Commerce, 5/4, p.44
East-West trade, Republican's question Commerce's action (Dirksen comments), 5/11, p.17
East-West trade sponsored by AMA: Deal Reds in, urge world traders, 6/1, p.21
Exports, imports to reach high in '64, NFTC report, 2/17, p.29
Spring wire tariff decreased, 2/3, p.26
Steel imports 'benefit' American economy (Schilling reports), 6/8, p.34
Steel imports: L. A. in second place; Galveston leads, 3/23, p.18
Tariff rates, international comparison, 5/18, p.33
Tariffs should be cut 50% (CED endorses trade liberalization), 6/8, p.41
Tool steel imports, 1/13, p.21
U. S., how we're doing in world trade, 1/13, p.55
World import report (chart), 5/4, p.45
World trade: Why should tariffs be cut 50% (CED offers endorsement of trade liberalization), 6/8, p.41

Forging, Forgings:
Bronze gear blanks forged at Mueller Brass, 4/20, p.45
Forged aluminum jugs for propellents (packaged powerplants), 4/20, p.112
High energy rate forging machines, 6/22, p.57
Impacter, automatic system at Porter, 3/20, p.122
Impact forging tech. uses rotary hearth furnace to heat slugs, 4/20, p.108
Slug heating hikes forge output, 5/4, p.115

Forming, Bending:
Bending copper tubes . . . depend on knowledge of four basic variables, 3/23, p.47
Bulge forming (domes) at Boeing: Low cost way to form big parts, 6/29, p.48
Chrysler investigates Hydroform and stretch forming at new stamping plant, 1/20, p.44
Close tolerance forming of large diameter gage sheet for honeycomb, 2/10, p.98
Cold forming (titanium shapes) with epoxy tooling at Johns-Manville, 5/25, p.85
Curvilinear forming machine for sheets (aluminum and other materials), student design, 6/1, p.26
Electrocombination forming, new tech., 5/4, p.116
Electroforming shortcuts job costs, Intern'l Nickel, 6/8, p.104
Electrohydraulic (capacitor discharge), forming with a lightning flash: AF contract for sheet metal parts with Republic Aviation, 2/24, p.52
Eversion forming length of tubing (multiple diameters and shapes), 1/20, p.52
Explosive forming Saturn bulkheads, 1/27, p.20
Explosive compression forming new at GD/Astronautics, forms without thinning, 4/20, p.45 and 6/22, p.56
Explosive forming honeycomb contoured panels at Martin: Fill with wax (paraffin) then blast it, 2/17, p.52
Forming shaped parts via 'stacked stampings', TO, 3/30, p.36
HERF machine operated by compressed air (English firm), 1/13, p.22
HERF machine designed at Manchester Univ., England, 6/15, p.19
How we'll manufacture tomorrow (Steel Feature): Science shapes new dimensions for forming, 6/22, p.52
How to select the best forming method, 6/22, p.59
Hydrostatic pressure forming, boat hulls, 1/20, p.17
Magnetic pulse forming machine cuts 960 cans a minute, 6/1, p.17
Magnetic pulse forming, report, 6/22, p.56
Magnetic pulse forming, 1000 operations a minute, 6/22, p.17
Magnetic forming machines for big jobs, 6/29, p.17
Multiple station die forms pure silver parts (contact material for switches), 3/9, p.50
Plastic-vacuum forming machines, 1/20, p.62
Radiation shield formed in six draws, 3/16, p.122
Refractory metal forming, 4/13, p.90
Smooth edge blanking (European process) goes from raw material to finished part in one strike, 4/20, p.96
Spark forming (steel casting), 1/6, p.133
Stretch forming, 6/22, p.58
Tube end forming, cutting-forming in one operation, 3/23, p.48
Urethane blocks replace female dies in metal forming, 6/15, p.75

Foundries:
Alloy Casting Institute: Better descriptions for alloy castings surfaces, 6/29, p.53
Chevrolet foundry (Saginaw) will melt 2560 tons nodular iron daily, 5/25, p.51
Controlled foundry practice improves properties of aluminum sand castings (Battelle's Dr. Williams report), 2/3, p.52
Hills-McCanna: New foundry in Iowa to produce complex alloy castings 2/24, p.33

Analyzer measures oxygen content in nitrogen, argon or carbon dioxide, 4/6, p.64
Bearing tests with computer setup at SKF, 6/22, p.60
Carbotrol device measures and controls atmospheres in heat treating metals, 3/16, p.103
Device controls movement to billionths (measuring), TO, 5/4, p.36
Douglas measuring instrument (Calibration Control System), 5/11, p.122
Dynamic flaw detection (x-ray) of solid fuel in Polaris missiles, 2/17, p.20
Dynamometer tests clutch performances, materials at Formsprag, 6/8, p.110
Electron microscope detects tiny imperfections in graphite, TO, 5/4, p.36
Electronic inspector classifies hot rolled bars, 6/8, p.112
GD/Astro, new measuring tool (use of granite surface plate), 4/27, p.28
Gear wear measured by radiation counter, 3/30, p.34
Hydraulic testing machine 12 million lb for Bureau of Standards Center, 2/3, p.104
Infrared tests wire welds, 3/23, p.20
Meter monitors level of liquids at cryogenic temp.s, 6/29, p.19
Microwave equipment for missile inspection, 3/23, p.20
Moisture detector (Honeywell), Dew Point Hydrometer, 4/20, p.35
Nondestructive testing - automatic (how we'll inspect tomorrow), 1/6, p.140
Nondestructive - combined test methods forecast, 6/1, p.19
Photographic tech. for studying crack propagation in metal, TO, 5/18, p.20
Quality control equipment: Quantitative thermal analyzer, laboratory tube furnace temp. control, sonic tester and impact tester, 6/29, p.30
Strain gage tests add more science to heavy drives, 4/6, p.56
Torque tension tester insures quality of power wrenches, 1/27, p.81
Ultrasonic contour gaging inspects sheet at 3200 fpm, 6/29, p.29
Symposium on process automation, instruments more reliable, 6/1, p.18

Institute of Scrap Iron & Steel Inc.:
Meeting report, consumption of home and purchased scrap, 1/27, p.29
Names new president, B, 3/16, p.51

Instruments: See Inspection

Insulation:
Insulating blanket levels brazing temperature for honeycomb assemblies (Kaowool ceramic fiber in blanket form), 5/18, p.66
Synthetic insulation sparks electric motor rerating, 4/27, p.33

Integrated Circuits: See Electronics

International Copper Research Assn. Inc.:
Coating (an acrylic lacquer) protects copper from oxidation, 2/10, p.47
Introduces copper alloy-Incramet 800 (creating mass markets), 5/11, p.29

Inventories:
Components, 1st quarter, 2/3, p.91
Components, 2nd quarter, 5/4, p.177
Manufacturers reaffirm confidence through inventory plans and buying, 4/6, p.105
Steel mill products, 1st quarter, 3/9, p.81
Steel mill products, 2nd quarter, 6/1, p.77

Investment Analysts Society:
Speaker (Maechtlen): Electrical prices firming, 6/22, p.19

Iron:
Rotary reactor dev. by Diamond Alkali desulfurizes, treats mold iron, 2/10, p.93 and 3/16, p.110
Shaking ladle tilted in place for treating molten iron, developed by (GHW) German firm, 1/20, p.56
Sonic tests check nodular graphitic structure in magnesium treated ductile irons, TO, 4/20, p.36
U. S. firm licensed to granulate liquid iron (Stewarts & Lloyds process), 5/25, p.95

Iron Ore:
Australian sites and deposits examined by Japanese, 6/29, p.19
Dravo-Lurgi continuous grate process: New line makes pellets from upgraded ore (Iron Mt. plant), 3/2, p.54
Michigan tax spurs Cleveland Cliffs plans for Empire plant at Palmer, Mich., and Pioneer Pellet at Negaunee, Mich. (Mather mine), 4/27, p.35
New processes for scrap in ore processing, 4/6, p.29
Shipments of iron ore pellets from new mine, Pea Ridge, Mo., 4/6, p.35

Japan:
Australian iron ore sites inspected, 6/29, p.19
Auto production, '63, 1/20, p.30
China to get alloy steels, tin (4 trade contracts), 1/20, p.30
Crude steel demand rising, 5/4, p.45
Dumping of titanium dioxide, U. S. tariff ruling, 5/4, p.52
Fastener makers tour U. S. plants, complain of price fighting, 6/29, p.30

Ford and Chrysler study building sites, 6/22, p.89
GNP forecast, slower but strong (EPA), 2/24, p.29
Hitachi Ltd. markets plasma jet equipment, 5/11, p.19
Kameari Wks., N-Process moldmaking, 1/27, p.69
Kobe Steel Wkd. continuous casting, 1/27, p.19
Nippon Kokan (Koichi Toyama): Seeks to hold shipbuilding lead, 6/29, p.30
Nissan's Datsun Bluebird car manufactured in Mexico, 6/22, p.90
Pipe sent to Canada via Texas pipeline, 2/10, p.34
Russia cancels steel purchases, 1/27, p.28
Tokyo Inst. study, screw cutting machines, TO, 5/11, p.20
Toyo Kogyo experiments with ductile cast iron (applications), 1/20, p.49
Yawata Iron & Steel nitride additions lift steel strength (structurals): I-N process, inventor Dr. Nakamura at Ishikawajima, 2/17, p.58

Job Shops:
Job shops (Atois Tool & Mold) pinpoints costs via simple data system (Royal McBee labor cards etc.), 1/20, p.48
The Lindberg Steel Treating story . . . blueprint for job shop growth, 3/23, p.43

Job Retraining:
Granite City Steel, retraining program, 2/17, p.56

Job Time:
Automatic time recorders eliminate manual record keeping, 2/24, p.63

Joining:
Article: How we'll join metals tomorrow, 4/27, p.42
Ceramics brazed to refractories, 4/27, p.72
Ceramic fiber (Kaowool) insulating blanket levels brazing temperature (honeycombs), 5/18, p.66
Ceramic to metal seal made by brazing, 5/18, p.64
Coldweld diffusion bonds (solid state), 5/11, p.66
Combination joining tech., solid state diffusion bonding and brazing, TO, 6/15, p.20
Diffusion bond (Alnico 5 magnets to Armco iron), TO, 3/30, p.36
Diffusion bond (substrate) by plasma spraying (NASA), 2/24, p.60
Epoxy resin (Bondmaster M666) bonds polyvinyl chloride tubing to tubular steel frame, 1/27, p.67
Epoxy bonding film (Filmex) used for Lionel assemblies, 5/25, p.86
Eutectic bonding makes joints leaktight (for organic cooled atomic reactor), 2/3, p.61
Explosive bonding for clad plate products, 5/4, p.148
Heat curing adhesive (3M's Scotch-Weld), epoxy plus induction heating, 1/20, p.52
Heat treat-welding refinements for metal bellow-type seals, 2/24, p.63
How Ford seals trim holes, 5/4, p.174
Liquid conditioner permits chemical bond for metal plating plastics, 4/13, p.98
Microelectronic welder (Mark II) joins thin wires, 1/20, p.60
Molecular diffusion eliminates interface in joining electronic components, 2/10, p.36
Nickel brazing joins stainless valve assemblies, 1/27, p.67
Refractory brazing, new techniques, 3/9, p.20
Semiautomatic brazing machine halved labor costs (pressure gages and switches), 3/23, p.48
Silicone (rubber) sealant for F-111 fuel tank, 6/8, p.34
Sintercast fusion bond for Ferro Tic C carbide, 3/16, p.47
Structural adhesives, newcomers (chart), 4/27, p.50
Structural adhesive assembly reduces size of hearing aids, 6/15, p.59
Ultrasonic ringwelding, low cost sealing, 5/25, p.86

Parts built by plasma spraying to final shape on mandrel, then eroding away the mandrel, 4/6, p.19
Plasma sprayed coat creates real diffusion bonding (substrate), 2/24, p.60

Plasma Torch:
Advances in plasma arc cutting, 4/27, p.114

Plastics:
Auto panels of molded plastics, goal of Fiberfil Inc., 4/13, p.102
Construction markets aim of industry, 6/8, p.51
Copolymers (ethylene-vinyl acetate), tough and clear, 3/30, p.121
Dies cast from epoxy filled with granular ceramic, 5/25, p.85
Fiberglas bicycle design, 5/4, p.33
Fiberglas containing hollow tubing, 6/1, p.20
Filament winding of fiber glass reinforced plastic (FGRP) in nondefense applications predicted, 2/17, p.68
Laminate new at Bell Telephone (aluminum sheets bonded to polyethylene core), 3/23, p.33
Laminate with paper base and resin system, low electrical losses, 3/30, p.130
Metal plated plastics, new liquid conditioner permits chemical bond, 4/13, p.98
Plastic designed for metal plating backed by quality assurance marketing program, 3/30 p.47
Plastic paper bins exhibited at Show, 4/27, p.26
Reinforced plastics, industry forecast, 1/27, p.17
Reinforced plastic uses forecast, 2/17, p.31
Short run plastic parts (epoxys) are injection molded at Grumman, 3/30, p.124
Strip rolling simplified with plastic bending (C-B-S process), 3/16, p.45
Unit welds vinyl clad steel parts, 1/20, p. 63
Urethane forming blocks on dies benefits press brakes, 5/11, p.64
Urethane (Isothane) blocks used in metal forming at Dahlstrom, 6/15, p.75
Vacuum forming machines for thermoplastic materials dev. by Dunlop Rubber, 1/20 p.62

Plating: See Electroplating, Plating

Platinum:
Electroplaters group told: Electrical uses at top of platinum metals list, 3/16, p.116

Porcelain Enameling:
Stainless lining for sulfuric pickle tank, to prepare mild steel for porcelain enameling, 6/1, p.48

Powder Metallurgy:
Award winners in New Jersey Zinc's competition, 6/1, p.52
Coated metal powders: Composites to watch, 6/8, p.47
Finned cladding elements for organic cooled atomic reactor made of aluminum via powder metallurgy, 2/3, p.61
Gears by powder metallurgy, new tech. sought, 3/2, p.49
Nickel powder (Sherritt "G" grade) of low density available for compacting 6/8, p.115
Stainless tubing via powder metals, Russian data, 3/9, p.20
Tool steel strip rolled from powder, improved microstructure, 5/4, p.118

Power Generator: See Electric Power

Power Transmission:
Clutch performance tested by dynamometer, 6/8, p.110
Fluid coupling eliminates slip, Inpower Works, TO, 3/2, p.20
Gear drives for tougher jobs, 2/3, p.42

Power Tools:
Air supply system to pneumatically powered tools eliminates use of long feeder hose, 4/27, p.33
Power tool twist problem solved for spacemen, 1/27, p.20
Torque tension tester insures quality of tools at Eaton 1/27, p.81

Presses:
AEC researchers design high pressure press of 70,000 atmospheres for refractory metal shapes, 3/30, p.35
Automated, continuous stamping on six press unit (Danly), 5/11, p.68
Cold extrusion press line for making pins delivered to Fiat (Italy) by Verson, 2/17 p.94
Cold extrusion press cuts need for tooling (Bliss Ltd.), 5/11, p.71
Die change fast on hydraulic press brake, 3/30, p.121
High pressure press, U. S. Steel lab, researches new steels, 2/24, p.58
Hydraulic pipe forming press (pic), 2/24, p.35
Press brake benefits from use of urethane forming blocks on dies, 5/11, p.64
Press-feed combination for motor lamination output, 2/10, p.99

Price Fighting:
Editorial: Panic in a boom, 6/22, p.15
Japanese fastener makers complain of price fighting, 6/29, p.30

Prices:
Alcoa increases sheet, plate, 1/20, p.27
Aluminum ingot price hike fails, 1/27, p.26
Aluminum price up half cent, 3/9, p.17
Aluminum producers, fabricators caught in price battle, 6/8, p.49
Aluminum price moves keep users guessing (Olin, Alcoa), 6/15, p.31
Aluminum, more increases due, 6/29, p.27
Copper price to hold, 3/23 p.29
Fastener prices adjusted, 4/27, p.82
German steel export prices, 4/27, p.83
How tough will LBJ be on prices? 1/27, p.25
Nonferrous continues to move upwards, 4/13, p.47

Procurement: See Defense

Product Development:
AMA-New Product Conference: Stock of scientific data awaits commercial use (cleanroom tech., metal reducing bacteria, paint-temperature changes, autopilots, etc.), 5/11, p.33
Guidelines for product development (Elrick & Lavidge), 6/29, p.18

Production:
World steel, '64, 6/29, p.30

Production Engineering Research Assn.:
Cold extrusion press-hydraulic dev. with Bliss Ltd., 5/11, p.71
HERF machine operated by normal compressed air supply, 1/13, p.22
N/C unit checks feed drives, 4/6, p.18

Production Processes:
1. How we'll manufacture tomorrow: Computers, product design, equipment buying systems concept, picking a process, machining, inspection, assembly, 1/6, p.119
2. How we'll make metals tomorrow: Steelmaking processes, continuous casting, computers in rolling mills, 2/10, p.89
3. Surface preparation: Where systems concept is taking hold, 3/2 p.40
4. Metal removal: New cost cutting frontiers, 4/13, p.81
5. You can cut joining costs as much as 50 per cent (with available knowhow), 4/27, p.43
6. How we'll make holes in materials tomorrow, 5/18, p.46
7. Science shapes new dimensions in technology of forming, 6/22, p.52

Productivity:
Administration watches wage-price trend, 1/27, p.20
A new guide toward measuring productivity (BDSA), value added by manufacture, 2/10, p.41
A guide to productivity (E-R-N survey), value added by manufacture statistics (Will costs outstrip your productivity?), 4/20, p.41
BDSA reports productivity within industries varies, 6/22, p.18

Punches:
Gang punches offered by Whitney, low cost, speed, flexibility, 1/27, p.77
How we'll buy tomorrow, equipment, 1/6, p.129
PAs look hard at contract buying, 5/11, p.25
PAs (NAPA) business indicator for 1964, 5/18, p.93
Systems approach, a better way to buy capital equipment, 6/1, p.34

Purchasing Agents Association of Chicago:
1964 outlook, survey of members, 2/24, p.97

Q

Quality Control:
Chrysler's computerized quality control system, 4/6, p.101
GE took employees to customer to teach . . . importance of quality, 3/9, p.48
Guidelines to success, 1/6, p.141
New equipment for quality specialists: Quantitative thermal analyzer (structural changes in materials), and lab tube furnace (temperature uniformity), 6/29, p.29
Plastic for metal plating backed by quality assurance marketing program 3/30, p.47
Workmanship problem report at conference gives (Sandia) Brumbaugh Award, 5/11, p.33

Quenching:
New technique of quenching thin aluminum in liquid nitrogen, 3/9, p.20

Ultrasonic vibrations aid quenching, Russian report, 2/10, p.34

R

Radiation:
Artificial sun duplicates solar radiation in space, 3/16, p.49
Atom life prolonged by imprisonment of radiation, 6/29, p.18
Plasma jet welds metal, sun radiation simulator, TO, 5/18, p.20
Radiation detection with a silicon diode, 2/3, p.20
Radiation processing, commercial uses predicted, 5/18, p.17

Radio, Television:
Color TV improved by new system, 5/25, p.34
Data transmission over TV line predicted, 5/18, p.18

Railroads:
Explosive hardened manganese steels for railroad usage, 3/16, p.36
Four wheel freight car only 45 ft long, 'Portager', 3/23, p.17
Mobile side loading transfer unit, 4/6, p.18
Motor vehicle shipments up, 4/13, p.126
NYC looks at new cars to handle coiled steel, longer pipe, etc. (pic-clam type hoods protect steels), 2/24, p.31

Rare Earths:
Europium compounds (nuclear control properties) offered in U. S., West German firm, 2/24, p.67

Refractories:
Billet furnace (rotary hearth for heating blooms) has few special bricks, 3/16, p.108
New insulating fire brick withstands hydrogen at 2800° F, 5/4, p.120

Refractory Metals:
AIME report: Refractory metals excel but lack big markets, 3/2, p.92
Brazing refractories, new techniques, 3/9, p.20
High purity refractory magnesia grain (periclase) dev., called K-Grain, 4/13, p.92

Open air titanium welds with inert gas shields, 5/25, p.49
Out of position welds (field fabrication), coil shields of titanium, 5/4, p.35
Russian study, titanium bearing slags, 4/6, p.19
Russian study, titanium electroplated with copper, 3/9, p.20
Service centers may stock, 4/20, p.35
Screws, rivets for supersonic use? 4/6, p.78
SST aircraft, titanium usage, 3/23, p.18
SST airframe design calls for 90,000 lb of titanium, 3/30, p.119
Subsonic aircraft usage, 3/23, p.18
Technology techniques that have boosted titanium: Machining at subzero, cutting time, trapped rubber impact forming, welding, etc., 3/9, p.27
Tips on bending titanium tubing, 4/13, p.91
Titanium alloy for sheet gages, 6/8, p.36
Titanium centrifuges, 800 lbs handles corrosive calcium hypochlorites, pic., 6/29, p.32
Titanium for tanks, sub hulls next? 1/6, p.53
Titanium formed cold with epoxy tooling, rubber pads and plastic dies 5/25, p.85
Titanium immune to stress corrosion cracking, Army test, 4/13, p.36
Titanium's shortcomings as space material, 2/10, p.113
Titanium tube-welding method (Thermatool), 3/23, p.31
TMCA foresees price drop with superjet usage, 3/9, p.26
USS National Distillers joint venture forms Reactive Metals, 3/30, p.51

Tool & Die Institute:
Appoints DePinto exec. sec'y., B, 5/4, p.52
Elects, B, 3/2, p.32

Tool Changer:
The automatic tool changer: Can it pay for itself? 5/25, p.88

Tool Control:
Special tooling cart at Boeing cuts downtime on N/C machines, 6/22, p.64

Tool Show: See ASTME

Tool Steelmakers:
Producers wage fight against tariff cuts 1/13, p.21

Tool Steels:
Bonded coating extends life of tungsten carbides, 3/9, p.44
Czechoslovakia: Device tests carbide hardness, 5/11, p.20
Ferro-Tic C, machinable carbide fusion bonded, 3/16, p.47
Precision electric furnace upgrades hardening, 5/11, p.64
Tool steel strip rolled from powder, improved microstructure, 5/4, p.118
Tool Show introduces new tool steels, 4/27, p.26

Tools & Dies:
Diemaking: Tracer mill-EDM teamwork, 1/20, p.46
Dies made by electric discharge machining trims costs at Lansing firm, 4/20, p.105
Fast die change on hydraulic press brake, 3/30 p.121
How U. S.-European tool, die makers' technologies compare (French - German executives tour U. S.), 5/18, p.35
Multiple station die forms pure silver parts, 3/9, p.50
Smooth edge (or fine) blanking dies for European forming process, 4/20, p.97
Titanium formed cold with epoxy tooling, combination of rubber pads and plastic dies at Johns-Manville, 5/25, p.85
Tungsten carbide (thin coat) on coining dies ups life of tool (Linde's percussion weld surfacing), 2/3, p.31
Urethane forming blocks on dies benefits press brakes, 5/11, p.64
Urethane blocks (Isothane) replaces 300 female dies in metal forming, 6/15, p.75

Tools (Cutting):
Hole drilling techniques of tomorrow, 5/18, p.46
Removing metal: Tightening requirements for tools, 1/6, p.136

Tools (Hand):
Torque tension tester insures tool quality at Eaton, 1/27, p.81

Tools (Pneumatic):
Air supply system ends use of long feeder hoses, 4/27, p.33

Trade Fairs:
AMTEC Fair in Brussels postponed, 2/10, p.44
German Hanover Fair, economic discussions, 5/18, p.33
U. S. manufacturers show at 13 overseas fairs, 2/27, p.18
U. S. Trade Mission to Australia and New Zealand (good markets for U. S. investors), 6/22, p.31

Traffic Manager:
Stanford's Ruppenthal reports traffic manager's new role, 5/18, p.19

Training:
Apprenticeship and on-the-job training urged by Sen. Clark, 6/8, p.34
Box score shows where MDTA trainees are enrolled 4/27, p.19
Closed circuit welder training program, Deere & Co., 3/30, p.120
Employee training: Program instruction trims training time, 6/22, p.28
Granite City Steel retrains for technology (people skills updated for automated equipment), 2/17, p.56
Job training solution to joblessness (Wirtz), 4/20, p.44
Republic's executive development programs, 3/2, p.50
U. of Chicago trains for international managership, 4/13, p.34
Vocational training needed: Bement at Burroughs, 3/2, p.17

Transistors:
Metal base transistor extends frequency range, 5/18, p.63

Transportation:
Mass transit market, steel consumption forecast, 3/16, p.34

Triple Industry Supply Convention:
Showgoers report business climate, 5/18, p.27

Trucks, Trailers:
Heavy duty trailer rig hauls, dumps molten slag in slag pit, 1/20, p.50

Tubing: See Pipe, Tubing

Tungsten:
Tungsten alloys cast, rolled into bars (Climax), 2/10, p.47
Tungsten carbide (thin coat) on coining die ups cutting tool life (Linde), 2/3, p.31

Turbines:
Gas turbines for tractors, 2/17, p.20
Russians study thermal fatigue of gas turbine blades, 6/22, p.19

Turnings, Borings:
Sintered ore for blast furnace feeds strengthened by mixing turnings and borings with charge, 3/23, p.54

Typewriters:
Assembling 92 setscrews in an impression control bar, automatic machine, 6/15, p.69
Westinghouse's—Stimulated Learning by Automated Typewriter, 6/15, p.33

U

UAW and USW: See Labor

Ultrasonics:
Soviets design ultrasonic machine tools, 4/20, p.34
Sperry Products enters medical ultrasonics field, 4/6, p.18
Ultrasonic contour gaging inspects sheet at 3200 fpm, 6/29, p.29
Ultrasonic ringwelding, sealing method, 5/25, p.86
Ultrasonic transducers developed, using piezoelectric semiconductors (Bell Lab), 3/23 p.33
Ultrasonic and abrasive jet (makes holes in brittle materials), 5/18, p.52

Underseas: See Oceans

United States Trademark Assn.:
Elects, 5/25, p.52

University of California (UCLA):
Computer report by department heads, 6/8, p.186
Lawrence Radiation Lab: Chemical theory may develop new metals, 6/22, p.33

University of Chicago:
Cohen theory: Oxide is superconductor, 5/18, p.18

University of Florida:
Gold layer blocks hydrogen penetration (vacuum deposition), 5/25, p.92

University of Pennsylvania:
Wharton (Prof. McDonough): How to evaluate computerized information systems, 3/16, p.117

Uranium:
Canadian Uranium Research Foundation closes, 5/25, p.34
Uranium subs for tungsten in Navy Skyhawk, TO, 4/20 p.34

Used Tools:
1963 used machine tool sales, 2/3, p.93
Dealers predict good year, 5/25, p.44
Given Machinery collects used tools in package—sells abroad, 6/22, p.17

V

Vacuum:
Bethlehem installs vacuum degassing unit (Dortmund-Horder process), 1/27 p.33
For steel strengths: Vacuum carbon deoxidation via vacuum-arc remelting, 2/24, p.20
Latrobe's Therm-I-Vac melt shop facility unveiled, 5/25, p.47
Refractory metals used in furnace construction (stainless, tantalum, moly, and tungsten), 2/10, p.100
Tap degassing cuts temperature and alloy losses, Midvale-Heppenstall, 1/13, p.32
Vacuum arc melting employs automated electrode furnace at Crucible, 4/6, p.33
Vacuum chamber for space materials, simultaneous high temp. furnace and deep freezer, 3/30, p.36
Vacuum degassing ladles for induction stirring are welded, 1/27, p.69
Vacuum melted maraging steel, ingot for missile case weighs 15 tons, 2/10, p.121
Vacuum process steels raise product service, Formsprag use, 6/8, p.110

Vacuum Deposition:
Gold layer blocks hydrogen penetration, 5/25, p.92

Value Engineering:
Described at meeting of ASTME by Billman (Bendix), 4/20, p.118

General Dynamics, Astronautics Div. use, 3/30, p.34
How Martin saved $65 million via total value analysis, 6/8, p.99

Valves:
Corrosion protection for hard to reach valve areas with proprietary conversion coating, 6/22, p.66
Valves with metal discs need no repacking, TO, 5/4, p.36

Venders:
For buying capital equipment, systems analysis help, 6/1, p.41

W

Wages:
Autoworkers' average hour pay, 2/24, p.92
Minimum wage continuance would lessen unemployment, 6/1, p.18

Warehousing, Distribution:
1964 service center shipments, 6/8, p.34
Computer one-day service, direct dial ordering, 3/2, p.26
National Steel's acquisitions spark service center rumors, 1/20, p.26
Titanium stocking possible with steel service centers, 4/20, p.35

Water:
Harvey Aluminum's magnesium plant uses sea water as its raw material source, 3/9, p.46
Navy contract to Westinghouse for desalinization (flash evaporator) plant at Guantanamo, 2/24, p.18
U. S. and Israel co-op on saline water research, 2/17, p.18
Westinghouse, water conversion dept new at Lester, Pa., 4/20, p.51

Water Tank:
Monroeville water storage reservoir contains three different steels (pic), 6/1, p.51

Watervliet Arsenal:
Multilayer plating, sandwiching layers of plated metals, to withstand environments, 4/6, p.17

Weapons:
Army cartridge cases have no metal parts, cellulose fibers impregnated with a resin, 6/8, p.126
Rifles: Brushes solve a deburring problem, 3/23, p.49

Welding (Arc):
Arc spotwelding gets increasing attention (firms using), 4/20, p.123
Arc spotwelding triples production of crop dehydrators, 4/20, p.123
Arcwelding glass possible because it conducts electricity when hot, TO, 6/22, p.20
Automatic arcwelding unit and flux cored electrode makes savings (NCG), 3/30, p.120
Automatic submerged arcwelder (two fillet welds), 1/27, p.71
Hot welding wing of F-111, workers wear asbestos suit, 6/8, p.109
Impulse arc starter (Miller Elec.), 5/25, p.102
Inert gas shields alloy open air titanium welds, 5/25, p.49
Magnetic field aids stainless welds, 6/1, p.20
Semiautomatic welding time cut with flux cored wire (U. S. Steel's T-1), 2/3, p.51
Shearwelder speeds processing of strip coils (Voss), 6/15, p.31
Sintered aluminum can be spotwelded, 4/13, p.36
Submerged arcwelding units feature feed which handles strip electrode, ideal for cladding stainless, 3/9, p.19
Titanium welds pass static tension tests, TO, 6/15, p.20
Vapor shielded arcwelder (Lincoln), Innershield Squirt process, 1/27, p.68
Vapor shielded arcwelding increases fabrication speed (roller frames), weld deposit coated with no cleaning, 3/23,p.48

Welding (Cold):
Hughes Aircraft researches metals for cold welding, sponsored by NASA, TO, 6/22, p.20

Welding (Diffusion Bonding):
Koldweld process: New twist boosts coldweld quality, reliability, 5/11, p.66

Welding (Electron Beam):
Electron beam welding for aerospace, 6/15, p.17
Portable electron beam welder, 6/1, p.20
Used for welding heavy gage aluminum, 4/27, p.114

Welding (Electroslag):
Beneficial in heavy fabrication of steels, 4/13, p.90

Welding (Explosives):
Explosive metalworking can cut reactor costs, 5/18, p.17

Welding (Friction):
AMF joins auto parts with friction welding-spinning process, 4/6, p.102

Welding (Percussion):
Device welds wire to terminals in electronic assemblies, 3/16, p.36
Tiny welds deposited by vibrating tungsten carbide electrode ups tool cutter life, 2/3, p.31

Welding (Plasma):
Dual flow plasma torch allows workpiece contact, 5/4, p.142
Plasma arc cutting advances, 4/27, p.114
Plasma jet unit sun radiation simulator, TO, 5/18, p.20

Welding (Resistance):
Load cell systems test electrode pressure, 6/1, p.46
Resistance welding speeds tapered tube production, 5/18, p.63
Spotwelder electrodes forced apart by thermal expansion for check system, 4/6, p.20
Spotwelds checked, device measures thermal expansion, (British), 6/22, p.33 and 4/6, p.20
Studwelding tech. pares radiator fastening costs, 5/25, p.86
Tiny welder speeds microworking (electronic), 1/20, p.60
Unit welds vinyl clad steel parts (rear package trays of Lincolns), 1/20, p.63

Welding (Stud):
Customer specified welded stud fasteners cut costs of special heater door on coin operated auto wash equipment, 5/11, p.65
Studwelding hand guns, semiautomatic, speeds Ford's refractory installation, oxygen converter, 5/11, p.74

Welding (Ultrasonic):
Ultrasonic ringwelding used in sealing, 5/25, p.86

Welding Rods:
Automatic sorter shows same alloy content as original, 3/16, p.36

Welding Equipment:
Electrode (Certanium 889) sparks disintegration process, 5/4, p.120
Electroslag welder has consumable nozzle (British), TO, 4/27, p.20
Laser welder, 5/4, p.139
Migration of carbon in welded joints, analytical method, 5/4, p.145
Power pack for welding machines suited to exotic metals, 5/11, p.19
Production laser welder introduced, 3/23, p.31

Welding Techniques:
All position welding, "short circuiting transfer", used on production lines, 4/27, p.51
AWS president-elect (Jones) assesses future of welding, 4/27, p.52
Automated weld line builds Volkswagen 'beetle' bodies, 2/17, p.54
How we'll manufacture tomorrow: You can cut joining costs 50 per cent (laser, plasma, explosives, electron beam, diffusion bonding, friction, etc.), 4/27, p.47
Russion methods, fusion welding, TO, 3/30, p.36

Welding Show:
Highlights of show, 4/27, p.53
Trend to upgrade and set standards for technicians gains support, 5/11, p.28

Wire:
Electrochemical plating of wire with brass, Russian method via a diffusion tech., TO, 3/30, p.36
Flux cored wire (U. S. Steel's "T-1") for semiautomatic welding, cuts time, 2/3, p.51
Infrared tests wire welds, 3/23, p.20
Rocket wire used for musical instrument springs, 1/27, p.72
Spring wire for toaster (torture test), cover, 3/16, p.96
Spring wire imports rise following tariff revision, 2/3, .p.26
Wire rope test improved, 2/27, p.20
Wire tensioned accurately, 5/11, p.65

Wisconsin:
Metalworking firms (25) form group to get government, prime contractor business: Greater Beloit Small Business Procurement Corp., 1/27, p.70

World Trade: See Foreign Trade

X, Y, Z

X-Ray:
Dynamic flaw detection of solid fuel in Polaris, 2/17, p.20
NBS develops x-ray camera to study high pressures, 4/6, p.18
Pocket sized x-ray unit, 4/27, p.20

Zinc:
New entries (expositions) quicken materials race, 4/27, p.25
Prices exert stress on Zinc's competitiveness, 4/20, p.44
World growth trend, 5/4, p.47

COMPANY INDEX

A

ACF Industries Inc.:
Martin: Collective bargaining trend, 6/15, p.18

Accurate Brass Corp.:
Buying Forgings Dept. of Anaconda American, B, 5/25, p.52

Acheson Colloids Co.:
Dry film lube, IE, 1/6, p.256

Acushnet Process Co.:
Experimental coupling, simple design, IE, 2/24, p.110
Shaft seal elastomer resists chemicals, IE, 2/10, p.184

Adamas Carbide Corp.:
Introduces titanium carbide 80 for mild machining, 4/27, p.26

Addresso Mfg. Co.:
Adjustment on press brake gage, IE, 2/10, p.190

Adhesive Engineering Co.:
Epoxy tape cures at room temp. (Aerobond 3013), 3/16, p.194

Adhesive Products Corp.:
Adopox adhesive, fast curing with long pot life, IE, 5/18, p.104

Adolph Plating Inc.:
Electronic parts with steel base are bronze plated, 4/6, p.71

Advance Electric:
Electronically adjusted speed drives, IE, 3/9, p.93

Aerojet-General Corp.:
Buys Gibbs Shipyards, B, 6/15, p.36
Coated metal powders, trend to composite materials: Bruckart tells STEEL, 6/8, p.47
Fissiochemistry research project with Union Carbide, 3/9, p.18
Tiny welder (Mark II) speeds microworking, joins thin wires, 1/20, p.60
Titanium is immune to stress corrosion cracking, 4/13, p.36

Aerojet-General Nucleonics:
Underwater truck, NASA contract, 3/9, p.18

Aerolite Extrusion Co.:
Consolidation, 2/3, p.35

Aeroprojects Inc.:
Ultrasonic ringwelding, low cost sealing, 5/25, p.86

Air Products & Chemicals Inc.:
Builds oxygen-nitrogen plant, Calif., 1/27, p.35
KGM's single stage regulator for gas volumes, IE, 3/23, p.99
New sulfur hexafluoride plant, B, 4/20, p.52

Air Reduction Co. Inc.:
Buys Hofman Laboratories, B, 3/9, p.33

Air Reduction Sales Co.:
Moves, B, 3/9, p.35
Automatic welder of vertical joints in heavy plates, IE, 4/27, p.115
Liquid helium distribution system in operation by '65, 6/15, p.29

AirResearch Mfg.: See Garrett

Ajax Magnethermic Corp.:
Heat exchanger (pebble bed) simulates speed and heat of reentry, built for NASA, 4/20, p.110
Reorganizes Engineering Dept., B, 2/3, p.35

Albion Malleable Iron Co.:
Expansions boost capacity, melting furnaces, 1/20, p.31
Lloyd, AFS president, 5/4, p.47

Alco Products Inc.:
Set of 28 toothed segments from polar axis gear, 6/8, p.130

Allegheny Ludlum Steel Corp.:
Basic oxygen converters and equipment, Brackenridge and West Leechburg (Hanley reports), 6/29, p.31
Dr. Reen addresses Powder Metallurgy conference on tool steel strip rolled from powder, 5/4, p.118
Stainless for auto license plates, 4/6, p.66

Allen Aircraft Products Inc.:
Hard anodizing unit doubles on other jobs, IE, 4/6, p.120

Allen Mfg. Co.:
Automatic setscrew driver, IE, 1/13, p.72

Allen Tool Corp.:
Syracuse Hydra-Torque screw and stud driving machines, 5/11, p.125

Allerton Chemical Co. Inc.:
Actite, industrial finish adheres to oily, wet surfaces, IE, 5/25, p.168

Allied Chemical Corp.:
Licenses nylon castings from monomer (polymerization), 6/22, p.33
Plastic mold method, 1/27, p.106

Allied Pacific Mfg. Co.:
EDM facilities, 6/15, p.53

Allied Products Corp.:
Buys stamping facilities of Studebaker, 4/6, p.36 and 4/20, p.51

Allis-Chalmers Mfg. Co.:
Centrifugal high speed pumps, IE, 1/6, p.272
Computerized processing machinery assures best design, 2/10, p.49
Contracts for electrical equipment, Wheeling Steel, 6/29, p.32
Contracts for electrical systems, Sendzimir-temper mill, National Rolling Mills, 3/9, p.35
Fork truck series combines torque, speed, IE, 5/18, p.109
Pittsburgh labor pact saves move, 4/13, p.43
Sells interest in Cerac line, 4/13, p.51
Solid fuel in Polaris regularly x-rayed for flaws, 2/17, p.20
Utility vehicle picks power (electric, gas or LP), IE, 6/1, p.101

Alloy Steels Inc.:
Buys Composite Forgings, B, 5/18, p.36

All-State Welding Alloys Co. Inc.:
Electrode, Steelarc Plus, IE, 4/27, p.119

Alloyd General Corp.:
Silver in copper boosts resistance to oxidation, 3/2, p.49

Aluminum Co. of America:
Aluminum tubes house helium for Saturn V, 4/6, p.76
Clad aluminum, one-coat porcelain enameling in pastels, 3/2, p.17
Forged aluminum jugs for propellents, 4/20, p.112
Potline to be installed at Warrick Works, Ind., 4/27, p.29
Sheet, plate prices increased, 1/20, p.27
Tubular finish patterned like sheet, IE, 6/8, p.195

Aluminum Co. of Canada Ltd.:
Aluminum price hike 1 cent a pound to 24 cents, 3/9, p.17

Alvey Conveyor Mfg. Co.:
Buys AirVac, 1/20, p.32

Amchem Products Inc.:
Automatic electronic control system for zinc phosphating, 6/22, p.90

American Aviation Inc.:
Spray etching airplane structurals, 6/8, p.124

American Bosch Arma Corp.:
Buys Space Equipment, B, 4/13, p.52

American Brake Shoe Co.:
Denison: Vane motor torque ranges, IE, 3/16, p.194

American Cast Iron Pipe Co.:
Operates new Heroult electric furnace-melting steel in 90 min., 6/8, p.52

American Chain & Cable Co. Inc.:
Hardness testing equipment, IE, 4/13, p.158

American Lava Corp.:
Leachable ceramic core material, AISIMag 716, IE, 1/6, p.261

American Machine & Foundry Co.:
Automated kitchen designed for drive-ins, 4/20, p.124
Eden speaks at Dallas marketing conference, 6/22, p.26
Forms AMF Friction Welding Div., La., 4/13, p.52
Friction welding-spinning process joins auto parts, 4/6, p.102
Takes over former Navy Ordnance plant, 2/24, p.35

American Metal Climax Inc.:
Expansion program, builds plant to recover oxidized molybdenum by new hydrometallurgical process, 3/2, p.31
Expansion-diversification program, 4/20, p.51
Sulfur bearing copper alloy serves at high temp. in hypersonic wind tunnel, 6/1, p.51
Forms Transport Dynamics (foreign marketing), 2/10, p.51

American Motors Corp.:
Latin American plants, 2/10, p.166
Rambler Tarpon (pic), show car has fiberglass body, 2/3, p.88
Typhoon, version of Rambler Classic, 4/27, p.99

American Oil Co.:
Diecasting lube improved, white paste diluted with oil, 6/1, p.19

American Pullmax Co. Inc.:
Pneumatic tool lift for shearing-forming machine, IE, 3/16, p.190

American Schiess Corp.:
Hobber cuts 55 in. gears, IE, 3/9, p.92

American Science & Engineering Inc.:
Dr. Giacconi predicts telescopes in space, 2/17, p.19

Ametek Inc.:
Effect of surface films and coatings on spring fatigue life, TO, 5/18, p.20
Hunter Spring, compression-tension tester, IE, 1/20, p.100
Lamb Electric, gear motor series, IE, 4/27, p.132

AMF Beaird Inc.:
Enlarged plant in Shreveport, La., 4/27, p.35

AMF-Thermatool Corp.:
Edge preparation for applying coatings, 2/3, p.51

Ampco Metal Inc.:
Buys Philadelphia Bronze & Brass, B, 6/1, p.28
Introduces Ampco 25, an extrusion, 4/27, p.26

Anaconda Wire & Cable Co.:
Forms Industrial & Construction Div., B, 4/13, p.52

Anocut Engineering Co.:
Electrochemical machining process on the move, says Williams (president), 4/20, p.89
Clarifier works on ECM electrolyte, IE, 6/22, p.108
Loading setup fast on ECM machine, IE, 1/20, p.106

Apex Smelting Co.:
Builds slag and dross processing installations, B, 3/2, p.31

Armco Steel Corp.:
Aluminized steel forecast as architectural material, 3/30, p.180
Amanda blast furnace (pic), lower costs—progress report, 2/10, p.90
Armco-Pittsburgh formed in Belgium, 3/16, p.34 and 3/23, p.35
Buys 2nd continuous casting unit, Butler, Pa., 1/27, p.31
Expansion includes hot strip mill, Middletown, 4/27, p.35
Fog lubrication system on steel mill, Sheffield's Kansas City Wks., 5/11, p.69
Installs ingot forging press, Baltimore Wks., 6/8, p.52
Lawson: Range of galvanized steels gives user many choices, 6/15, p.64
Stainless steel Type 416 introduced, 4/27, p.27
Verity speaks on changing role of personnel manager, 1/27, p.27

Armstrong Cork Co.:
Resin-rubber adhesive holds vinyl to metal, IE, 1/6, p.260

Armstrong Metals & Plastics Co. Inc.:
Buys Kunkel Forge, B, 5/25, p.52

Aronson Machine Co. Inc.:
Bench positioner holds weldments up to 100 lb, IE, 3/16, p.191

Arvin Industries Inc.:
Unit welds vinyl clad steel parts, 1/20, p.63

Asco Sintering Corp.:
Buys assets in Californa, B, 5/25, p.52

Assembly Engineers Inc.:
Marion Haun: N/C gives marketing edge to job shop, 5/4, p.102

Associated Research Inc.:
Unit indicates motor rotation direction, IE, 1/13, p.71

Associated Spring Corp.:
Capital expenditures, machinery and equipment, 1/27, p.33

Astro Metallurgical Corp.:
Titanium coils for Olin chemical plant, 5/4, p.35

Atlas Alloys Div., Rio Algom Corp.:
Formed in Cleveland, 4/27, p.36

Atlas Mineral Products:
See Electric Storage Battery

Atlas Press Co.:
Horizontal mill, IE, 6/29, p.104

Atols Tool & Mold Corp.:
Simple data system pinpoints costs of job shop (workers data recorded on Keysort cards-Royal McBee), 1/20, p.48

Atomics International Div.
See North American Aviation

Austin-Hastings Co. Inc.:
25 ton turret punch press, IE, 3/10, p.184

Automatic Voting Machine Corp.:
Becomes separately owned, B, 3/30, p.52

Automatic Sprinkler Corp. of America:
Sold to new group, 1/20, p.32

Automation Devices Inc.:
Transfer unit for small parts, IE, 6/8, p.188

Automation Engineering Laboratory Inc.:

Unemployment proposal (employees and management contribute to fund), 3/16, p.43

Automation Industries Inc.:
Sperry enters ultrasonic-medical field, 4/6, p.18
Sperry exhibits nondestructive testing equipment, IE, 4/27, p.116
Sperry ultrasonic unit checks lamb wave method, IE, 1/6, p.266

Autosonics Inc.:
Shift from standard to automated systems, 6/1, p.42
Solvent control system, 6/15, p.59

Avco Corp.:
Powder metallizing gun, IE, 6/15, p.125
Shock test unit, self-damping, IE, 1/20, p.103

Avnet Electronics Corp.:
Licenses AMF for Shaw Process, B, 6/22, p.36

Avtron Mfg. Inc.:
Phase sequence relay prevents reverse hookups, IE, 1/20, p.100

B

Babcock & Wilcox Co.:

Electroslag welder has consumable nozzle, TO, 4/27, p.20
Electroslag handles thin plate, TO, 6/8, p.36

Broken Hill Pty. Co. Ltd.:
Wide plate mill, Pt. Kembla Steelworks, N.S.W., 2/17, p.35

Brooks & Perkins Inc.:
Composite panel of balsa faced with aluminum, 3/2, p.19
Magnesium shipping containers for liquids, IE, 3/2, p.100

Brown-Boveri (Switzerland):
Nitriding costs cut, 2/3, p.18

Brown & Sharpe Mfg. Co.:
Cylindrical precision grinders, 3/16, p.47
Microstatic cylindrical grinding machines, IE, 3/30, p.181

Brush Beryllium Co.:
Beryllium used in aerospace structurals, 2/24, p.57
Copper alloy meets rigid specs for MHD generator (outer liner for chamber), 6/15, p.72
Installs induction furnace, Elmore, O., 2/3, p.35

Brush Instruments: See Clevite

Budd Co.:
Automotive Div. uses protective coating (nonflammable water base), 3/9, p.44
Plastic parts for automotive field, 2/3, p.87
Polychem Div. casts nylon products directly from monomer, 6/22, p.33

Buell Engineering Co.:
Buys A-S-H Fluid Transport, B, 5/18, p.36

Buell Industries Inc.:
Buys Ligon Bros., moves it to Waterbury plant, 5/18, p.36

Buhr Machine Tool Co.:
Combines Ann Arbor, Detroit eng. facilities, B, 1/6, p.53
Five station dial machine processes water pump housings, IE, 6/1, p.97

Bullard Co.:
Adds machine tool accessories, IE, 4/20, p.184

Bunker-Ramo Corp.:
Formed by Thompson Ramo and Martin Marietta, 1/27, p.18
N/C operation of Thompson Ramo, 2/17, p.33
Freed: Low cost N/C equipment broadens markets, 5/11, p.18

Burgmaster Corp.:
N/C machining center with automatic tool changer, 3/23, p.19
Turret machine, hydraulic, IE, 4/27, p.128
Turret machines expanded to four models, IE, 2/17, p.110

Burroughs Corp.:
Accounting computer under $20,000, 1/20, p.28
"By Item" contract buying, 5/11, p.25
EDP data processing aid to salesmen, 4/6, p.34
Data processing system (EDP) speedier, 6/29, p.19
Labor pact with UAW, 6/15, p.28
Thompson advises managers to take computer course, 5/4, p.33

Byers Co., A. M.:
Buys interest in Galis Electric, B, 3/30, p.52

C

CTR Inc.:
Surface grinders supplied by Mattison, 4/6, p.76

CTS Corp.:
Multiple station die forms pure silver parts (for switches), 3/9, p.50

Caig Laboratories Inc.:
Metal cleaner (Papan) works in steam sprayers, IE, 1/27, p.130

Cadillac Associates Inc.:
Barton: Firms hiring top executives more readily, 3/23, p.18

Cambridge Wire Cloth Co.:
Woven polyvinyl chloride in many configurations, IE, 5/4, p.192

Campbell Electrosonics Inc.:
Ultrasonic contour gaging inspects sheet at 3200 fpm, 6/29, p.29

Campbell Machines Co.:
Storage feeder and orienter unit feeds parts to tapper, IE, 5/11, p.132
Gravity feeder, IE, 3/2, p.103

Carborundum Co.:
Combines machine div. with coated abrasives, 1/20, p.32
Isothane-urethane blocks used at Dahlstrom, replace female dies, 6/15, p.75
Refractory resists thermal shock, IE, 1/27, p.122

Carpenter Steel Co.:
Consumet 410, superclean surfaces, 3/23, p.49
Perforated stainless sheet makes filter medium, 3/30, p.127

Carter Products Inc.:
Pot life of adhesive and sealant compounds prolonged with compact thermoelectric cooler, 5/18, p.58

Castle & Co., A. M.:
Buys R-J-M, B, 4/6, p.36

Caterpillar Tractor Co.:
Enlarges industrial engine plant, B, 4/13, p.52
Soundproof tractor lab, pic., 4/20, p.52
Traxcavator for slag removal, IE, 2/24, p.118

Cawi Machine Co. Inc.:
Automatic drill grinders, IE, 3/9, p.98
Drill grinder—optical comparator, IE, 6/15, p.118

Cavuga Machine & Fabricating Co. Inc.:
Unit welds variety of spud shapes, IE, 5/11, p.130

C-E-I-R Inc.:
Computer system via long distance phone handles requests, 3/30, p.36
Computer for steel detailing work, 6/29, p.28

Central Foundry Co.:
Buys Anoroc Products, B, 4/27, p.36

Centre Circuits Inc.:
Solid State electronic positioning control, IE, 5/11, p.130

Centre Foundry & Machine Co.:
Buys Washington Mould, B, 6/15, p.36

Century Sales Corp.:
Knee bore machine does pressure reaming, IE, 5/11, p.126
Unit deep drills inconel, stainless, titanium, IE, 3/9, p.91

Ceramaseal Inc.:
Ceramic to metal seal made by brazing, 5/18, p.64

Cerro Copper & Brass Co.:
Extrusion tech. reduces oxidation, 1/6, p.51
Equipment innovations, improved layout speed copper tube drawing, St. Louis Wks., 2/24, p.46

Certanium Alloys & Research Co.:
Germicidal solder resists food acids, IE, 5/18, p.108
Electrode sparks disintegration process, 5/4, p.120

Chain Belt Co.:
Renamed Rex Chainbelt Inc., 3/9, p.35

Chainveyor Corp.:
Buys Rotorail, B, 6/22, p.35

Chambersburg Engineering Co.:
Automated forging machine (Impacter) for Porter, 3/30, p.122

Chase Manhattan Bank:
Reports Latin American trade picture—'63, 4/27, p.31

Chemcoke Inc.:
Continuous coking process tried in metallurgical applications, 3/9, p.31

Chemetron Corp.:
Electrodes included in welding package, IE, 6/22, p.104
National Cylinder plant to supply oxygen furnaces at Roemer Wks., 4/6, p.35

Chicago Bridge & Iron Co.:
Supplies Ford's oxygen furnaces and drives, 3/2, p.43

Chicago Foundry Co.:
Sold to Rixson, B, 4/13, p.52

Chromalloy Corp.:
Sintercast fusion bond Ferro-Tic C, 3/16, p.47

Chrysler Corp.:
Auto brake lining plant, 3/16, p.49
Barracuda presented as spring model, Corvair for the fall, 4/13, p.125
Bolt tester is automatic, 3/23, p.82
Bouncing test for driving bearings, 6/29, p.80
Builds car and truck plant, Lima, Peru, B, 4/20, p.52
Buying share in Rootes Motors of England, 6/15, p.35
Computer (RACE) for information-storage, 2/17, p.68
Computers to check auto assembly line, 3/30, p.44
Computerized quality control system, 4/6, p.101
Expands plants, Detroit, 2/10, p.49
Gas turbines for future, 6/8, p.172
Kokomo, Ind., diecasting plant new, 3/2, p.31
Kokomo, Ind., diecasting plant, report, 5/11, p.122
Laminates for motor armatures solve rotor balancing problem, 4/13, p.126
Sealer on market, 4/27, p.100
Stamping plant (Sterling township, Mich.), tomorrow's plant today, 1/20, p.43
Townsend addresses newspaper publishers, raps defense spending myth, 5/4, p.34
Townsend: May change traditional concepts of new model leadtime, 6/15, p.18
UAW workers get 5 cent raise, 6/22, p.26
Used car data, complete history of car on computer, 1/20, p.84

Cincinnati Gilbert Machine Tool Co.:
Stub borer for heavy milling, IE, 6/8, p.188

Cincinnati Milling Machine Co.:
Centerless grinders cut cost of auto wheels, 5/11, p.64
EDM-tracer mill teamed in diemaking, 1/20, p.46
Fiberglas bicycle, moldings, 5/4, p.33
Flame heating unit-automatic, IE, 3/16, p.183
Hydraulic motor, high torque, low speed, IE, 5/25, p.169
Machines remove metal electrochemically, IE, 5/11, p.127
R&D developments, 4/6, p.17

Cincinnati Shaper Co.:
Electrohydraulic forming machine for AirResearch, IE, 6/8, p.192
Electrohydraulic press, pic., 6/22, p.54
High speed shear and HERF machine, IE, 4/13, p.143
Powder compacting press, 400 ton, IE, 3/30, p.186

Cincinnati Sub-Zero Products Inc.:
Temperature chamber for assembly, IE, 4/13, p.148

Cincinnati Time Recorder Co.:
Automatic elapsed time recorders eliminate manual record keeping, 2/24, p.63

Clark Controller Co.:
Plant slated for South Carolina, 3/9, p.33

Clark Equipment Co.:
Five speed automatic transmission for trucks, 1/27, p.106
Hydraulic lift truck attachment handles appliance cartons, IE, 6/15, p.119
Lift trucks tote 2500 lb loads, IE, 2/17, p.110
Lift trucks rated at 95 hp, IE, 6/29, p.104
North American industry using obsolete industrial trucks (report), 5/11, p.27

Cleereman Machine Tool Corp.:
Machine does horizontal, vertical machining, IE, 3/2, p.103
N/C control integral on drilling, boring unit, IE, 4/13, p.158

Cleveland-Cliffs Iron Co.:
Mather Mine expanded, Marquette Range (with McLouth), 1/6, p.51
Michigan tax spurs plans for pelletizing plants (Empire and Pioneer Pellet), 4/27, p.35

Cleveland Hobbing & Machine Co.:
Vibrating nylon ring finishes gears, 1/27, p.120

Cleveland Instrument Co.:
Changes operation to new (company) group, 3/30, p.52

Cleveland Metal Stamping Co.:
Holding devices pare setup time, IE, 4/13, p.144

Cleveland Tapping Machine Co.:
Storage feeder and orienter unit feeds hose fittings, IE, 5/11, p.132

Cleveland Worm & Gear Div. See Eaton Mfg. Co.

Clevite Corp.:
Brush Instrument chisel shaped stylus probes tool sharpness, IE, 3/30, p.191
Brush Instruments' Surfindicator permits finish measurements in limited access areas, IE, 3/16, p.200
Builds bearing facility, Bridgeport, Ohio, 2/17, p.35
Cameron: U. S. slow on follow-through of research and development (making parts cheaper), 2/17, p.17

Clifton Hydraulic Press Co.:
Molding presses, 50 to 300 tons, IE, 6/29, p.106
Press coins, draws, forms and hobs, IE, 5/18, p.104

Climax Molybdenum Co.:
Tungsten alloys cast, rolled into bars, 2/10, p.47

Clipper Mfg. Co.:
Sold to Norton, B, 2/10, p.49

Clyde Engineering & Mfg. Corp.:
Pedal actuation controls two special assembly machines (screwdrivers), IE, 2/10, p.196

Coil-Matic Press Equipment: See Special Engineering Service

Colorado Fuel & Iron Corp.:
Adds electric furnaces, Trenton, 2/24, p.35
Oxygen converter rebuild, bottom replaces top, Pueblo plant, 4/13, p.92

Colt Industries Inc.:
Was Fairbanks Whitney, B, 5/18, p.36
Divisionalizes former subsidiaries (Fairbanks, Morse), 6/1, p.27

Colton Co., Arthur:
Ultrasonic plastic tube sealer line, 1/27, p.60

Columbus Auto Parts Co.:
License agreement, Buenos Aires, 4/13, p.52

Concast Inc.:
German contract for continuous casting unit, 6/15, p.35

Conforming Matrix Corp.:
Air operated fixture holds diecast panels for spray coating, IE, 1/6, p.256

Connors Steel: See H. K. Porter

Consolidated Aluminum Corp.:
Miller: Heads integrated company (cover), 1/13, p.26
Cold mill for sheets, 5/4, p.52

Consolidated Foundries & Mfg. Co.:
EDM machining aids investment casting, 3/16, p.33

Consolidated Vacuum Corp.:
Buys Ion Engineering, B, 2/17, p.35
Diffusion pump, IE, 6/8, p.193

Container Stapler Corp.:
Machine staples triple wall corrugated bulks, IE, 5/18, p.111

Controls Co. of America:
Remote controls for car, gadget feasible, 2/3, p.88

Cooper Weymouth Inc.:
Motorized stock reel, IE, 5/18, p.106

Copperweld Steel Co.:
Rod mill at Aristoloy, Warren, Ohio, B, 6/15, p.36

Corning Glass Works:
Flat, glass packages for microelectronics (semiconductor and integrated circuits), 2/3, p.29
Fused silica tubing and preform cores for shell casting produced, 5/25, p.49
Glass-ceramic gear teeth drive rotary heat exchangers for gas turbines, 2/24, p.29
Photochromic glass darkens when exposed to ultraviolet light (automatic sunglass), 2/3, p.49

Cowles Chemical Co.:
Buys Davies-Young Soap, 2/3, p.35

Crest Ultrasonic Corp.:
Ultrasonic cleaner, wide frequency range, IE, 3/30, p.192

Crompton & Knowles Corp.:
Jointly makes Ford truck axles, 2/3, p.33

Cross Co.:
Capacity feature of boring machine Transfer-Matic, IE, 1/6, p.270
Rotary index, seven-station, IE, 1/13, p.67
Rotary index machines (brake drums), IE, 3/9, p.100

Crosse & Blackwell Ltd.:
Electrophoretic coatings inside cans, 5/11, p.107

Crown Rheostat & Supply Co.:
Automated modular concept for surface treatment equipment, 3/2, p.48

Crucible Steel Casting Co.:
Discontinues Lansdowne, Pa., operations, 3/30, p.52

Crucible Steel Co. of America:
Electrode furnace with two melting stations built by Consarc, 4/6, p.33

Cunningham Co., M. E.:
Redesigned continuous bar marker for screw machine stock, IE, 3/9, p.103

Cummins Engine Co.:
Buys Studebaker's foundry facilities, 4/20, p.51

Cushman Motors: See Outboard Marine

Cutler-Hammer Inc.:
Control industry to benefit from technological revolution, 6/15, p.17
Creates three new operating divisions, 3/16 p.51

D

Dahlstrom Mfg. Corp.:
Five urethane blocks replace 300 female dies in metal forming, 6/15, p.75

Dahlstrom Machine Works Inc.:
Stacker of prepainted sheets, IE, 1/27, p.124

Daily Tube & Form Co. Inc.:
Buys electric welded tube mills and slitting lines, B, 2/10, p.51

Dalton Foundries Inc.:
Roto-Blast combines core knockout, blast cleaning, 5/18, p.58

Dalton Gear Co.:
Safety coupling ends overload damage, IE, 3/30, p.182

Dampney Co.:
Silicone coat cuts stress corrosion in stainless, 5/4, p.35

Dana Corp.:
Jointly owned Mexican firm expands, B, 4/6, p.36

Danly Machine Specialties Inc.:
Continuous, automated stamping on six press unit, 5/11, p.68

Davis & Thompson Co.:
Trunnion unit machines universal joint spiders, IE, 1/20, p.104

Daystrom Inc.:
New name Weston Instruments, 5/18, p.36

Dearborn Chemical Co.:
Protective coating dev. for Budd-automotive, called NO-OX-ID Safegard, 3/9, p.44

Deere & Co.:
Closed circuit system for welder training program, 3/30, p.120

Delcon Corp.:
Leak detector - ultrasonics, IE, 4/27, p.131

Denison Engineering:
See American Brake Shoe

Derby Castings Co.:
Installs induction furnaces, reduces costs, 1/27, p.68

Detrex Chemical Corp.:
Preparing metal surfaces, cover pic., 3/2, p.40

Detroit Broach & Machine Co.:
Automatic-broach, IE, 1/6, p.262
Combined drill-broach for auto rocker arms, IE, 2/24, p.118

Detroit Steel Corp.:
Acquisition of Tex-Tube, new Southwest market (oil country products), 2/24, p.33
Coke ovens (Kopper contract) for Portsmouth Div., 2/3, p.33

Detroit Testing Laboratory Inc.:
Torque sensitive nut developed, 3/9, p.31

Development Associates:
Soldering of transistors, diodes (tiny work), IE, 3/16, p.196

DeVlieg Machine Co.:
Automatic control trend (Diatrol II Jigmils), 2/10, p.33
N/C precision rotary table, IE, 5/11, p.123

Dexter Machine Co.:
Protective coatings gaged by instrument, IE, 4/6, p.123

Di-Acro Corp.:
Turret punch, burrfree holes, IE, 1/6, p.255

Diamond Alkali Co.:
Continuous rotary reactor treats mold iron, 3/16, p.110 and 2/10, p.93
Sketch of rotary reactor (continuous steelmaking), 2/10, p.93

Dillon & Co. Inc., W. C.:
Cell tests electrode pressure in resistance welders, 6/1, p.46

Diversified Metals Corp.:
Buys Metallurgia, B, 6/15, p.36

Dixon Automatic Tool Inc.:
Automatic screw driver and nut runner, IE, 3/23, p.95

DoAll Co.:
Grinder efficiency, IE, 1/13, p.71
Optical comparator makes photocopies, IE, 5/11, p.130
Over-the-wheel dresser, IE, 1/20, p.100
Versatility feature of cutoff saw, IE, 1/6, p.255

Dodge Mfg. Corp.:
Planetary, adjustable speed drive, IE, 2/3, p.110
SCR transmission controls speed, torque, IE, 3/9, p.95

Douglas Aircraft Co. Inc.:
Aluminum welds can be improved by controlling filler metal chemistry, TO, 6/22, p.20
Automated Calibration Control System in IBM computer (measuring instruments), 5/11, p.122
Paracones for paratroops, 6/1, p.19
System approach in buying new capital equipment, 6/1, p.40
Uranium subs for tungsten in Navy Skyhawk, 4/20, p.34
Welding (computer control) panels for hydrogen fuel tank, Saturn, 1/20, p.31

Douglas Co., G. R.:
Contouring lathe (12 rifle barrels in 5 minutes), 2/24, p.63

Dow Chemical Co.:
DowSmith to assemble plastic auto bodies, 3/23, p.82
Expands magnesium plants, Freeport, Tex., 2/17, p.33
New industrial fuel gas speeds cutting, handling, 4/13, p.51

Dow Corning Corp.:
Gaskets of silicone rubber seal on racing boat engine, 6/8, p.47
Silicone sealant for F-111 fuel tanks, 6/8, p.34
Silicon diode, breakthrough in radiation detection, 2/3 p.20
Silicone heat sink compound speeds heat transfer, satellite components, 5/11, p.20
Silicone rubber shrinks to fit, IE, 2/10, p.192

Dow Furnace Co.:
Line of controlled atmosphere furnaces, IE, 3/30, p.196

Drafto Corp.:
Rotaweigh block lifts loads for crane cab, IE, 4/6, p.126

Dravo Corp.:
Builds bucket wheel machine for generator station, 5/25, p.52
Dravo - Ruthner tower pickling line, 3/2, p.44
Iron Mountain pelletizing plant built for Hanna Mining, 3/2, p.54
Iron ore pelletizing plant for Steep Rock Lake mine, 6/1, p.27

Dreis & Krump Mfg. Co.:
Press brakes adapt to job demands, IE, 2/10, p.185

Drewes Mfg. Co.:
Nine - turning - boring operations completed in one pass with multiple tool head, 3/16, p.45

Drillmation Co. Inc.:
Barrel cam index table, IE, 6/15, p.116
Control 'sees' hole during drilling, 4/13, p.149

Dun & Bradstreet Inc.:
Construction activity, New York, Chicago, L. A., 4/6, p.18

Dunlop Rubber Co. Ltd.:
Develops vacuum forming machines for thermoplastic materials, 1/20, p.62

Duplicon Co. Inc.:
Duplicart handles bins, shelves, etc., IE, 6/1, p.101
'Stacked stampings' good way to form shaped parts, TO, 3/30, p.36

Du Pont de Nemours & Co. Inc., E. I.:
Automated finishing line telescopes 3 steps in 1, 3/2, p.42
Coil coating (auto trim) stainless diffusion coat, operations suspended, 3/2, p.17
Delrin acetal resin for bearings in clocks, 5/18, p.26
Explosive bonding of clad plate products, 5/4, p.148
Heat shrinkable Teflon tubing, IE, 6/8, p.191
Instrument predicts material behavior, IE, 1/20, p.107
Nordel, new hydrocarbon rubber produced in Texas, 1/6, p.51

Dynatech Corp.:
Instrument measures thermal conductivity, IE, 3/30, p.182
Quantitative thermal analyzer-300 to 700°, structural changes in materials, 6/29, p.29

Dyson-Kissner Corp.:
Buys Walls Mfg., B, 1/13, p.23

E

Easco Products Inc.:
New EDM power supply unit, IE, 4/13, p.146

Eastern Machine Screw Corp.:
Purchased by group, B, 4/6, p.36

Eastman Kodak Co.:
Loader-processor, IE, 1/6, p.266
Recording film on 2.5 mil base, IE, 5/18, p.110
Thick base film, IE, 1/13, p.66
Thin film stands severe etches, IE, 4/6, p.120

Eaton Mfg. Co.:
Cleveland Worm Gear, speed variator line, IE, 5/18, p.115
Cleve. Worm & Gear fluid strainers clean themselves, 4/6, p.126
Hand power tools get torque tension test, 1/27, p.81
Licensed for sale of hydrostatic transmissions (English), 6/22, p.36

Eaton Metal Products Co.:
Buys Truco-Denver line, B, 3/9, p.33

Eddy-Rucker-Nickels Co.:
Productivity - costs, value added by manufacturers compiled in guideline, (table), 4/20, p.41

Ekstrom, Carlson & Co.:
Continuous path tape control on milling machine, IE, 1/27, p.121

Electric Machinery Mfg. Co.:
Low voltage synchronous motor controls, IE, 3/30, p.193

Electric Storage Battery Co.:
Atlas Mineral, two part epoxy in stick form, IE, 4/27, p.135

Electroforms Inc.:
Electroforming ten ft wind tunnel nozzle liner, 6/8, p.104

Electro-Matic Products Co.:
Demagnetizing equipment for steel rods, pushbutton, for B&L, 3/2, p.49

Electro-Optical Systems Inc.:
All - metal mirrors provide durability, 2/10, p.116
Laser beam notes, 1/20, p.20
Pneumatic microminiaturized capacitors, switches etc., 2/3, p.20

Electromark Corp.:
Automatic marker, IE, 4/6, p.128

Electrokinets, See Varo Inc.

Electron Ohio Inc.:
Buys bar chart recorder activities, B, 4/13, p.52

Eldorado Tool & Mfg. Corp.:
Coolant system 'Megaflo' for gun drilling work, IE, 3/16, p.197

Elox Corp. of Michigan:
Bonding coating of tungsten carbides, 3/9, p.44
EDM equipment, IE, 3/2, p.93
Electron drill-carbide, tool steels, IE, 6/29, p.102

Elrick & Lavidge Inc.:
Guidelines for product development, 6/29, p.18

Emerson Electric Mfg. Co.:
Buys Artolier, B, 4/27, p.36
Press-feed combination (laminations), 2/10, p.99

Emery Air Freight Co.:
Air freight usage, substitute for excessive stockpiling, 4/6, p.18

Empire Iron Mining Co.:
Empire plant, Palmer, Mich., (operators), Michigan tax revision, 4/27, p.35

Empire-Reeves Steel Corp.:
Orders Heroult electric furnace from American Bridge, 5/4, p.52

Empire Research Corp.:
Curing time reduced for polyester parts cast in silicone rubber molds, 2/3, p.18

Emtec Inc.:
Buys Power Springs, B, 4/27, p.36

English Electric-Leo Computers Ltd.:
Computer readout control system for nuclear power station, 5/25, p.89

Enthone Inc.:
New liquid conditioner permits chemical bond in metal plating plastics, 4/13, p.98

Erie Forge & Steel Corp.:
Builds 10 ft piston rod, plc., 6/15, p.66
Cast steel dies for Saturn V, rocket use, 2/3, p.35

Eriez Magnetics:
Magnetic particles separated selectively, IE, 2/17, p.108

Ernst & Ernst:
Belda cites warning signs on road to obsolescence, 3/2, p.30

Essex Wire Corp.:
Buying Studebaker plant, 6/22, p.90

Ethyl Corp.:
Chlorinated solvents from new supplier, 4/13, p.47

Eutectic Welding Alloys Corp.:
Metal powder joins serves as overlay (Eutalloy torch), IE, 2/24, p.119

Evans Products Co.:
Railroad car, clam hoods protect coil steels, 2/24, p.32

Eveleth Taconite Co.:
Taconite plant for Minnesota (jointly owned with Ford and Oglebay Norton), 5/11, p.35 and 6/15, p.33

Everett Industries Inc.:
Abrasive cutoff saws also use steel blades, IE, 4/27, p.125

EverLube Corp. of America:
Abrasion resistant epoxy, six colors, IE, 2/24, p.115

Ex-Cell-O Corp.:
Boring machine mills oil grooves, IE, 6/8, p.192
Custom rotary machine, IE, 3/23, p.94
Enters electrochemical machining field, 3/9, p.19
ECM automatic machine for deburring, 4/20, p.93
EDM equipment maker, 6/15, p.53
Gages, cutting devices on display, IE, 4/13, p.152

Exomet Inc.:
Kit preheats pipe, fittings exothermically, IE, 4/27, p.116

F

Fafnir Bearing Co.:
Organizes Faflon Bearing Dept., B, 4/20, p.52

Fafnir-INA Needle Roller Bearing Co.:
Builds plant in Cheraw, S. C., 3/2, p.32

Fairbanks Whitney Corp.:
Changes name to Colt Industries, B, 5/18, p.36

Fairey Engineering:
Heat exchanger-finned tube has aluminum outer surface bonded to copper core, 3/9, p.52

Falk Corp.:
Coupling line, IE, 1/6, p.263
Gear coupling line applications, IE, 6/22, p.106
Strain gage test add more science to heavy duty drives, 4/6, p.56

Falstrom Co.:
Gun spotwelds mild steel, IE, 1/6, p.267
Spotwelding gun for access problems, IE, 4/27, p.116

Fansteel Metallurgical Corp.:
Buys Stauffer Chemical equipment, B, 2/3, p.35

Farmotive Equipment Corp.:
Arc spotwelding triples production (crop dehydrator), 4/20, p.123

Farrel Corp.:
General purpose press, IE, 3/16, p.198
Press extrudes copper, brass, aluminum, IE, 6/29, p.95
Twin carriage control on 62 ft lathe, IE, 3/9, p.103

Fawick Corp.:
Cartridge relief valves, IE, 3/9, p.96 and 3/30, p.194
Flow divider valve resists corrosives, IE, 4/27, p.131
Flow regulated valves are pressure compensated, IE, 2/3, p.106
Pilot operated relief valve, IE, 6/22, p.106
Relief valve design, IE, 1/27, p.128
Valve controls cranes, booms, IE, 5/18, p.104

Febs Industries Inc.:
Fiberglas bicycle design, 5/4, p.33

Federal - Mogul - Bower Bearings Inc.:
Extends expansion plans, 6/22, p.90
Tin-aluminum sleeve bearing, IE, 5/25, p.170

Fellows Gear Shaper Co.:
Gear shaper cuts up to 8 in. pitch diameter, IE, 1/20, p.109

Fiberfill Inc.:
Studies plastic molded car body panels, 4/13, p.102

Firth Sterling Inc.:
Slag blanket melting means good machinability, weldability for steel (Hopkins process for 347 stainless and Waspalloy), 2/17, p.60

Firth-Vickers Stainless Steels Ltd.:
Continuous annealer installed (stainless strip), 2/24, p.67

Fisher Metal Co.:
Formed, B, 5/4, p.52

Flexrock Co.:
Elast - O - Flex, adhesive also serves as sealant, caulking, IE, 5/18, p.110

Fluid Controls Inc.:
Pilot operated relief valve, IE, 1/6, p.268

Foote Mineral Co.:
Builds magnetite plant, B, 3/9, p.35

Ford Motor Co.:
1965 styling, perimeter type frame, 3/23, p.81
Aurora station wagon, 4/6, p.102
Automatic transmission plant in Windsor, Ont., considered, 2/3, p.88
CMP success in building Puerto Rico plant, 1/13, p.51
Cold extrusion, pole piece for alternator rotors, at Sandusky plant, 3/23, p.50
Computers aid engine design, 1/27, p.20
Continuous casting decision deferred, 5/11, p.17
Electrocoating Thunderbird and Lincoln—can galvanized steel be eliminated? 5/11, p.107
Electrocoating materials supplier is Ditzler Color Div., Pittsburgh Plate Glass Co., 5/18, p.90
Executives report: Why Detroit seeks 'flexible' equipment, 3/9, p.39
Expands stamping operations, Cleveland and Chicago Hts., 3/30, p.162 and 5/18, p.35
Folding station wagon seats in rear of sedans, 2/24, p.92
Foreign markets, projects (outproduce GM), 2/10, p.166
Gear drive on oxygen furnace shaft (pic), 2/3, p.43
Henry Ford addresses management conference, 3/9, p.17
Iacocca: Youngsters 'buyingest age group in history', 2/10, p.33
Japanese sites studied for assembly plants, 6/22, p.89
Mirror glued to windshield on convertible with vinyl adhesive, TO, 4/27, p.20
Motors in windshield wipers, wire wound stators, TO, 5/4, p.36
Mustang feature of spring offering, 4/13, p.125
Quality program pays off; Niland addresses NSMPA, 2/17, p.18
Race car (GT) concept, 1/13, p.51
Race car gets DOHC engine, 5/18, p.90
Racer uses bladder fuel tank, 6/15, p.98
Sealing materials for fastening car trim, 5/4, p.174
Stud welding speeds refractory installation, basic oxygen converter, 5/11, p.74
Taconite plant (jointly owned) planned for Minnesota, 5/11, p.35
Trailers, leisure sparks boom, 4/20, p.161
Truck axles jointly produced by two firms, 2/3, p.33

Formex Corp.:
Begins operations, B, 6/15, p.36

Formsprag Co.:
Clutches exhibited, IE, 5/4, p.190
Overrunning clutches serve continuous, IE, 1/13, p.67
Vacuum process steels raise product service, 6/8, p.110

Fosceo Inc.:
Self-curing refractory developed, 1/27, p.20

Fox Grinders Inc.:
Close cutoff of risers from foundry casting with swing frame machine, IE, 5/11, p.128

Foxboro Co.:
Computer system, low cost, IE, 6/15, p.122
How to plan for a computer system: Payne and Pierce, 1/13, p.29

Friden Inc.:
Desk top solid state calculator, price, 6/8, p.128

Fruehauf Corp.:
Freight Flier, pallet floating on thin air cushion moves cargo, pic., 6/15, p.36
Rushmer addresses SAE: Design engineers and the law (court cases), 6/29, p.79

Fuller Co.:
Pump conveys dry, pulverized materials, IE, 2/10, p.196

Fusion Inc.:
Paste solder shade matches stainless steels, IE, 1/27, p.131
Semiautomatic brazing machine, 3/23, p.48

Futurmill Inc.:
Milling machine features, IE, 4/20, p.184
Openside plane mill for big work, IE, 5/18, p.206

Fyr-Fyter Co.:
Extinguisher for 3 types of fires, IE, 5/18, p.114

G

GAR Precision Products: See Helicoil

Gar Wood Industries Inc.:
Welding setup, vapor shielded arcwelder, 1/27, p.68

Gardner-Denver Co.:
Air supply system ends use of long feeder hoses, (pneumatic power tools), 4/27, p.33 and 6/8, p.190

Gardner Machine Co.:
Double disc grinder for close tolerances, IE, 4/6, p.119

Garlock Inc.:
Buys Stemco Mfg., B, 2/10, p.51

Garrett Corp.:
AirResearch Div. gets electrohydraulic forming machine, IE, 6/8, p.192

Gasalloy Steel Corp.:
Alphatized steel, 5/4, p.51

General American Transportation Corp.:
Mobile side loading transfer unit, 4/6, p.18

General Automation:
Automatic screw and nut counting-boxing system, IE, 2/17, p.114

General Bearing Co.:
Ball bearings, plastic Delrin parts, IE, 2/17, p. 115
Firm formed to market Japanese bearings, 2/10, p.49

General Castings Corp.:
Builds permanent mold casting plant, Westchester County, 6/22, p.36

General Dynamics/Astronautics:
Air bearings improve welding carriages, 4/20, p.95
Automatic resistance spotwelder rotates, welds cylindrical sections, 1/6, p.44
Explosive compression forming, new tech., forms without thinning, 4/20, p.45
Liquid fluorine contained in stainless vessels, 2/10, p.36
Measuring device in design stage, 4/27, p.28
Unit shapes tubular parts (shock waves produced by pulses of electrical energy in water), IE, 6/29, p.96

General Dynamics/Electrodynamics:
Aerosol filter developed, 6/8, p.36
Slotted impeller blade on axial vane fans up pressure, 6/1, p.20

General Dynamics / Ft. Worth, Tex., Div.
Air cushion aids assembly of F-111 fuselage section, 2/17, p.31
Electroformed wave guide in copper and nickel, 6/8, p.105
Hot welding a big piece of D6AC steel alloy for F-111 fighter-bomber, 6/8, p.109
Magnetic pulse forming machine, 960 cans a minute, 6/1, p.17
Neutrons pinpoint oxygen levels in metals (Dr. Guinn), 3/16, p.34
Swaging method uses magnetic force (copper conductors), 3/9, p.53

General Electric Co.:
Buys interest in Swiss firm, B, 6/22, p.36
Computer system for Abbey Works (Wales), 4/27, p.31
Contact-Bend-Stretch rolling process invented, 3/16, p.45
Eddy current inspects tubing, TO, 1/20, p.20
Electrical drive system for Bethlehem, 2/24, p.35
Electromechanical tracer controlled Bore-Matic for machining turbine nozzle, 1/20, p.57
EDM facilities, 6/15, p.53
Employees (Large Generator & Motor Dept.) go to customer (Bethlehem) to teach importance of quality, 3/9, p.48
Gear motor line, small Mina-Gear dev., 6/8, p.36
Joelson: Impact of imports, 6/29, p.18
Merges at Phoenix computer div., 6/8, p.52
Molybdenum sheet minimizes earing (Lamp Metals Dept.), IE, 6/29, p.98
Numerical contouring control, IE, 1/20, p.99
Organizational changes in International Group, 1/13, p.22
Packaged drives, ratings through 300 hp, SCR controlled, IE, 5/4, p.206
Phillippe: Forecasts ten year buying spree, 4/13 p.33
Porta-Mobil plug-in radio for car, IE, 6/8, p.193
Refractory metal sheets and plates wider on new mill (Dr. Keeler), 2/3, p.54
Rolling mill design (CBS) computers, 2/20, p.96
Sealant adhesive resists up to 600° F, silicone rubber, IE, 6/29, p.108
Small gear motors, widely applicable, IE, 3/16, p.194
X-ray spectrometer, IE, 2/24, p.107

General Motors Corp.:
1965 styling changes, 3/23, p.81
1970 projection; announces '64 capital spending, 3/23, p.17
Allison Div. donates 13,000 scientific studies to ARAC (aerospace), 5/11, p.18
Aluminum wheels, 2/24, p.91
Chevrolet's nodular foundry Saginaw, Mich., 5/25, p.51
Chevrolet's Toronado, new convertible, 5/11, p.108
Communications system links 1133 outlets, 6/8, p.172
Firebird IV, automatic turnpike cruiser, pic., 4/20, p.162
Fisher Body produces "A" body on Buick, Olds station wagons, 2/3, p.87
Front wheel drive for 1966 Corvair? 1/27, p.105
Gas turbine truck, 4/20, p.162
GMC truck unveils V-6 diesel engine, 1/20, p.84
GMC uses computer to check brake system, 6/29, p.80
Japanese, assembly for Chevrolet, 6/22, p.89
Kaptur before SAE: Automakers not up to technology, 1/13, p.51
MHD lubrication (magnetohydrodynamic) theory proven, 3/23, p.82
Oldsmobile unveils new paint line, 5/4, p.173
Olds: Electronic gages control piston grinding, 6/1, p.74
Packard Electric, printed circuit board, 1/27, p.106
Pontiac frames produced on Mig welding line, 4/27, p.100
Proving ground tests (racing helps sell cars), 5/25, p.141
Purchasing controls, how maintained, 6/15, p.97
Saginaw Steering Wheel Div., hydrostatic spindle for good surfaces, IE, 4/27, p.123

General Precision Inc.:
Kearfoot high frequency motors tailored to jobs, IE, 6/8, p.188

General Public Utilities:
Air pollution reduced with new process, marketable sulfuric acid is byproduct, 4/20, p.47

Giannini Controls Corp.:
Ultrasonic cleaner operates on 700 watts, IE, 3/30, p.192

Giddings & Lewis Machine Tool Co.:
Austin reports—market anticipation program (sales forecasts), 3/23, p.25
Mill and center machine has tapping option, IE, 4/13, p.143
N/C-single machine can make all parts, cover pic, 5/4, p.98
New machine lines—a jig borer-high power, and Numeridrill, IE, 3/23, p.93

Gilman Inc., Russel T.:
Slide assembly, IE, 3/16, p.199

Gilman Engineering & Mfg. Co.:
Tullis reports assembly equipment—should run two years, 1/27, p.105

Gisholt Machine Co.:
Tracer attachment for threading lathe, IE, 5/4, p.201

Given Machinery Co.:
Sells used machinery packages to plants abroad, 6/22, p.17

Gleason Works:
Gear finisher, IE, 6/29, p.107
Short-arc welder protable, gas powered, IE, 2/10, p.193

Golding Mfg. Co.:
Fixture pares assembly time, inserts per hour, 3/30, p.120

Goldman & Associates, Arthur S.:
Home air conditioners, sales forecast, 1/27, p.28

Goodrich Industrial Products Co., B. F.:
Steel rolls protected with rubbery polurethane cover, pic., 6/28 p.36

Goodyear Aerospace Corp.:
Combines solvent based cleaner in surface treatment of aluminum foil, 3/2, p.44
How to weave a space ship, 6/15, p.20

Gorton Machine Co., George:
Tracer controlled profiling-duplicating milling machine, IE, 4/20, p.182

Gould-National Batteries Inc.:
Oxide manufacturing plant, Dallas, B, 5/25, p.52

Gouran Co., Mark F.:
Circumferential welder, IE, 1/20, p.103

Graham Transmissions Inc.:
Vertical flange mounting adaption for standard drives, 3/2, p.100

Granite City Steel Co.:
Retrains for technology (Steel Institute, 30 week program), people skills via automated equipment, 2/17, p.56

Gray Co., G. A:
Heavy machining with horizontal milling, boring, drilling machine, IE, 6/8, p.186
Vertical boring, turning jobs done on King mill, IE, 2/17, p.107

Great Lakes Steel Corp.:
Buys 80 in. cold mill for Ecorse, Mich., 6/22, p.35

Greater Beloit Small Business Procurement Corp.:
Formed by group to get government, prime contractors business, 1/27, p.70

Gregory Industries Inc.:
Nelson: Customer specified welded stud fasteners for heat door on coin operated auto wash equipment, 5/11, p.65
Nelson Stud Welding, modular type control unit, IE, 4/27, p.135

Grimm & Co., W. T.:
Survey shows metalworkers lead merger trend, 2/10, p.34

Grob & Tesker Corp.:
Drill grinder needs no diameter adjustment, IE, 6/8, p.195

Groov-Pin Corp.:
Stainless hollow spring pins, IE, 5/4, p.201
Tap-Lok speeds assembly time, drives inserts, 3/30, p.120

Grumman Aircraft Engineering Corp.:
How to make ducting for takeoff-landing aircraft, TO, 6/15, p.20
Quenching tech. for aluminum in liquid nitrogen, 3/9, p.20
Short run plastic parts are injection molded, 3/30, p.124

Guild Metal Joining Equipment Co.:
Shear, endwelder for big pipe mill, IE, 3/30, p.193

H

H&H Machine Co.:
Tube end forming combines cutting-forming in one operation, 3/23, p.48

Hamilton Tool Co.:
Die-Part Portelvator improvments, IE, 6/1, p.90

Hanna Furnace Corp.:
New pig iron (Hannaloy) produces high strength castings, 2/10, p.116

Hanna Mining Co.:
Pelletizing machine at Iron Mountain plant processes ore for blast furnace, Dravo-Lurgi continuous grate process, 3/2, p.54

Hanna Co.:
Shock absorbers stop loads gently, IE, 5/4, p.198

Hanson-Van Winkle-Munning Co.:
Electrochemical machining units, 4/20, p.94

Harbison-Walker Refractories Co.:
Moves headquarters, B, 1/27, p.35
Refractories in construction of coke ovens, 2/3, p.33

Hardinge Bros. Inc.:
Lathe for polishing, finishing, IE, 2/3, p.115

Harig Mfg. Corp.:
Machine sharpens end mills 'Steptool', IE, 3/23, p.97

Harlan Electric Co.:
Buys former Blaw-Knox pipe plant, B, 1/27, p.35

Harnischfeger Corp.:
Brake on electric hoist (Zip-Lift), IE, 6/15, p.125
Builds Indiana welding plant, B, 4/13, p.51
General utility welder easily transportable, IE, 4/6, p.125
Gun drives self-contained welding wire supply, IE, 5/11, p.131
Stacker crane, high lift, IE, 1/27, p.126
Sells Diesel Engine Div., B, 6/8, p.51

Harper Co., H. M.:
Hollow stainless steel bars dev. for processing automatic screw machines, etc., 6/29, p.31

Harris Foundry & Machine Co.:
Builds giant baling press for Bethlehem, 1/27, p.35

Harshaw Chemical Co.:
New chromium reducer 'Cynorex CR), 2/24, p.29

Harvey Aluminum Inc.:
Titanium coils for chemical plant, 5/4, p.35

Harvey Hubbell Inc:
Buys Ralco Mfg., 1/20, p/32

Harvill Mfg. Co.:
Cold chamber diecaster, low maintenance cost, IE, 1/27, p.124

Havir Mfg. Co.:
Mounted press for lightweight parts, IE, 3/2, p.99
Stamping presses form metal, plastic, fabrics, IE, 6/1, p.101

Hayes Inc., C. I:
Oil quench vacuum furnace, IE, 3/23, p.97

Hazellett Stri-Casting Corp.:
Makes fast casting unit, 3/30, p.132

Heald Machine Co.:
Controlled Force grinding concept, 4/13, p.87
Electromechanical tracer controlled Bore-Matic (built for GE), 1/20, p.57
Honing machines added to grinding line, 8/24, p.35
Production honing equipment, IE, 2/24, p.115

Heidrick & Struggles:
Executive demand, survey, 5/11, p.19

HeliCoil Corp.:
GAR Precision: Electroforms surface roughness scale, 6/8, p.104

Hendley & Whittemore Co.:
Improvements added to angle bending rolls, IE, 6/1, p.101

Henes Mfg. Co.:
Waterwelder, IE, 3/16, p.199

Hertlein Special Tool Co.:
VerciPower machine mills wheelguard, 1/6, p.51

Hevi-Duty Heating Equipment Co.:
Double stack furnace, combines two heating chambers, IE, 2/10, p.195
Dual furnace designed for robot operation for Italian Nuclear Agency, IE, 1/6, p.272
Laboratory tube furnace gives temperature uniformity, 6/29, p.29

Hewitt-Robins Inc.:
Idlers in conveyor system 8 ft wide (coal to ships), 2/10, p.120

Hill Acme Co.:
Abrasive belt grinder for stainless press plates, IE, 3/23, p.98
Hydraulic roll bender, IE, 3/2, p.105
Vertical spindle grinder, 200 hp drive, IE, 4/20, p.179

Hills-McCanna Co.:
Builds foundry in Creston, Iowa to produce complex alloy castings, 2/24, p.33

Hinchcliff Hardwood Lumber Co.:
Pallet sides fold when not in use, IE, 4/27, p.135

Hirt Combustion Engineers:
Inert gas generator, IE, 2/10, p.184

Hitchiner Mfg. Co. Inc.:
Copper cast parts have high electrical conductivity, 3/9, p.31
Investment cast copper high in conductivity, 4/27, p.68

Hobart Bros Co.:
Automotive switch to CO_2 welding, 4/27, p.74
Shop welder also brazes, cuts, heats, surfaces, IE, 6/22, p.117

Holden's Pty. Ltd. (General Motors):
Buys land for new gray iron foundry, Australia, 1/20, p.32

Honeywell Inc.:
New name for Minneapolis-Honeywell Regulator, 3/16, p.51
ADEPT, family of aerospace digital computers claimed reliable for ten years, 2/10, p.47
Computer evolution (intelligence retrieval), 3/16, p.33
Electrical discharge machining, Aeronautical Div., diemaking, 6/15, p.53
Expansions, B, 2/24, p.35
Integrated circuitry—new tech. for making electronic connections, 2/3, p.29
Interplanetary accuracy predicted by Wedan for ICBM warhead, 2/10, p.34
Moisture detector, Dew Point Hygrometer, TO, 4/20, p. 35
Molecular diffusion process, eliminates interface in joining electronic components, 2/10, p.36
Paid engineering studies refused, 5/25, p.33
Semiconductor Div. moves to Fla., 6/8, p.52
Solar radiation (artificial sun) for space, 3/16, p.49
Sun sensor for NASA's advanced orbiting solar observatory, 2/3, p.20

Hooker Chemical Corp.:
Christopher's views on European-American trade (GATT must consider barriers to U. S. exports), 2/3, p.46
Parker Rust Proof: Automatic unit controls and records solutions used in conversion coating, 5/4, p.136
Parker Rustproof's Bonderite 711, IE, 3/9, p.103 and 5/25, p.164

Hoover Ball & Bearing Co.:
Buys Quinn-Berry, B, 2/3, p.35
May merge Stubnitz Greene, B., 5/18, p.36

Horizontal Continuous Casting Machine Co.:
Formed by F. K. Coppell to market German machine (low prices) which employs stationary mold, 4/27, p.33

Houghton & Co., E. F.:
Antirust tools and machines aerosol packaged, IE, 1/27, p.130
Vinyl spray protects surfaces, IE, 5/18, p.115

Howell Electric Motors Co.:
Combines magnet, grapple, Ohio Magnetics, IE, 2/17, p.114
Lifting magnet, weight reductions, Ohio Magnetics, IE, 2/17, p.116

Huber, Hunt & Nichols Inc.:
Contract for Armco continuous casting unit, 1/27, p.31

Hughes Aircraft Co.:
Cold welded metals, research goal, TO, 6/22, p.20
Electron beam welding for electronic, aerospace uses, 6/15, p.17
Engineering data on computer tape, IE, 6/29, p.107
Mobot for AEC testing station, Idaho Falls, IE, 3/2, p.99
NASA contracts: Locking device with quick release; and hot air soldering tech., 4/6, p.64
N/C system features techniques to up speed, 3/30, p.49
Production laser welder on display, 3/23, p.31
Radiation shield (for tubes on radar display consoles) formed in six draws, 3/16, p.122
Spindle axis N/C, IE, 5/4, p.197

Humble Oil & Refining Co.:
Motor oil in plastic cans, TO, 4/20, p.34

Humphreys Corp.:
Potential cited for plasma light-source furnace, IE, 2/10, p.180

Hunter Engineering Co.:
Continuous casting aluminum sheets (pic), 2/10, p.94
Continuous casting of aluminum, price of equipment, 3/30, p.132

Hunter Spring: See Ametek

Hutch Mfg. Co.:
Consolidates with Aerolite, B, 2/3, p.35

Hydromatics Inc.:
Flo-Ball valve body used in nickel brazing, 1/27, p.67

Hydrometals Inc.:
Buys Giller Tool, B, 1/6, p.53

Hynes Steel Products Co.:
Installs flat wire mill, B, 2/24, p.35

Hyster Co.:
Canadian plant opened, B, 1/6, p.53
Lift trucks for rough terrain, IE, 3/30, p.192
Nitrogen addition speeds carburizing (new installation), Hierman reports, 6/29, p.54

I

IIT Research Institute:
Cartridge cases have no metal parts (cellulose fibers impregnated with a resin), 6/8, p.126
Ceramics brazed to refractories, 4/27, p.72
Impact of integrated circuits on electronics industry, 6/8, p.33
Levitation melting (particles in midair) studied, 6/22, p.18
Pocket sized x-ray unit, TO, 4/27, p.20
Researches single crystal thin films, TO, 6/29, p.20

Illinois Tool Works Inc.:
Ownership in Japanese firm, B, 4/27, p.36
Shakeproof: Teks, screws that drill their own holes 5/18, p.54
Shakeproof's Flag washer, warns of loose fastener, IE, 5/11, p.134

IMC Industries Inc.:
Buys National Impacted Metals, B, 2/24, p.33

Imperial Chemical Industries:
Creates group to sell turnkey chemicals plants to Soviet nations, 1/20, p.30
Paint coatings by electrodeposition, 1/20, p.30

Imperial Metal Industries (Kynoch) Ltd.:
One-pass pendulum rolling mill, 1/20, p.30

Imperial Oil Ltd.:
Entering custom iron business, 3/2, p.18

Indiana Forge & Machine Co.:
Slug heating, gas fired heaters, 5/4, p.115

Indiana & Michigan Electric Co.:
Coal unloader on barge, bucket system, 6/8, p.127

Induction Heating Co.:
Moves to Warren, Ohio, as div. of Taylor-Winfield, B, 5/4, p.52

Inductotherm Corp.:
Builds induction melting unit for foundry, 2/10, p.102
Induction furnaces for Derby Castings Co., 1/27, p.68

Industrial Electrification Council:
Induction units replace coke fired furnaces, report, 1/27, p.68

Industrial Machines & Services Inc.:
Belt grinder sharpens carbide cutting tools, IE, 4/20, p.183

Industrial Marking Equipment Co. Inc.:
Machine imprints pipe in sizes to 12 in., IE, 6/29, p.100

Industrial Stainless Steels Inc.:
Wet abrasive cutting saw for bar orders, 6/1, p.46

Industrial Tectonics Inc.:
Stocks precision balls as small as 0.002 in. in diameter, IE, 6/1, p.98

Ingersoll Milling Machine Co.:
Capital equipment solutions via special technical studies . . . putting the problems into perspective, 2/17, p.46

Ingersoll-Rand Co.:
Air screw drivers assemble miniature components, IE, 2/3, p.112
Buys Improved Machinery, B, 6/15, p.36
Buys Pendleton Tool, B, 3/16, p.51

Ingram-Richardson Mfg. Co.:
Matte finishes on porcelain, weather resistance, 2/24, p.19

Inland Steel Co.:
Alphatized steel, marketing test, 5/4, p.51
Automatic structural beam welder, 4/27, p.17
Builds quality control center, Indiana Harbor, 1/6, p.51
Smith Jr.: Steel imports still challenge, 3/23, p.17

Interlake Iron Corp.:
New ferroalloy electric furnace in operation at Beverly, O., plant, 1/27, p.33

International Business Machines Corp.:
Audio response unit IBM 7770, teleprocessing computer, 2/24, p.56
Automated (computer) design engineering, 1/20, p.29
EDM facility, Rochester, Minn., 6/15, p.53
IBM System/360 hailed as start of new era for computers, 4/13, p.44
Laser pulsing simplified, 4/13, p.34
Percussive welder (wire welded to terminals), 3/16, p.36
Programed instruction for employee training 6/22, p.28
Reed switch, high reliability, IE, 1/27, p.126

International Harvester Co.:
Army contract for tank transporter trucks, 6/1, p.74
Billet straightening aided by chain sling turners, 2/3, p.62
Improved raw materials specifications means bearing quality maintained, tubing cost down, 4/6, p.66

International Nickel Co. Inc.:
Abrasion resistant alloy (Type 4 Ni-Hard iron), 1/20, p.56
Aluminum alloy strength upped with nickel additive, 2/3, p.18
Electroforming cuts costs, 6/8, p.104
Huntington Alloy gets 10 ft piston rod, 6/15, p.66
Stainless steel bridge beams, 4/6, p.64

International Nickel Co. of Canada Ltd.:
Nickel ore body near Thompson mine and refinery in Manitoba, 5/4, p.51
Plant to produce new Nickel Oxide Sinter 90, 5/4, p.51

International Research & Development Co. Ltd.:
Magnetohydrodynamics advances, 4/6, p.20

Ionia Mfg. Div.
Sold to A. O. Smith, 2/3, p.87

Ipsen Industries Inc.:
Automatic cycle control on furnace, IE, 3/2, p.102
Production vacuum furnace has oil quench, IE, 6/29, p.104

I-T-E Circuit Breaker Co.:
Firm hikes riveting output 320%, 6/1, p.44

J

Jackson Fluid Power Co.:
Table indexes through 16 stations, IE, 4/20, p.180

Jackson & Moreland Inc.:
Merges with United Engineers, B, 1/13, p.23

Jacobs Mfg. Co.:
Lever operated lathe collet chuck, IE, 4/13, p.151

Jergens Tool & Specialty Co.:
Schron gives small firms tips on modernization, 2/17, p.28

Johansson Co., I. O.:
N/C unit machines heavy work, IE, 4/20, p.181

Johns-Manville Corp.:
Titanium shapes formed cold with epoxy tooling a combination of rubber pads and plastic dies, 5/25, p.85

Johnson & Son Inc., S. C.:
Coolant for machining, grinding is corrosion resistant, IE, 6/8, p.194

Jones & Lamson Machine Co.:
Optical comparator, Vertac-14, IE, 5/18, p.105
Sale subject to stockholder approval, B, 1/6, p.53
Sold to Textron, 2/10, p.49

Jones & Laughlin Steel Corp.:
AISI medal awarded Smith, Glasgow for oxygen practices, 6/1, p.25
Buys GE conduit products plants, B, 1/13, p.23
Cleveland furnace 'Susan', round the clock operation (cover), 6/29
Cooling coils in furnace base speed annealing cycles, Cleveland plant, 1/20, p.54
New processing line for bumper stock (Surfaglaze), 1/6, p.53
Stainless grades offer better machining, 416 SM and 304 SM added to 316 SM, 4/26, p.56
Stephens warns on steel product imports (sounds alarm on tariffs), 2/17, p.25

Joy Mfg. Co.:
Air compressor for blast furnace, up to 50 psi, 2/10, p.35
Combination rotary drill and mud gun simplifies furnace tapping, plugging, IE, 2/3, p.105

K

KSM Products Inc.:
Arc studwelder and a controller (MeterArc), IE, 6/29, p.106

Kaiser Aluminum & Chemical Corp.:
Air conditioning units feature vortex tube, clean air to workers, 3/16, p.116
Clad aluminum alloy, mirror surface for vans, trucks, etc., 2/17, p.106
Direct order entry system—computers, dial order-information, etc. (new approaches to marketing), 3/2, p.25
Estimates aluminum markets (cans, buildings), 4/13, p.35
Expands, modernizes at plants in Louisiana, 6/1, p.27
Expands Electrical Products Div (Newark, O.; La. and Ala.), 6/15, p.35
Forms Kaiser Kabel Werk, Berlin, 3/20, p.32
High purity magnesia base for refractories (K-Grain), 4/13, p.92
Installs cold rolling mill, Trentwood Wks., 4/13, p.51
'Instant' expense accounts explained by Siemers, 1/6, p.46
Isocyanate plant, Gramercy, La., 3/9, p.35
Joint owner in Turkish firm (aluminum cable), B, 6/1, p.28
Kaiser Chemicals buys Standard Magnesium, B, 4/27, p.36
May enter magnesium with purchase of standard Magnesium & Chemical, 2/24, p.33

Kaiser Aluminum France:
Organized, 1/20, p.32

Kaiser Steel Corp.:
Builds automatic structural beam welder for Inland, 4/27, p.17
Buys plant and property of Taylor Forge & Pipe, B, 4/13, p.52
Kaiser Plan results good to date, tests still ahead (Vaughn reports), 2/17, p.27
Sharing plan, average bonus of $1000, hourly benefits 48 cents, 2/10, p 42
Sharing plan, employees averaged $775 under sharing plan, 4/6, p.29
Sharing plan April bonus draws fire from workers, 6/8, p.43
Should workers share in cost on raw materials produced internally, 6/22, p.26
Pipe forming press (pic), 2/24, p.35

Kaufman Mfg. Co.:
Tapping machine, IE, 4/20, p.189
Tapping machine positioning fixture, IE, 6/8, p.190

Kaufman Tool & Engineering Corp.:
Introduces urethane tooling material, 4/27, p.26
Urethane forming blocks on dies benefit press brakes, 5/11, p.64

Kaweckl Chemical Co.:
Thin magnetic foil (Permalloy) offered commercially, 4/13, p.92

Kearfott Div.: See General Precision

Kearney & Trecker Corp.:
Cash-Flo financing plan now stimulates sales, 1/20 p.17
Francis Trecker key figure in proposed financing plan for small firms, 2/3, p.25
Milwaukee-Matic series E, new design halves price, 3/9, p.33

Kelsey-Hayes Co.:
Buys Bonney Tools, B, 6/15, p.36
Kolweld: New twist boost cold-weld quality, reliability, 5/11, p.66

Kennecott Copper Corp.:
Alaska mining operations planned at Ruby Creek, 3/16, p.49
Milliken: Copper price outlook, 5/11, p.18

Kennemetal Inc.:
Boring bar (vibration damping type) cuts costs of gearshaft holes in transmission cases, 4/20, p.108

Kenney Steel Treating Corp.:
Nickel brazing, cost cutter in joining stainless, 1/27, p.67

Kentucky Electric Steel Co.:
Installs merchant mill to roll 1000 lb ingots B, 4/20, p.52

Kidde & Co. Inc., Walter:
Ultrasonic warning device for display cases, offices, IE, 3/30, p.194

Kinney Engineers Inc.:
Licensed by London firm to granulate liquid iron, 5/25, p.95

Koehring Co.:
Buys Thew Shovel, 2/24, p.33
HPM Div., fast clamping molder, IE, 5/4, p.209

Koppers Co. Inc.:
BOF shops for Republic with computer control, 5/25, p.51
Continuous casting plant for Connors Steel (pic), 2/10 p.89
Detroit Steel coke ovens contract, 2/3, p.33
Republic contract for oxygen furnaces, etc., Cleveland plant, 3/30, p.51
Steel capacity forecast for 20 years, 2/10, p.34

Koppers International C. A.:
Rotterdam study for steel plant, 6/15, p.18

Korad Corp.:
Laser welder, 5/4, p.142

L

L&R Mfg. Co.:
Ultrasonic cleaner requires no tuning, IE, 5/25, p.162

LFM Atchison: See Rockwell Mfg.

La France Fire Engine & Foamite Ltd.:
Mergers with Plate & Structural Steel, 2/10, p.51

Lahr Machine: See Warner & Swasey

Lamb Co., Jos. F.:
15 station palletized transfer machine, IE, 5/25, p.160

Lamb Electric: See Ametek

Lami-Lube Corp.:
Lubricant protects, coats bearing surfaces, IE, 5/5, p.200

Landis Machine Co.:
Alignment adjustable on thread cutting heads, IE, 2/10, p.182
Buys Peer Inc., B, 5/25, p.52
Collapsible tap threads deep, hollow vessels, IE 5/4, p.196
Threading machine finishes rod, tube ends, IE, 6/29, p.98

Lansing Stamping Co.:
Purchased tools made via electrical discharge machining, trims costs, 4/20, p.105

LaSalle Steel Co.:
Tellurium added to high strength alloy steel bars, 3/30, p.142

Latrobe Steel Co.:
Throwaway high speed cutting tools, TO, 5/18, p.20
Vacuum steel facilities unveiled (Therm-I-Vac), 5/25, p.47
White layer on surface of die steel mold machined by EDM, 6/15, p.58

Lau Blower Co.:
Renames Home Comfort Div. (Conaire), 2/24, p.35

Lear Siegler Inc.:
Air compressor supplies oilfree air for electronic systems, IE, 2/17, p.117
Buys interest in Aircraft Appliances (Ont.), 3/9, p.35
Coherent green laser light in production, 3/2, p.20

Lebanon Steel Foundry:
Loftin wins Cooper Award (casting surfaces), 6/29, p.53

LeBlanc Co., G.:
Rocket wire springs end musicians' problem, 1/27, p.72

LeBlond Machine Tool Co., R. K.:
Duplicating lathe shapes hemispheres, IE, 4/6, p.120
N/C lathe, Tape-Turn II, IE, 6/29, p.95

Leeds & Northrup Co.:
Automatic optical pyrometer checks temperatures, IE, 4/6, p 121

Lees-Bradner Co.:
Six spindle hobber, IE, 1/20, p.99

Leiman Bros. Inc.:
Rotary air and vacuum pumps, IE, 5/4, p.198

Leland-Gifford Co.:
N/C drills precise pattern, IE, 5/25, p.167
N/C drill has radial indexing head, IE, 6/22, p.115

Le Marie Machine Tool Co.:
Automatic indexing trunnion machine, retools economically, IE, 2/3, p.106
Drilling rig flexibility, IE, 1/6, p.265
N/C machine bores, mills, drills, taps, IE, 6/22, p.103

Levy Co., Edw. C.:
Heavy duty trailer rig hauls, dumps molten slag (furnace to slag pit), 1/20, p.50

Lewis Machine Co.:
Machine rounds and shapes (from coils), IE, 3/2, p.94

Lewis Welding & Engineering Co.:
Sold to McDowell-Wellman, 2/3, p.35

Lexco Engineering & Mfg. Corp.:
Hydraulic sheet handler, die table, IE, 3/9, p.97
Portable lift table, IE, 6/29, p.96

Lincoln Electric Co.:
Automatic submerged arcwelder for vacuum degassing ladles, 1/27, p.69
Electrode for semiautomatic arcwelder, IE, 1/13, p.70
Power supply arcwelder (Weldanpower), IE, 6/15, p.125
Vapor shielded arcwelder, Innershield Squirt process, 1/27, p.68

Lindberg Engineering Co.:
Atmosphere furnace fits HERF operation, IE, 3/2, p.103
Induction heater air, water cooled, IE, 2/10, p.192
Special technical seminars 'sell' capital equipment, 3/16, p.102

Lindberg Steel Treating Co. Inc.:
The Lindberg story . . . blueprint for job shop growth, 3/23, p.43
Seal life upped with heat treating and welding refinements, 2/24, p.63

Linde Co.:
Advances in plasma arc cutting, 4/27, p.114
All - position welding system, "short circuiting transfer," 4/27, p.51
Automatic submerged arcwelder puts down two fillet welds, 1/27, p.71
Commercial laser welder, 5/4, p.139
Cored wire welder, cart, IE, 3/9, p.92
Electrode enables continuous solar simulation, TO, 4/20, p.35
Gas adsorption (pumping system) key to clean vacuums 5/4, p.203
Tungsten carbide (thin coat-tiny welds) on coining die ups tool life, (percussion weld surfacing), 2/3, p.31
Welding wire plant, Ashtabula, 1/20 p.21

Ling-Temco-Vought Corp.:
Millsap: How we'll manufacture tomorrow (Science shapes new dimensions in technology of forming), 6/22, p.52

Link-Belt Co.:
Arcweld process benefits fabrication speed on roller frames, 3/23, p.48
Coal barge bucket elevator for unloading, 6/8, p.126
Life expectancy up on roller bearing series, IE, 6/22, p.104

Lionel Corp.:
Adhesive (Filmex), an epoxy bond cuts costs, 5/25, p.86

Litton Industries Inc.:
McDaniel: New government marketing approach coming? 6/15, p.18
McDaniel: Government will turn to industry for socioeconomic solutions, 6/29, p.49

Livernois Engineering Co.:
Transfer shuttle feed fits small press, IE, 4/20, p.183

Lockheed Aircraft Corp.:
Beryllium used for skin panels of space vehicle, 4/20 p.49
Gross speaks at Industrial Fair: Economic impact of SST, 3/23, p.18
Microorganisms-culprits in corrosion of aircraft fuel tanks, 3/23, p.20
Weldments alloy X7000 series, 4/27, p.74

Loctite Corp.:
Liquid painted on part serves as soft gasket, IE, 5/11, p.125

Lodge & Shipley Co.:
Flo-Peeling, metal removal at superspeeds (Claus Sprock developer), 5/11, p.61
Lathe designed for medium duty, IE 6/8, p.187
Magna-Turn, king sized lathe handles 75 hp, IE, 3/2, p.93

Loeffel Co. Inc., Arthur:
Smooth edge blanking equipment distributed (forming process in single stroke), 4/20, p.96

Lola Cars Ltd.:
Builds bladder fuel tanks for Ford racer, 6/15, p.98

Loma Machine Mfg. Co.:
Automated cold saw for aluminum ingots, 4/6, p.36

Lufkin Rule Co.:
Electronic gaging system, compact, IE, 5/18, p.110

Lukens Steel Co.:
100,000 psi plate steel announced, "T-1" Type B, 6/15, p.35
Building steel plant in Turkey, false rumor, 1/20, p.18
Wins Indian order, steel plates, 1/20, p.18

Luria Bros. & Co. Inc.:
Dr. Burlingame tests prove turnings, borings strengthen sintefed ore for blast furnace feeds, 3/23, p.54
Scrap in ore processing, new process, 4/6, p.29

Lynchburg Foundry:
Gets shaker ladies built by Dravo, 3/30, p.49

M

MB Electronics: See Textron Electronics

M-H Standard Corp.:
Palletflo rail, IE, 6/1, p.92

M & M Tool & Mfg. Co. Inc.:
Heavy duty Roto-Mill for precision power milling, IE, 4/13, p.156
Round Table doesn't need constant temperature, IE, 1/6, p.273

MRC Mfg. Corp.:
Lab type furnace melts reactive metals, IE, 1/20, p.106

MSL Industries Inc.:
Buys Sinko Mfg. & Tool, B, 5/25, p.52

M&T Chemicals Inc.:
Electronic parts coating, 4/6, p.71

Machine Tools International:
Formed by U. S. firms to sell and market Afro-Asian market, 5/11, p.31

Magnaflux Corp.:
Chain sling turners for billet straightening, 2/3, p.62
Meter checks thickness of plastic, rubber, glass, IE, 3/16, p.193
Sonic instrument checks cast iron strength, IE, 5/25, p.159
Sonic instrument inspects gray iron, 6/29, p.30
Weld rods sorted automatically, TO, 3/16, p.36

ManLabs Inc.:
AF study, fracture toughness in high strength sheet alloys, 3/23, p.19

Manning, Maxwell & Moore Inc.:
Improvements on overhead bridge cranes, IE, 3/30, p.199

Mansfield Sanitary Inc.:
Buys Triumph Brass, B, 6/1, p.28

Marbon Chemical: See Borg-Warner

Marlin-Rockwell Corp.:
Merges into TRW, B, 4/13, p.52

Marquette Mfg. Co.:
Welder handles wide job range, IE, 4/27, p.120

Martin Co.:
Alloy of future space use, Aluminum 2219, 3/16, p.36
Gypsum cement holds titanium during hot machining, 6/15, p.63
Honeycomb panel contours explosive formed (a NASA contract) . . . fill with wax, then blast it, 2/17, p.52
MPD power generator, electricity direct from ionized gas, 1/6, p.49
Nuclear Div., generator power, 1/27, p.19
Orlando Div.: How Martin saved $65 million via total value analysis, 6/8, p.99

Martin Marietta Corp.:
Forms Bunker-Ramo with: 1/27, p.18

Marvel-Schebler: See Borg Warner

Maser Optics Inc.:
Laser in light package, IE, 2/17, p.119
Laser setup, IE, 6/29, p.108
Solid state continuous wave laser, IE, 4/6, p.120

Mattison Machine Works:
Grinding service company supplied with machine, 4/6, p.76

Mayer & Co., Oscar:
In-line bacon wrappers, 1/27, p.60

McCulloch Corp.:
Portable ac-dc arcwelder, IE, 5/25, p.171

McDowell-Wellman Engineering Co.:
Builds conveyor belt with idlers 8 ft wide (coal hauling to ship), 2/10, p.120
Buys Lewis Welding & Eng., B, 2/3, p.35

McGraw-Edison Co.:
Lectromelt installs vacuum degassing unit at Timken, 6/8, p.128

McKay Co.:
New carbon dioxide welding (for Thew's Moto-Tower wheel), 3/23, p.36

McKay Machine Co.:
Coil coating line for Republic, 2/3, p.35
Electricweld pipe mill for Republic, 5/11, p.72

McKee Co., Arthur G.:
Pelletizing plant (Mich.) for A-C, 4/20, p.44

McLouth Steel Corp.:
Mather Mine (Marquette) expanded, 1/6, p.51

McPherson Instrument Corp.:
Scanning monochromator covers ultraviolet range, IE, 5/18, p.108

Mecha-Finish Corp.:
Two spindle, abrasive slurry finishing unit, IE, 5/4, p.200

Mercury Mfg. Co.:
Transmission automatic on small tow tractor, IE, 1/27, p.128

Mesta Machine Co.:
Acid recovery pilot plant, 3/9, p.18
Automatic roll changing, 3/2, p.18
Builds cold reduction mill in France, 6/8, p.52

Metallizing Co. of America Inc.:
Equipment sprays metal coatings, IE, 4/27, p.120

Metallwerk Plansee (Austria):
Microthin tungsten foil solves hot problem, 1/20, p.63

Meteo Inc.:
Advances in spraying materials systems, 3/9 p.18
Flame spraying tin, silver, platinum powders, IE, 6/29, p.96

Metcut Research Associates:
Machining refractory metals, report to AF, 2/3, p.19
Metal removal data, how we'll manufacture tomorrow, 4/13, p.81
Simulated defect etching machine, 1/27, p.20
Stainless, refractory metals used in vacuum furnace construction, 2/10, p.100
Tests for drilling malleable iron, 3/16, p.113
Waspalloy evaluates two heats, one vacuum processed and the other remelted under the slag blanket, 2/17, p.60

Metem Corp.:
EDM work, job shop, 6/15, p.53

Meyer Mfg. Co., Geo. J.:
Buys Speaker Sortation Systems, B, 3/16, p.51

Michigan Dynamics Inc.:
Abrasive jet stream speeds deburring of hydraulic filters for missile systems, 4/6, p.33

Micromatic Hone Corp.:
Machine hones parts, IDs 40 ft long, IE, 6/15, p.120

Midvale-Heppenstall Co.:
Vacuum tap degassing cuts temperature and alloy losses, 1/13, p.32

Miles Standard Corp.:
Modular concept is basic to line of machines, IE, 4/13, p.155

Milford Rivet & Machine Co.:
Riveting machines, pedestal types, IE, 5/4, p.196

Miller Co.:
Semicontinuous casting unit for copper alloys, 2/10, p.95

Miller Electric Mfg. Co.:
Impulse arc starter, 5/25, p.102
Programing device in welder, IE, 4/27, p.120

Mills-Wolf Steel Co.:
Electric eye guides plasma arc cutter, IE, 1/6, p.270

Milman Engineering Co. Inc.:
Drilling and tapping head works in tight circles, IE, 4/6, p.125

Milwaukee Electric Tool Co.:
Machine handles four diameters (Landis grinder), 2/10, p.99
Magnetic drill presses, IE, 5/11, p.134

Mimik Tracers Inc.:
Tracer unit fits lathes, boring mills, IE, 4/20, p.187

Minneapolis-Honeywell Regulator Co.:
Corporate name changed to Honeywell Inc., 3/16, p.51

Minnesota Rubber Co.:
Rubber coating (Xsel) imparts wear resistance, IE, 5/25, p.162

Minster Machine Co.:
Piece-Maker press, feed combination (lamination production), 2/10, p.99
Universal stamping press for deep draws, IE, 3/16, p.200

Mitchell-Bentley Corp.:
Sells Ionia plant to A. O. Smith, 2/3, p.87

Mobil Oil Co.:
Dalton Schnack: Lubrication trends, 5/25, p.80

Moen Faucet: See Standard Screw

Molded Fiberglass Body Co.:
Parts supplied Fisher Body plant, 2/3, p.88

Moletrics Inc.:
Unit combines metal cleaning-electrolytic machining, 5/11, p.79

Moline Malleable Iron Co.:
Borg-Warner export trade agreement, 3/30, p.51

Monarch Machine Tool Co.:
Bars replace V-ways on lathe, IE, 3/9, p.92

Edlund Div.: N/C drilling-tapping machine, greater table travel and increased working surface, IE, 3/16, p.183

Monroe Calculating Machine Co.:
Renamed Monroe International, B, 5/25, p.52
Vendor rating requirement of military spec., computer system, 3/16, p.120

Monsanto Chemical Co.:
Dry tape fuel cell, experiment, 1/27, p.71

Monsanto Research Corp.:
Battery utilizes dry tape, 2/24, p.20

Morgan Construction Co.:
Metal removal: Cutting tools for turret lathe machining, (cover pic.), 4/13

Morgan Engineering Co.:
Sold, B, 4/27, p.36

Moslo Machinery Co.:
Injector molding machine made for Grumman Aircraft, 3/30, p.124

Motor Appliance Corp.:
Zinc diecast rotors, fabricating benefits, 3/30, p.120

Mt. Vernon Research Co.:
Xenon arc image furnace 7232° F, IE, 6/22, p.110

Mueller Brass Co.:
Markets forged bronze gear blanks, 4/20, p.45

Mueller Climatrol:
Team concept on assembly lines, 1/27, p.17

Multifinish Mfg. Co.:
Ferrous metal particles removed magnetically, IE, 4/13, p.149

Multi-Metal Wire Cloth Co, Inc.:
Filter medium (Neva-Clog) made of dual stainless sheets, 3/30, p.127

Murray-Way Corp.:
Selective finishes on formed parts, versatile machine, IE, 6/1, p.89

N

NRC Equipment Corp.:
Portable high vacuum pumping systems, work horse types, 2/17, p.112
Vacuum diffusion pumps, IE, 4/6, p.125

Napco Industries Inc.:
Buys Diesel Div. of Harnischfeger, 6/8, p.51

Nash Co. Inc., J. M.:
Bandsaw cuts angles, uses shuttle conveyor, IE, 5/4, p.206

National Broach & Machine Co.:
Gear analyzer, IE, 4/13, p.151
Gear honing unit, IE, 4/27, p.130

National Distillers & Chemical Corp.:
Titanium venture with USS (Reactive Metals), 3/30, p.51

National Electric Welding Machines Co.:
Combination strip welder and peeler joins metals quickly, IE, 3/16, p.197
Markets silicon-diode, rectifier type power pack for welding machines, 5/11, p.19
Roll seamwelder makes small motor frames, IE, 1/6, p.272
Skew roll drum welder, IE, 6/8, p.194

National Jet Co.:
Device controls movement to billionths, TO, 5/4, p.36

National Machinery Co.:
New 'scrapless' boltmaking method, TO, 3/16, p.36
Pointer designed for boltmaking, IE, 2/17, p.115

National Research Corp.:
Brain sized computer possible with development of columbium films, 2/24, p.51
High temp. vacuum sintering furnace, IE, 3/30, p.184
Installs for high mill rolls, dust-free room, pic, 6/8, p.52
Microthin tungsten foils rolled in sheets 24 in. wide, solves hot problem, 1/20, p.63
Pressure sensor has rapid response, IE, 2/3, p.106
Tungsten foil 20 in. width, IE 1/6, p.263

National Rolling Mills Co.:
AC supplies electrical systems for Sendzimir mill, 3/9, p.35

National-Standard Co.:
Spring wire torture test, cover pic., 3/16

National Steel Corp.:
Builds steelmaking plant at Weirton to incorporate basic oxygen, degassing, continuous casting units, 3/23, p.33
Buys Korhumel and Purdy companies, 1/20, p.26
Continuous casting deal (National Steel, Concast and Mannesmann Akt.), 1/20, p.31
Executive reorganization: Stinson president, 1/6, p.46

Navan Products Inc.:
Unit slices, slots, IE, 3/9, p.102

Nelson Stud: See Gregory Industries

Neptune Meter Co.:
Deep drawn steel eliminates soldering and machining, 3/9, p.45

New Britain Machine Co.:
Chuck handles close centers, IE, 5/18, p.112
Copying lathe versatility, IE, 2/17, p.107
Indexing holder on copying lathes, IE, 2/10, p.195
Vertical contour borers, IE, 2/3, p.111

New England Gear Works Inc.:
Speed reducer design, IE, 1/6, p.273

Niagara Machine & Tool Works:
Hydraulic shear line, IE, 6/15, p.115

Nichols Wire & Aluminum Co.:
Assets acquired by Grant Fourth Corp., 5/4, p.52
Agent for Italian Properzi casting machines, 3/30, p.132

Nippon Kokan K.K.
Co-former of Simalpan (Singapore), steel pipe, 6/1, p.28

Noble & Westbrook: See Bristol Brass

Nolder Steel Co.:
Power strapping machine packages coil, 3/23, p.35

Non-Linear Systems Inc.:
No-assembly line plan (groups of workers subs for department heads), 5/25, p.90

Nordson Corp.:
Airless spray equipment for plastic coatings, 1/27, p.106

Norfolk & Western Railway:
Twin conveyor belt with idlers 8 ft wide (coal to ships), 2/10, p.120

Norlin Co., Inc., C. M.:
Wire feeder, IE, 1/27, p.126
Wire feeder, IE, 4/27, p.116

North American Aviation Inc.:
Airplane parts get permanent markers, Columbus plant, 2/24, p.20
Aluminide coating for columbium halts oxidation, 2/3, p.104
Aluminide coating protects columbium (rocket nozzles), 2/10, p.36
Bids for supersonic transport, titanium usage, 3/9, p.26
Develops Nadyne, light new generator, 4/13, p.47
Eutectic bonding makes leaktight parts for an organic cooled atomic reactor, 2/3, p.61
Magnetic tape system cuts N/C costs, 3/9, p.28
Water drilling, holes in aluminum sheet, 5/18, p.47
XB-70A bomber (problem plagued) advances technology, 5/18, p.29

North American Car Corp.:
New freight car (Portager) only four wheels, 45 ft long, 3/23, p.17

Northern Instrument Corp.:
Device checks bearings while in operation, 3/16, p.191

Norton Co.:
Behr-Manning: Abrasive belts handle scale, 2/3, p.20
Behr-Manning: Finer mesh benefits nylon abrasive wheels, IE, 1/13, p.69
Buys Clipper Mfg., diversifies into construction equipment, 2/10, p.49
Norway plant (Lillesand) underway, 5/11, p.35
Standard on centerless grinder, IE, 2/3, p.105

Numec Instruments & Controls Corp.:
Air displacement porometer, IE, 2/3, p.114

O

O&M Mfg. Co.:
Studwelding tech. reduces radiator fastening costs, 5/25, p.86

Oak Mfg. Co.:
Partnership with Japanese firm, 12/2, p.117

Oak Ridge Technical Enterprises Corp.:
Radiation detector, 2/3, p.20

Oakite Products Inc.:
New surface protection, preparation method, 2/24, p.18

Oglebay Norton Co.:
Taconite plant in Minnesota jointly owned by Ford and Eveleth, 5/11, p.35

Ohio Drill & Tool Co.:
Fine drills screened in grinder pan (so not to float away in coolant), 3/2, p.19

Ohio Magnetics: See Howell Electric

Ohmart Corp.:
System weighs materials while on conveyor, IE, 1/27, p.122

Oil-Rite Corp.:
Oil circulating system (bearing lube), 2/10, p.194

Okonite Co.:
Test lab at new ultrahigh voltage cable facility, pic., 4/27, p.36

Osborn Mfg. Co.:
Brush finishing unit for deburring, 3/23, p.49
Deburrs geometrically shaped parts, IE, 4/20, p.187

Otani Heavy Industries Ltd.:
Dr. Otani: Rotary reactor for treating mold iron, 3/16, p.110

Otis Elevator Co.:
Refined electrical circuitry added to lift trucks, IE, 3/23, p.94
Silicon controlled rectifier drive control on Baker lift trucks, IE, 6/1, p.91

Outboard Marine Corp.:
Cushman Motors, Haulster loads 2000 lb, 3/30, p.190
Minute-Miser, Cushman vehicle, IE, 3/9, p.104
Tool box body fits small vehicles, IE, 6/22, p.115

P

Pacific Hydroform & Development Corp.:
Eversion forming of multiple diameters, 1/20, p.52

Pacific Industrial Mfg. Co.:
Fast die change on hydraulic press brake, 3/30, p.121

Page-Hersey Tubes Ltd.:
Stelco buys, 5/25, p.52

Palmer-Bee Co.:
Sold, B, 4/13, p.52

Pangborn Corp.:
Additions to line of finishing machines, IE, 5/4, p.189
RotoBlast unit combines core knockout, blast cleaning for Dalton Foundries, 5/18, p.58

Panhandle Eastern Pipe Line Co.:
Uses A. O. Smith constant ID pipe (mechanically expanded), 3/23, p.53

Parker-Hannifin Corp.:
Cam actuated air control valves, IE, 1/6, p.268
Scott Rogers: Speaker at marketing conference in Dallas, 6/22, p.25

Parker-Hartford Corp.:
Buys Grandahl Tool, B, 6/15, p.36

Parker Rust Proof: See Hooker Chemical

Parmeko Ltd.:
Low cost contactless switch, 6/22, p.18

Parts Feeders Inc.:
Vibratory feeders-reversing rolls, IE, 4/20, p.180

Paxson Machine Co.:
Sold to new group, B, 1/20, p.32

Peck, Stow & Wilcox Co.:
Safety features on foot shears, IE, 4/27, p.134

Pendleton Tool Industries Inc.:
Sold to Ingersoll-Rand, B, 2/10, p.51

Pennsalt Chemicals Corp.:
Buys F. J. Stokes, B, 2/3, p.35
Brush washer system for metal sheets and strip, IE, 6/29, p.108

Pennsylvania Electric Co.:
GPU process cuts air pollution, produces marketable sulfuric acid, 4/20, p.47

Pereny Equipment Co, Inc.:
Box type electric furnace specifically for bright annealing molybdenum, IE, 5/4, p.203
Double tube furnace, IE, 3/9, p.102

Perkins-Elmer Corp.:
Buys common stock of Coleman Instruments, B, 3/9, p.35
Interferometers, gas laser types, IE, 2/17, p.119

Permacel:
Automatic packaging, sealing random sizes with pressure sensitive tape, IE, 2/10, p.186
Teflon pressure sensitive tape, IE, 6/8, p.189

Pettibone Mulliken Corp.:
Beardsley & Piper: Grinder free of vibration, 3/16, p.184

Pfizer & Co. Inc., Chas.:
McKeen: Global communications will demand world marketing, 6/15, p.17
Metal powder research, iron oxides combined with yttrium and garnet, 6/8, p.36

Phelps Dodge Aluminum Products Corp.:
Acquire plants of Alabama Wire, B, 6/15, p.36

Phelps Dodge Corp.:
Enters aluminum product field, 3/23, p.36

Philadelphia Gear Corp.:
Tailoring gear drives for tougher jobs (Stafford reports), 2/3, p.43

Phillips Mfg. Co.:
Makes vapor degreaser for Gary Wks., 6/22, p.62

Phoenix Steel Co.:
Expansion plans Phoenixville, Pa., and Claymont, Del., 5/18, p.35

Pickands Mather & Co.:
Plans six year prospecting program in Australia, 3/2, p.32

Pilgrim Co., F. A.:
Expansion program, moves Berlin Mfg. and Crown Aluminum, 1/27, p.35

Pipe Machinery Co.:
Adds Veeko Div., B, 4/6, p.36

Pittsburgh Bridge & Iron Works:
Wins nonpattern labor pact with USW local, 6/15, p.27

Pittsburgh-Des Moines Steel Co.:
Fabricates tank containing three steels (Monroeville Water storage reservoir), 6/1, p.51
Semiautomatic welding with new flux cored wire cuts welding time, 2/3, p.51

Pittsburgh Metallurgical Co. Inc.:
Adds arc furnaces, Calvert City, Ky., 2/24, p.35

Pittsburgh Plate Glass Co.:
Bondmaster M666 adhesive (polyvinyl tubing to steel), 1/27, p.67
Ernsberger: 1 million psi glass structurals coming, 6/1, p.26
Wound reinforced plastic forecast (pipe-tubing, storage tanks, electrical, sporting goods markets), 2/17, p.70

Pittsburgh Steel Co.:
Belgium venture (Armco-Pittsburgh), 3/16, p.34
Builds iron ore sintering plant, Monessen Wks., 3/23, p.35
Consolidates Rods & Wire Div. with Construction Products, B, 1/13, p.23
Oxygen furnace starts, Monessen Wks., 3/16, p.49

Pollock Co., William B.:
Uses automatic submerged arc techniques, 1/27, p.69

Polymer Corp.:
MonoCast nylon solves problem jobs, 3/16, p.104

Pope Machinery Co.:
Veeko unit checks contoured surfaces, 5/4, p.190

Porter Company Inc., H. K.:
Automated forging unit, Impacter, 3/30, p.122
Continuous casting plant arrangement (Koppers design), 2/10, p.89
Riverside-Alloy Metal moves, B, 3/9, p.35

Portland Copper & Tank Works Inc.:
Renamed Bliss-Portland, 5/4, p.52

Potomac Electric Power Co.:
Automatic bucket wheel machine at generating station, pic., 5/25, p.52

Power Control Products Inc.:
Pneumatic pull feed for stamping, IE, 2/17, p.108

Power Piping Co.:
Formed, B, 1/27, p.35

Power Tools Inc.:
Saw slices ferrous, nonferrous metals, IE, 4/6, p.123

Powermatic Inc.:
Bandsaw features cutting precision, IE, 4/20, p.185

Powertron Corp.:
Ultrasonic cleaner, self-tuning, IE, 1/6, p.258

Pratt & Whitney Co. Inc.:
Adaptive control system forecast, 6/8, p.33
Automatic order-data processing system, 5/11, p.83
Automatic turret lathe for short runs, IE, 3/30, p.181
Automatic turret lathe, large capacity, IE, 1/13, p.65

Precision Castings Co.:
Modernization program, B, 2/24, p.35

Precision Welder & Flexopress Corp.:
300 ton press has small press accuracy, IE, 3/16, p.195
T. Embury Jones assesses future of welding, 4/27, p.52
Welder fastens steel mounting brackets (autos), 1/20, p.63

Prenco Inc.:
Leak testing of castings built into impregnation system, 4/6, p.74

Pressed Steel Co. Ltd.:
Auto body dip line, electrocoating, 5/11, p.107
Paint coatings electrodeposited, 1/20, p.30

Pressed Steel Products Co.:
Moves offices and plant, 2/3, p.35

Pressure Blast Mfg. Co. Inc.:
Automatic dry blast unit, IE, 1/27, p.129

Product Research & Development Corp.:
Fluid 60 penetrates, prevents corrosion (plant equipment), 1/27, p.131

Production Machinery Div.:
See U. S. Industries

Polerized Chicago Corp.:
Scrap processor, autos in 15 seconds, 1/13, p.22

Pyromet Co.:
Solving fatigue crack propagation in high strength materials, such as maraging steels, 4/20, p.33

Pyrometer Instrument Co.:
Optical pyrometer, IE, 6/29, p.105

Pyronics Inc.:
Buys Anthony Inc., B, 4/20, p.52

Q

Qual-O-Tool Inc.:
Formed, B, 2/24, p.35

R

R. I. Engineering & Mfg. Corp.:
Power spinning lathe forms heavy plates, IE, 2/10, p.188

Racine Hydraulics & Machinery Inc.:
Solenoid protector solves valve problems, IE, 2/24, p.119
Twelve blade speeds, IE, 1/27, p.130

Radio Corp. of America:
Breakthrough in silicon transistor prices, IE, 2/10, p.192
Expanding Monticello, Ind., plant, 2/10, p.49
Gage inspects electronically, IE, 4/20, p.180
Module ups voltages of thermionic converters (nuclear heat directly into electricity), 6/15, p.63
New silicon controlled rectifier (solid state) for home appliances, 3/16, p.47
Noise eliminator for microwaves, 2/24, p.20
Retrieval and information storage system (RACE memory), 2/17, p.66

Rampe Mfg. Co.:
Orbital finisher, IE, 3/23, p.99
Vibratory finishers (metal, rubber parts), IE, 4/20, p.182

Randall Graphite Bearings Inc.:
Opens service center, Cleveland, B, 1/27, p.35

Ransohoff Co.:
Automatic conversion coater, 40 ft long, IE, 6/1, p.92

Ransome Co.:
Turning roll and other welding equipment exhibited, IE, 4/27, p.116

Raymond Corp.:
Narrow aisle truck, IE, 5/4, p.202

Raytheon Co.:
Buys Micro State Electronics, B, 6/22, p.35
Buys Penta Labs, B, 6/1, p.28

Reaction Motors: See Thiokol

Reactive Metals Inc.:
Joint venture of USS, National Distillers, 3/30, p.51

Read Corp.:
Positioner holds 300 ton weldments, IE, 3/9, p.104

Recordak:
Microfilmer shoots drawings to 45 x 63 inches, IE, 1/20, p.106

Redin Production Machine Co.:
Gear deburring unit, production type, IE, 6/29, p.102

Reeves Industries Inc.:
Alphatized steel-gasalloy process jointly owned, 5/4, p.51

Reid Bros. Co. Inc.:
Automatic downfeed on grinder, IE, 4/27, p.123

Reliance Electric & Engineering Co.:
Pole Piece (one drilling and tapping machine) replaces 140 tooling arrangements, 1/20, p.53
Magnetic pulse generator, IE, 5/4, p.192
Swiss plant dedicated, B, 5/11, p.36
Wider speed range on mechanical drives, IE, 3/16, p.192
Wire tensioned accurately, 5/11, p.65

REM Sales Inc.:
Chucking lathe, dual purpose, IE, 8/19, p.112
Lathe shows toolroom, production capability, IE, 2/10, p.179
Slot miller cuts fine, IE, 3/9, p.100
Wire cold header, IE, 6/15, p.119

Remington Corp.:
Sale to Singer, B, 4/20, p.52

Renwell Industries Inc.:
Buys Barker & Williamson, B, 5/4, p.52

Republic Aviation Corp.:
EDM replaces Kellermatic drill motors, brake doors, 6/15, p.54
Electrohydraulic forming (capacitor discharge), with lightning flash (AF contract for sheet metal parts), 2/24, p.52

Republic Foil Inc.:
Builds foil rolling mill, N. C., 5/11, p.36

Republic Industrial Corp.:
Buys Illinois Milling, B, 3/2, p.32

Republic Steel Corp.:
Basic oxygen furnaces, Gadsden, Ala., B, 1/6, p.53
Basic oxygen plants to get computer control, 5/25, p.51
Buttweld pipe mill ($6 million) planned at Youngstown, 4/6, p.29
Capital expenditure spending-three years, including Niles, Warren, and Gadsden, 5/25, p.51
Coil coating line and roof deck forming line, Mfg. Div., 2/3, p.35
Electricweld pipe made direct from coils, Youngstown plant, 5/11, p.72
Electronic inspection system classifies hot rolled bars, 6/8, p.112
Executive development program, speakers: Dale, Cornell; Hogan, Fordham; Drucker, consultant, 3/2, p.50
Hamaker obit, 1/13, p.23
Patton: Steel resurgence, good news to users (cover), 4/6, p.51
Patton: Vacuum degassing growth, 3/16, p.33
Stainless prices cut, nickel savings possible, 4/6, p.31
Steel tubing packaged for shipping, 1/27, p.74
Vacuum carbon deoxidation practice via vacuum arc remelting, 2/24, p.20
Vacuum degassing mixer ladles, arc welded, 1/27, p.69
Vacuum degassing unit for S. Chicago, B, 4/13, p.52
Widmer: Recognizing 'needs' for effective marketing, 2/17, p.17

Resources for the Future Inc.:
Packaging materials, new territories, 1/27, p.65

Reuland Electric Co.:
Ratings added to motor reducer line, IE, 4/6, p.123

Revere Copper & Brass Inc.:
Buys John Paulding, B, 3/16, p.51

Rex Chainbelt Inc.:
New name for Chain Belt, 3/9, p.35

Rex Co., J. W.:
Adds facilities to heat treat plant, 2/24, p.35

Reynolds Metals Co.:
Aluminaut, deep sea exploration submarine, 3/16, p.44
Solid aluminum conductor cable for electric distribution lines, 2/17, p.20

Rhodesian Selection Trust Ltd.:
Prain addresses Copper Club, advocates stable world price, 2/17, p.31

Richline Co. Inc.:
Air power rivet gun, IE, 1/13, p.71

Ridge Tool Co.:
Buys assets of Desmond-Stephen Mfg., B, 1/20, p.32

Riegal Paper Corp.:
McFeely: Personnel motivation, 1/27, p.27

Riverside-Alloy Metal:
See H. K. Porter Company

Rivett Lathe & Grinder Inc.:
Line of hydraulic cylinders for medium pressure, 2/10, p.191

Roberts Co., C. A.:
Buys Center Tool & Eng., B, 6/22, p.35

Robertson Transformer Co.:
Buys Harders Eng., B, 2/3, p.35

Robins Conveyor: See Hewitt-Robins

Roblin Steel Corp.:
Renamed (was Roblin Seaway), multistrand continuous casting machine at Dunkirk, built by Koppers, 5/11, p.35

Rocket Power Inc.:
Buys Cal Val Research, B, 4/13, p.52

Rockford Machine Tool Co.:
Machine combines milling, planing, IE, 2/24, p.107

Rockwell Mfg. Co.:
LFM-Atchison reliability tests: Match material, process to assure performance (steel castings used in heavy field equipment), 4/20, p.100
Builds power tool plant, Tenn., 4/13, p.52
Daugherty blasts industry patterns on wages, 5/18, p.17
Short bed lathe needs little floor space, IE, 1/27, p.121

Rockwell-Standard Corp.:
Moves offices, B, 2/3, p.35

Rohm & Haas Co.:
Plastic uses for auto industry, 1/13, p.51

Rohr Aircraft Corp.:
Contract for rocket nozzles (Thiokol), 2/10, p.36

Ronson Metals Corp.:
Europium compounds (nuclear properties) offered, 2/24, p.67

Rootes Motors Ltd.:
Chrysler offering to buy share, 6/15, p.35

Ross Gear & Tool Co. Inc.:
Merged into TRW, 4/13, p.52

Roto-Finish Ltd.:
Gear finishing in single operation, 5/18, p.18

Roto-Finish/Ransohoff Co.:
Vibrating separator, IE, 2/10, p.188

Roy Co., Milton:
Hydrogen separator for tube annealing furnace, 6/8, p.47

Roy & Son Co., B. S.:
Roll grinder mounts on mill, IE, 5/18, p.114

Rundt & Associates, S. J.:
Table: How tariff rates compare internationally, 5/18, p.33

Russell, Holbrook & Henderson Inc.:
West German firm's vertical turning machine marketed, IE, 1/27, p.124

Rust Engineering Co.:
Buys office building from Bowaters, B, 6/22, p.36

Rust Proofing & Metal Finishing Corp.:
Conversion coat cuts corrosion, 6/22, p.66

Ryan Aeronautical Co.:
Explosive forming Saturn bulkheads, 1/27, p.20

Ryerson & Son Inc., Joseph T.:
Enters exotic metals field, 4/13, p.51

S

SKF Industries Inc.:
Builds plant at Shelbyville, Tenn., 1/27, p.35
Computer aids bearing testing capacity, 6/22, p.60
Labor contract with USW local, Philadelphia (new work rules), 3/9, p.28

S&S Machinery Co.:
Machine notches, shears, punches metal shapes, IE, 4/6, p.129

Saco-Lowell Shops:
Resin bonds PVC to steel, 1/27, p.67

St. Joseph Lead Co.:
Expands smelting operations, Mo., 2/3, p.33

Sandia Corp.:
Moyer gets Brumbaugh Award at Quality Control convention (workmanship problem), 5/11, p.33

Sandvik Steel Inc.:
Introduces HIP tungsten carbide for machining cast iron, 4/27, p.26

Scheerer Bearing Corp.:
Formed, B, 3/9, p.35

Scovill Mfg. Co.:
Hardfacing wire drawing capstans resists corrosion, 4/20, p.108
Schrader cylinders designed as double rod end types, IE, 6/29, p.96

Segal Inc., Edward:
Electric interlocks guard tools, parts, IE, 6/15, p.124

Selectrons Ltd.:
New duburring tool, electrochemical method, 2/3, p.19
Power driven rotary tool eases selective plating, IE, 6/1, p.93

SemiAlloys Inc.:
Sliced molybdenum and tungsten discs to customers' requirements, 2/24, p.57

Seneca Falls Machine Co.:
Control works from three input modes, IE, 4/13, p.146

Sentry Co.:
Electric furnace upgrades tool steel hardening (built for Standard Nut), 5/11, p.64

Service Machine Co.:
OBI press adapts to stamping, IE, 6/29, p.96

Sharon Steel Corp.:
Air conditioner (portable Breezewagon) aids workers in relining oxygen furnace, 3/9, p.52
Carbon lining for blast furnace gives long service, 6/8, p.112
Expansion program (Stora Kaldo unit, vacuum degassing unit, pressure casting facilities), 4/6, p.35

Sharples Corp.:
Inert gas shields allow open air titanium welds, 5/25, p.49

Sheehan Co., R. T.:
Flex-Bend portable conveyor, IE, 5/18, p.103
Telescoping conveyors, IE, 1/13, p.71
Truck loader extends to 60 ft lengths, IE, 3/16, p.188

Sheffield Corp.:
3-D measuring machine, digital readout, IE, 2/27, p.116
Crush grinder supplied Cuyahoga Wks., 6/8, p.102
Direct reading type height gage, IE, 5/25, p.160
Measuring units on gaging machines, IE, 4/13, p.155
Modular grinder handles short, long runs, IE, 6/22, p.103
Ultrasonic vibration tests, progress report, 3/9, p.19

Sheffield Div.: See Armco Steel

Sheldon Machine Co. Inc.:
Special headstock design on lathe, IE, p.204
Spindle capacity, tool positioning, benefits, IE, 6/15, p.115

Shenango Furnace Co.:
Buys Bonney Floyd, Ohio Foundry, 1/6, p.46

Shofield & Associates Inc., George H.:
Stamping plant, Cleveland, B, 3/30, p.52

Silent Hoist & Crane Co.:
Truck for hot metal handling, IE, 4/6, p.129

Simmons Machine Tool Corp.:
Buys Niles line from B-L-H, B, 6/15, p.36

Singer Co.:
Acquiring Remington Corp., B, 4/20, p.52

Size Control Co.:
Machine laps parts up to 15 inches long, IE, 3/30, p.199

Sherman Industries Inc.:
Nonmagnetic stainless (Magnil) for electronic use, 4/6, p.74

Sherritt Gordon Mines Ltd.:
Nickel powder of low density available for compacting, 6/8, p.115
Pressure leaching for ore recovery (chemical process), 2/10, p.89

Signode Corp.:
Tool straps, seals wide package range, IE, 6/22, p.112

Signode Steel Strapping Co.:
Name changed to Signode Corp., B, 4/27, p.36

Smith Corp., A. O.:
Announces Kentucky plant for electric motors, 5/4, p.51
Arc spotweld (Button) unit, 4/20, p.123
Plastic field new, buys Ionia plant and supplies plastic Corvette bodies, 2/3, p.87
Plastic auto body assembly, joint venture with Dow, 3/23, p.82
Mechanical process for internal expansion of line pipe, 3/23, p.53

Smith-Corona Marchant Inc.:
Setomatic setscrew driving machine (assembly in an impression control bar for typewriters), 6/15, p.69

Snow-Nabstedt Gear Corp.:
Gear speed reducers, IE, 2/3, p.108

Snyder Corp.:
Drill-tapper adapts to short run work, IE, 4/27, p.132
Special, double end trunnion machine drills, reams steering knuckles, IE, 3/30, p.187

Solar Steel Corp.:
Centralizes in Cleveland, B, 1/6, p.53

Solid State Materials Corp.:
Experimental furnace for better magnetic materials, 1/20, p.32

Sommers Inc., C. F.:
Mayer Pollock Steel joins group, 2/3, p.35

Sonobond Corp.:
Ultrasonic ringwelding for sealing, 5/25, p.86

Sonotone Corp.:
Structural adhesive assembly cuts size of hearing aids, 6/15, p.59

Soule Steel Corp.:
Curved mold continuous caster, 4/6, p.35

Southwestern Engineering Co.:
Intermediate finishing mill (Vibro-Energy), IE, 4/20, p.183

Southwestern Industries Inc.:
Trav-A-Dial height gage, direct reading, IE, 5/18, p.104

Space-General Corp.:
Computer artificial cells produce "brain waves" similar to humans, 3/23, p.18

Spartanics Itd.:
Automatic shear performs on nameplates, decorative trim, IE, 2/3, p.107

Sparton Corp.:
Sells Railway Equipment Div., B, 5/25, p.52

Spaulding Fibre Co. Inc.:
Low electrical losses feature of new laminate (LL-161) with paper base and resin system, 3/30, p.130

Special Engineering Service Inc.:
Leveling-feeding line with Coil-Matic reel for ¼ in. stock, IE, 2/17, p.120

Sperry Products: See Automation Industries

Spitfire Tool & Machine Co.:
Lapping machine, IE, 4/27, p.125

Sprague Electric Co.:
Metal base transistor boosts frequency range, 5/18, p.63

Standard Nut & Bolt Co.:
Precision electric furnace upgrades tool hardening, 5/11, p.64

Standard Pattern Works:
Reactivated as Concord Machine Div., 3/30, p.52

Standard Pipe & Supply:
New steel developed for process piping, 1/27, p.74

Standard Pressed Steel Co.:
Automatic setscrew driving machine (on impression control bar of typewriter), 6/15, p.69
Computer selects, machine, then picks speeds, feeds, 1/6, p.124
Head-to-shank fillet design curves elliptically, 6/8, p.36

Standard Screw Co.:
Moen Faucet: Silver alloy aids brazing of Faucets, 2/10, p.99

Stanley Works:
Coating formulation for vacuum metallizing, IE, 1/13, p.67
Stanley Chemical buys Wilbur & Williams, 3/9, p.35
Strap sealer, air powered piston grip, IE, 5/18, p.115
Strapping tool tensions, seals, shears, IE, 6/1, p.91

Statham Instruments Inc.:
Stainless (vacuum melted Type 410) ends rejects, 3/23, p.49

Sta-Warm Electric Co.:
Heated elements on gate valve, IE, 3/2, p.100

Stearns Electric Corp.:
Automatic adjustment on dc brake line, IE, 1/6, p.270

Steel Co. of Canada Ltd.:
Installs plate mill (Mesta), B, 1/13, p.23

Steel Improvement & Forge Co.:
Acquires dies, tooling, and orders of Ohio & Machine's Hot Forge Div., 4/27, p.36

Sterling Bolt Co.:
Stapler secures corrugated cartons, 5/18, p.60

Sterling Electric Motors Inc.:
Variable speed drives, 15 to 25 hp, IE, 5/11, p.132

Stewart-Glapat Corp.:
Vertical belt conveyor carries bags, packages, IE, 5/11, p.125

Stocker & Yale Inc.:
Linearscope checks tiny bores, IE, 2/24, p.119
Portable optical comparator, IE, 5/18, p.110
Projector for measuring machines, IE, 4/27, p.134

Stokes Co., F. J.:
Now a div. of Pennsalt, B, 2/3, p.35

Stoody Co.:
Stainless electrodes and wires in low carbon sheath, IE, 4/27, p.135

Stratton Equipment Co.:
Acquires line of lift trucks, B, 3/30, p.52
Drum handlers power operated, IE, 5/18, p.112

Strycon Mfg. Co.:
Flash buttwelder joins blades, rods, strip, IE, 4/6, p.128

Studebaker Corp.:
Administration attacks South Bend labor plight, 1600 workers idled by shutdown, 1/6, p.45
Automotive-Canadian operation on schedule, 5/11, p.108
Gale (International): Some firms engage in world trade 'reluctantly', 3/16, p.122
Operations tightened at South Bend, Canadian output upped, 6/1, p.73
Sells stamping, forging facilities, 4/20, p.51
Sells South Bend plant to Essex Wire, 6/22, p.90

Sullivan Equipment Co.:
Steel belt conveyor used in quench tanks, IE, 3/30, p.188

Sunbeam Engineering Corp.:
Open hearth design (Steelmaster) conversion developer trims operating costs 4/27, p.54
Production heat treating furnace, IE, 6/22, p.104

Sunnen Products Co.:
Honing machine, heavy duty, IE, 2/24, p.119

Sunnen Service Corp.:
Gage measures bores directly, IE, 3/2, p.96

Sun Oil Co.:
Lubrication, hardware changes (cover pic), 5/25

Superior Valve & Fittings Co.:
Buys McIntye Co., 4/20, p.52

Supreme Products Corp.:
Tapping attachment, IE, 4/13, p.144

Surface Combustion Co.:
Carburizing furnace, atmosphere controlled, 6/29, p.54

Swanson-Erie Corp.:
Automatic assembly machine, Series AA standard, 4/6, p.33

Sweeney Mfg. Co., B. K.:
Dynamometers check stall, running torque, IE, 4/20, p.186

Swift Ohio Corp.:
Pole Piece machine—one drilling and tapping replaces 140 tooling arrangements built for Reliance Electric, 1/20, p.53

Swindell-Dressler Corp.:
Builds annealing base cooling system for J&L plant, 1/20, p.54

Sylvania Electric Products Inc.:
Coating (R508) protects columbium to 3150° F, 3/16, p.114

Syracuse Special Machine:
See Allen Tool Corp.

T

3M Co.:
35 blue adhesive, noninflammable, IE, 5/18, p.107
Quick change disc, pad; no adhesive needed, IE, 6/1, p.99

20th Century Sales Corp.:
Gun drill seals, IE, 5/18, p.106

Tally Corp.:
Data transmitter rental, IE, 5/25, p.169

Taper Micrometer Corp.:
Electro-Cal comparator, IE, 5/4, p.199

Taylor & Gaskin Inc.:
Buys Palmer-Bee, B, 4/13, p.52

Taylor Instrument Companies:
Quick-Scan control, IE, 1/13, p.65

Taylor-Winfield Corp.:
Buys Induction Heating, 5/4, p.52

Technamatic Corp.:
Speed Sealer plastic packaging machine, IE, 2/3, p.112

Tel-A-Dex Corp.:
Voice alarm system for digital control computer, 5/18, p.63

Teledyne Inc.:
Merges Dubrow Electronic, B, 4/13, p.52

Temescal Metallurgical Corp.:
Idea for electron beam furnace for charging ore and producing steel continuously, 2/10, p.97

Tennant, Sons & Co., C.:
Perutz: What it's like to deal with Russians, 6/1, p.23

Texas Gulf Sulphur Co.:
Ore body discovered in Timmins, Ont., contains zinc, copper, and silver, 4/27, p.35

Textron Inc.:
Buys Jones & Lamson, B, 2/10, p.49
Buys Speidel, B, 6/1, p.28
See also Cleveland Hobbing
See also Waterbury Farrel Div.

Textron Electronics Inc.:
Universal tester studies behavior of materials, 2/10, p.185

Tex-Tube Inc.:
Sold to Detroit Steel, 2/24, p.33

Thermal Dynamics Corp.:
Dual flow plasma torch, 5/4, p.142
Plasma torch, IE, 4/27, p.115

Thermatool Corp.:
Structurals welded with high frequency current, 4/27, p.47

Thew Shovel Co.:
Carbon Dioxide automatic welding, new method, 3/23, p.36
Merged into Koehring, B, 2/24, p.33

Thiokol Chemical Corp.:
Rocket motor nozzles plastic jacketed with maraging steel, 2/10, p.36
Solid propellant motors, new plant, liquid fuel, 5/25, p.158

Thompson Fiber Glass Co.:
Oxidation resistant carbon developed, 3/30, p.134
Zirconia fibers, IE, 1/6, p.264

Thompson Mfg. Co., Judson L.:
Div. renamed J. L. Thompson Rivet, B, 1/13, p.23

Thompson Ramo Wooldridge Inc.:
Columbium protected at high temps. by vacuum pack coat, diffusion alloy system of chromium - titanium - silicon, 3/16, p.128
Forms Bunker-Ramo with Martin Marietta, 1/27, p.18
Merging Marlin-Rockwell and Ross Gear, 4/13, p.52
Merging Ross Gear, B, 2/24, p.33
Merging Marlin-Rockwell, 1/20, p.32
N/C business offered by Bunker-Ramo (newly formed firm), 2/17 p.33
Pace reports EDP programing of maintenance, 2/10, p.110
Rifle production, brush finishing solves a deburring problem, 3/23, p.49
Schweitzer: 4th competitive dimension—technological competence, 2/17, p.17

Threadwell Tap & Die Co.:
Taps designed for screw thread inserts, IE, 3/16, p.186

Thurman Scale Co.:
Scale attaches to fork lift carriage, IE, 5/25, p.171

Timken Roller Bearing Co.:
Advice on bearing maintenance, 2/3 p.50
Seamless tubing formed from maraging steel, 4/20, p.47
Vacuum degassing unit installed by Lectromelt, 6/8, p.128

Tinnerman Products Inc.:
Front mounting plastic fastener self-retaining, IE, 1/27, p.130

Titan Steel & Wire Co. Ltd.:
Builds wire drawing plant, Vancouver, 3/30, p.51
Wire rod mill near Vancouver, venture with Japanese firms, 6/15, p.19

Tool Products Corp.:
Punches four sides in one operation, IE, 4/6, p.122

Tool Steel Hardened Products of Canada Ltd.:
Formed, B, 4/6, p.36

Torrington Co.:
Overrunning clutch, bearings exhibited, 5/4, p.198

Torrington Mfg. Co.:
Verti-Slide, 45 in. long press area, IE, 3/9, p.97

Towmotor Corp.:
Fork truck Model B series, B, 5/11, p.123
Molten metal carried and poured by lift truck, IE, 3/23, p.99
Two lift trucks for heavy duty, IE, 3/2, p.94
Visibility improved for fork lift truck, IE, 6/15, p.124

Tronic Sales Co.:
Cleaner (solvent, ultrasonic), 6/22, p.115

Troyke Mfg. Co.:
Cross slide rotary table for small milling machines, IE, 3/2, p.94

Tubotron Inc.:
Welding method (Thermatoo) speeds production of titanium tubing, 3/23, p.31

Turchan Follower Machine Co.:
Hydraulic tracer with joy stick control on milling machine, IE, 6/29, p.105

Turkkablo:
Joint venture (aluminum cable in Turkey), 6/1, p.28

Turnkey Engineering Co.:
Moves, B, 4/20, p.52

Twentieth Century Mfg. Co.:
Welder cuts metal quickly, IE, 2/17, p.110

Tyler Co., W. S.:
Vibrating screen needs little headroom, IE 2/24, p.116

Ty-Sa-Machine Co.:
Abrasive-wet cutting for warehouse, stainless mar orders, 6/1, p.46

Automated finishing line, Lorco Div., 3/2, p.45
Automated surface preparation equipment, 2/17, p.19
Buys Barrday Ltd., Ont., B, 6/29, p.32
Vibratory finisher, continuous process, IE, 4/13, p.153

Wheeling Steel Corp.:
Electrical equipment contract, Ohio plants, 6/29, p.32

Wickman Products Corp.:
Slot miller performs boring, vertical milling, IE, 6/29, p.107

Whirlpool Corp.:
Buys Heil-Quaker, B, 5/18, p.36

Whistler & Sons Inc., S. B.:
Die stripper made of Adiprene urethane rubber, 2/17, p.108

White Sewing Machine Corp.:
New name: White Consolidated Industries, 5/18, p.36

Whiting Corp.:
Automatic arcwelder and flux cored electrode, 3/30, p.121

Whitney Mfg. Co., W. A.:
Combination hand press, table, IE, 3/30, p.190
Gang punches—low cost, speed, flexibility, 1/27, p.77
Portable hydraulic punch has jog controls, IE, 6/29, p.100
Worktables simplify short runs, IE, 5/4, p.204

Wide-Lite Corp.:
Induction heating cures epoxy (housings for outdoor vapor lighting units), 1/20, p.52

Wiedemann Machine Co.:
Impact tester (Charpy) for subsize metal test specimens, 6/29, p.30
Sold to W&S, 6/29, p.31

Williams Furnace Co.:
Die change on hydraulic press brake fast, 3/30, p.121

Williams Mfg. Corp.:
Radiation shields formed to close tolerances in six draws, 3/16, p.122

Wilson Engineering Co., Lee:
Gasalloy-alphatized steel process jointly owned, 5/4, p.51
Twin coil annealer lowers operation, maintenance costs, 5/4, p.189

Wilton Tool Mfg. Co. Inc.:
Changes name to Wilton Corp., B, 6/29, p.32

Wisconsin Porcelain Co.:
Tumbling media does fine finishing, IE, 1/20, p.104

Wolverine Metal Co.:
Buys Michigan Lumber, B, 1/6, p.53

Wood's Sons Co., T. B.:
MSM variable speed drive, sheave adjustments, IE, 3/30, p.199
Motor base for variable speed drives, IE, 5/4, p.192
System boosts speed variation, hp, IE, 6/15, p.125

Woodward Iron Co.:
Buys TPC's coke plant, Tenn., 2/3, p.35

Wright-Patterson Air Force Base:
Single crystals grown in new furnace (magnetic materials), 1/20, p.32

Wyman-Gordon Co.:
Jointly produces Ford truck axles, 2/3, p.33

Wysong & Miles Co.:
HYD steelworker unit punches, notches, copes, IE, 5/4, p.209

X

Xerox Corp.:
Thin film production in making printed circuits studied, 5/4, p.133

Y

Yale & Towne Inc.:
Moves corporate offices to Cleveland (Eaton Mfg.), 6/22, p.36
Plan material handling into plant layout (Dr. Eaton), 5/25, p.85
Series of lift trucks and chain hoists, IE, 2/17, p.113
Variety of lift truck equipment, IE, 2/24, p.110

Yoder Co.:
Local sales service, realignment of sales strategy and staffing, 4/6, p.35

Youngstown Sheet & Tube Co.:
Dedicates research center (Dr. Fetters comments), 6/22, p.35
Williams: Tax cut, chance to prove ourselves, 3/30, p.33

Yuba Heat Transfer Corp.:
Warner & Swasey-Lahr deep hole gun drill, IE, 1/20, p.10

Z

Zagar Inc.:
Hydraulic feed and open side design on hole machines, IE, 6/15, p.123

Zak Inc.:
Button furnace evaluates test samples, IE, 6/1, p.90

Ziamatic Co.:
Automatic drill head, improvements, IE, 4/13, p.161

Zimmerman Mfg. Inc.:
Equi-Air Balancer (hoist), IE, 6/1, p.99

Zirconium Corp. of America:
Plant expansion, refractory products, B, 6/1, p.28
